2015-10-06 Shane Hipps At some point in life everyone is compelled to ask the primordial question -- Why am I here? How we answer that question determines whether or not we will discover our true calling in life and harness our full professional, personal, and spiritual potential. Many counterfeit voices will offer an answer, but the one true voice whispers from the inside. Cats Don't Bark provides powerful techniques to help the reader listen for the

"One Voice" and find the courage to follow it. This is a book about discovering who we are, accepting who we are not, and cultivating the habits we need to discover and embrace who we were meant to be.

2020-08-04 Matt Blumberg You're only a startup CEO once. Do it well with Startup CEO, a "master class in building a business." —Dick Costolo, Former CEO, Twitter Being a startup CEO is a job like no other: it's difficult, risky, stressful, lonely, and often learned through trial and error. As a startup CEO seeing things for the first time, you're likely to make mistakes, fail, get things wrong, and feel like you don't have any control over outcomes. Author Matt Blumberg has been there, and in Startup CEO he shares his experience, mistakes, and lessons learned as he guided Return Path from a handful of employees and no revenues to over \$100 million in revenues and 500 employees. Startup CEO is not a memoir of Return Path's 20-year journey but a thoughtful CEO-focused book that provides first-time CEOs with advice, tools, and approaches for the situations that startup CEOs will face. You'll learn: How to tell your story to new hires, investors, and

customers for greater alignment How to create a values-based culture for speed and engagement How to create business and personal operating systems so that you can balance your life and grow your company at the same time How to develop, lead, and leverage your board of directors for greater impact How to ensure that your company is bought, not sold, when you exit Startup CEO is the field guide every CEO needs throughout the growth of their company.

2007-09-09 Bryan Eisenberg Evolving from the premise that customers have always behaved more like cats than Pavlov's dogs, *Waiting for Your Cat to Bark?* examines how emerging media have undermined the effectiveness of prevailing mass marketing models. At the same time, emerging media have created an unprecedented opportunity for businesses to redefine how they communicate with customers by leveraging the power of increasingly interconnected media channels. Bryan and Jeffrey Eisenberg don't simply explain this shift in paradigm; *Waiting for Your Cat to Bark?* introduces Persuasion Architecture™ as the synthetic model that provides business with a proven context for rethinking customers and retooling marketers in a rewired market. Readers will learn: Why many marketers are unprepared for today's increasingly fragmented, in-control, always-on audience that makes pin-point relevance mandatory How interactivity has changed the nature of

marketing by extending its reach into the world of sales, design, merchandizing, and customer relations How Persuasion Architecture™ allows businesses to create powerful, multi-channel persuasive systems that anticipate customer needs How Persuasion Architecture™ allows businesses to measure and optimize the return on investment for every discreet piece of that persuasive system "There's some big thinking going on here-thinking you will need if you want to take your work to the next level. 'Typical, not average' is just one of the ideas inside that will change the way you think about marketing." ?Seth Godin, Author, *All Marketers Are Liars* "Are your clients coming to you armed with more product information than you or your sales team know? You need to read *Waiting for Your Cat to Bark?* to learn how people are buying in the post-Internet age so you can learn how to sell to them." ?Tom Hopkins, Master Sales Trainer and Author, *How to Master the Art of Selling* "These guys really 'get it.' In a world of know-it-all marketing hypesters, these guys realize that it takes work to persuade people who aren't listening. They've connected a lot of the pieces that we all already know-plus a lot that we don't. It's a rare approach that recognizes that the customer is in charge and must be encouraged and engaged on his/her own terms, not the sellers. *Waiting for Your Cat to Bark?* takes apart the persuasion process, breaks down the steps and gives practical ways to tailor your approaches to your varying real customers in the real

world. This book is at a high level that marketers better hope their competitors will be too lazy to implement." ?George Silverman, Author, *The Secrets of Word of Mouth Marketing: How to Trigger Exponential Sales Through Runaway Word of Mouth* "We often hear that the current marketing model is broken-meaning the changes in customers, media, distribution, and even the flatness of the world make current practices no longer relevant. Yet few have offered a solution. This book recognizes the new reality in which we operate and provides a path for moving forward. The authors do an outstanding job of using metaphors to help make Persuasion Architecture clear and real-life examples to make it come alive. Finally, someone has offered direction for how to market in this new era where the customer is in control." ?David J. Reibstein, William Stewart Woodside Professor, Wharton Business School of the University of Pennsylvania and former Executive Director, Marketing Science Institute "If you want to learn persistence, get a cat. If you want to learn marketing, get this book. It's purrfect." ?Jeffrey Gitomer, Author, *The Little Red Book of Selling*
