Where I'm Reading From-Tim Parks 2014-11-06 Should you finish every book you start? How has your family influenced the way you read? What is literary style? How is the Nobel Prize like the World Cup? Why do you hate the book your friend likes? Is writing really just like any other job? What happens to your brain when you read a good book? As a novelist, translator and critic, Tim Parks is well-placed to investigate any questions we have about books and reading. In this collection of lively and provocative pieces he talks about what readers want from books and how to look at the literature we encounter in a new light. These pieces were originally published as columns in the New York Review of Books.

Sport in a Changing World-Howard L. Nixon 2015-11-30 In a stressful, turbulent world, sports can be an escape from reality. Yet sport actually mirrors the issues and problems of our world today, bearing the imprint of powerful forces of social change. This book offers a sociological perspective for seeing and understanding the place of sport in society and how it is affected by big business and by demographic, cultural, organizational, economic, political, and technological change. Nixon's main focus is "big-time" commercialized and corporate sport, from Little League Baseball, Inc. to youth club sports, high school and college athletics, and professional and Olympic sports. He writes vividly of the making and unmaking of heroes and celebrities. Throughout he shows how the combined influence of networks of major sports organizations, media corporations, and corporate sponsors is shaping sport around the world.

Strategy and Innovation for a Changing World-John M Clegg 2021-10-28 Invention and innovation are not the same. When we come up with an exciting and original new idea, by itself that idea is not an innovation

Cultures and Societies in a Changing World-Wendy Griswold 2012-01-10 In the Fourth Edition of Cultures and Societies in a Changing World, author Wendy Griswold illuminates how culture shapes our social world and how society shapes culture. Through this book, students will gain an understanding of the sociology of culture and explore stories, beliefs, media, ideas, art, religious practices, fashions, and rituals from a sociological perspective.

Cultural examples from multiple countries and time periods will broaden students' global understanding. Students will develop a deeper appreciation of culture and society from this text, shaping insights that will help them overcome cultural misunderstandings, conflicts, and ignorance and that will help equip them to live their professional and personal lives as effective, wise citizens of the world.

Seed Dispersal-Andrew J. Dennis 2007 Fresh concepts in the study of seed dispersal are spurring a host of exciting new questions, new answers to old questions, new methods and approaches, and a reinvigoration of the field.Seed Dispersal: Theory and its Application in a Changing World presents both recent advances and reviews of current knowledge demonstrating the vigour and vibrancy of the field. It provides new perspectives and directions at a time when efforts to meet growing environmental challenges threatening natural systems are of utmost importance.

The Changing World of Publishing-Dan Shaver 2020-09-24 This issue represents a broad synopsis of the past, present, and future of electronic publishing. The contributors explore the opportunities and challenges related to this new distribution channel, and the effect of this change on publishers, authors/editors, distributors, and consumers. Standing with the key to the "new world," publishers will be faced with new opportunities and nagging issues related to new competition, content control, and protection of revenue streams requiring strategies that stress rationalization of distribution systems, cross-promotion, strategic pricing, and leveraging to new revenue sources. In addition, this issue also highlights the objections of consumers to these types of change, the benefits of the new technology for consumers, and the adaptation of the publishing industry as a whole.

Work, Working and Work Relationships in a Changing World-Clare Kelliher 2018-12-19 This book is concerned with the rapid and varied changes in the nature of work and work relationships which have taken place in recent years. While technological innovation has been a key contributor to the nature and pace of change, other social and market trends have also played a part such as increasing workforce diversity, enhanced competition and greater global integration. Responding to these trends alongside cost pressures and the need for continued responsiveness to the environment, organizations have changed the way in which work is organized. There have also been shifts in product markets with growing demand for authenticity and refinement of the customer experience which has further implications for how work is organized and enacted. At the same time, employees have sought changes in their work arrangements in order to help them achieve a more satisfactory relationship between their work and non-work lives. Many have also taken increased responsibility for managing their own work opportunities, moving away from dependency on a single employer. The implications of these significant and widespread changes are the central focus of this book and in particular the implications for workers, managers, and organizations. It brings together contributions from an international team of renowned management scholars who explore the opportunities and challenges presented by technological and digital innovation, consumer, social and organizational change. Drawing on empirical evidence from Europe, North America and Australia, Work, Working and Work Relationships in a Changing World considers new forms of service work, technologically enabled work and independent professionals to provide in-depth insight into work experiences in the 21st Century.

Revisiting EU-Africa Relations in a Changing World-Fargion, Valeria 2021-09-07 This timely book explores the current state of EU-Africa relations from a multidisciplinary perspective, placing emphasis on recent developments in five areas that are crucial for EU-Africa relations: development cooperation, trade, migration, security and democratization. It considers how Africa's dependence on the EU has decreased due to the declining importance of development cooperation, and increasing cooperation with emerging powers, notably the BRIC nations.

Publishing in the Digital Age-Michael N. Ross 2021-10-18 The world of publishing is evolving at an ever-increasing speed, with developments in digital workstreams and products, customer expectation, enriched content curation, and user-generated content becoming commonplace. In Publishing in the Digital Age: How Business Can Thrive in a Rapidly Changing Environment, Ross discusses the most significant and recent developments in educational and trade publishing, educational technology, and marketing that has enabled a new generation of content creators to reach more consumers. It is the only book that addresses disruption in the industry head on. Building on the insights from his last book, Dealing with Disruption: Lessons from the Publishing Industry, Ross takes a fresh look at the publishing environment and provides the reader with a clear view of how publishing has evolved and how it has benefitted consumers regardless of their preferred medium for accessing knowledge. Through an examination of what has worked and what has not, and with Ross's unique perspective of more than 35 years of publishing success, Publishing in the Digital Age presents an indispensable overview of the publishing industry, how it has evolved during the first quarter of the 21st century, and how publishers, content providers, and consumers can benefit from the many options that are available today. With insights from industry leaders, Ross discusses new opportunities on the Web, streaming services, and audio formats. He reviews new publishing platforms and provides a practical guide for content developers to address the knowledge needs of their constituents by giving readers real-life, actionable examples of how best to publish their content consistent with users' purchasing preferences. The book will be of interest to specialists in education: K-12 and higher education, the non-fiction trade, corporate education trainers, and specialist sectors such as scholarly, technical, and medical publishing. It includes clear applications for any business that is undergoing transformation or is forced to make a radical pivot because of sudden environmental changes or market conditions.

Wildlife Issues in a Changing World- 1998-08-18 Students of conservation encounter some of the most complex issues on our planet. The resolution of existing problems become more complex when humans create further stresses on the natural balance. Moulton and Sanderson brought the challenging issues in wildlife conservation into greater clarity in Wildlife Issues in a Changing World. The Second Edition of this definitive reference focuses more closely on the causes of wildlife issues. The examination of Jared Diamond's "Evil Quartet" (the four principal causes of extinction) provides a framework for categorizing and resolving these issues. The authors encourage the use of the scientific method basis for resolution - especially where environmental laws have failed. The three new chapters provide further counterpoints to preconceived notions. A two-part history of wildlife in the U.S. shows how wildlife had already been decimated by the year 1900. "Can Humans Manage Wildlife?" questions efforts to revive endangered species, acts which may inadvertently jeopardize the survival of other life. Viewing the natural order from prehistoric times to the present, Wildlife Issues in a Changing World, Second Edition gives students and instructors an all-encompassing introduction to past relations between humans and nature; explorations of current threats to species and their habitats; and recent "novel solutions," where humanity and industry have made adjustments to protect the natural order. Professionals will also find invaluable reminders of the importance of their work - the continuation and endurance of wildlife everywhere on Earth.

Cultural Heritage in a Changing World-Karol Jan Borowiecki 2016-05-02 The central purpose of this collection of essays is to make a creative addition to the debates surrounding the cultural heritage domain. In the 21st century the world faces epochal changes which affect every part of society, including the arenas in which cultural heritage is made, held, collected, curated, exhibited, or simply exists. The book is about these changes; about the decentring of culture and cultural heritage away from institutional structures towards the individual; about the questions which the advent of digital technologies is demanding that we ask and answer in relation to how we understand, collect and make available Europe's cultural heritage. Cultural heritage has enormous potential in terms of its contribution to improving the quality of life for people, understanding the past, assisting territorial cohesion, driving economic growth, opening up employment opportunities and supporting wider developments such as improvements in education and in artistic careers. Given that spectrum of possible benefits to society, the range of studies that follow here are intended to be a resource and stimulus to help inform not just professionals in the sector but all those with an interest in cultural heritage.

Children in Changing Worlds-Ross D. Parke 2019-07-31 Applies a historical, cultural, and life-course developmental framework toward understanding children's lives in a changing world.

Bats in the Anthropocene: Conservation of Bats in a Changing World-Christian C. Voigt 2015-12-07 This book focuses on central themes related to the conservation of bats. It details their response to land-use change and management practices, intensified urbanization and roost disturbance and loss. Increasing interactions between humans and bats as a result of hunting, disease relationships, occupation of human dwellings, and conflict over fruit crops are explored in depth. Finally, contributors highlight the roles that taxonomy, conservation networks and conservation psychology have to play in conserving this imperilled but vital taxon. With over 1300 species, bats are the second largest order of mammals, yet as the Anthropocene dawns, bat populations around the world are in decline. Greater understanding of the anthropogenic drivers of this decline and exploration of possible mitigation measures are urgently needed if we are to retain global bat diversity in the coming decades. This book brings together teams of international experts to provide a global review of current understanding and recommend directions for future research and mitigation.

Book Business: Publishing Past, Present, and Future-Jason Epstein 2011-02-07 "An irresistible book about Grub Street, authorship and the literary marketplace."—Washington Post Book World Jason Epstein has led arguably the most creative career in book publishing during the past half-century. He founded Anchor Books and launched the quality paperback revolution, cofounded the New York Review of Books, and created of the Library of America, the prestigious publisher of American classics, and The Reader's Catalog, the precursor of online bookselling. In this short book he discusses the severe crisis facing the book business today—a crisis that affects writers and readers as well as publishers—and looks ahead to the radically transformed industry that will revolutionize the idea of the book as profoundly as the introduction of movable type did five centuries ago.

Environments in a Changing World-John Huckle 2014-09-19 While there is no shortage of books on the environment there are few introductory texts that outline the social theory that informs human geographical approaches to the interactions between ecology and society. Students arriving at university often lack the understanding of history, economics, politics, sociology and philosophy that contemporary human geography requires. Environments in a Changing World addresses this deficit, providing foundation knowledge in a form that is accessible to first year students and applied to the understanding of both contemporary environmental issues and the challenge of sustainability. Students are challenged to develop and defend their own ethical and political positions on sustainability and respond to the need for new forms of ecological citizenship.

Regionalism in a Changing World-Lorenzo Fioramonti 2019-01-02 Regionalism has been a key feature of contemporary international relations. As the most successful case of regional integration, the European Union (EU) has been leading the international debate. Yet, in the past few years new regional practices have emerged in other continents, thus adding to the variety and scope of regionalization processes. This book provides a comprehensive overview of the state of regionalism in a global arena ever more dominated by emerging powers and shifting political/economic balances. Against the backdrop of the global economic crisis, which has invariably weakened Europe and its integration model, the book examines the pace of integration in Africa, Asia and South America, highlighting the opportunities and challenges that the new global order poses to contemporary regionalisms. Besides a number of empirical case studies focusing on the political, economic and legal aspects of regionalization, the book also discusses innovative theoretical approaches to the study of regionalism in a post-European context. This book was originally published as a special issue of The International Spectator.

Thrive-Valerie Hannon 2021-02-28 Every generation faces challenges, but never before have young people been so aware of theirs. Whether due to school strikes for climate change, civil war, or pandemic lockdowns, almost every child in the world has experienced the interruption of their schooling by outside forces. When the world we have taken for granted proves so unstable, it gives rise to the question: what is schooling for? Thrive advocates a new purpose for education, in a rapidly changing world, and analyses the reasons why change is urgently needed in our education systems. The book identifies four levels of thriving: global - our place in the planet; societal - place, communities, economies; interpersonal - our relationships; intrapersonal - the self. Chapters provide research-based theoretical evidence for each area, followed by practical international case studies showing how individual schools are addressing these considerable challenges. Humanity's challenges are shifting fast: schools need to be a part of the response.

India in a Changing World-Govind Bhattacharjee 2019-07-14 During the past few years, India has passed through a tumultuous period, characterised by events, ideas and reforms which are truly transforming the socio-economic landscape of the country. It is an era of great upheaval in the country—socially, economically and politically—which is making a complete break with its past to rediscover itself and to redefine its role in the twenty-first century world. This book, a collection of fifty published essays, captures the spirit of these extraordinary times in India that are shaping not only its own future, but also impacting, and being in turn impacted by, the world around. In the process of harnessing the energy and creative potential of the billion-plus population of this youthful nation, and to leverage the power of technology to accelerate growth and improve delivery, fault-lines are also appearing that threaten to disrupt the process of change. The book chronicles the essence of these changing times in India, encompassing its history, economy and society against the backdrop of a rapidly evolving world.

Genre in a Changing World-Charles Bazerman 2009-09-16 Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. GENRE IN A CHANGING WORLD provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sciences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genre in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

The Shatzkin Files-Mike Shatzkin

Classical Music in a Changing World-Lawrence Kramer 2021-09-07 In recent years classical music has become a test case for debates over the future of culture. As times have changed, the value traditionally placed on this music has been challenged on social rather than aesthetic grounds. Lovers of classical music have been asked how its privileged history can be reconciled with growing demands for social justice and social inclusiveness. They have been asked how the music's standing as one of the great accomplishments of the West can be reconciled with the many injustices on which those accomplishments in part depended. How can the future of classical music escape the darker shadows of its past? 'Classical Music in a Changing World: Crisis and Vital Signs' addresses the crisis provoked by such questions in two complementary ways. Several of the chapters show how the classical music world is already grappling with the crisis, and finding vital signs beyond the borders of the music's traditional European strongholds: in Turkey from Ottoman times to the present, in Colombia, and in a Black American film. Other chapters identify areas that still need improvement, especially on behalf of female and LGBTQ+ musicians, and suggest how advances can be made both on concert stages and in schools. This volume, which opens with an introduction by Alberto Nones that contextualizes the book and outlines the main arguments of its chapters, contains an essay by Lawrence Kramer that examines the place of classical music in the history of consciousness—a history now changing rapidly—and concludes with a Postscript written by the two editors. The writing in this volume will be accessible to a wide audience, including scholars and students, professionals and amateurs, performers and listeners. Teachers will find it a source of lively classroom debate, and scholars a source of learning outside the usual arenas. The book's "vital signs" include the accompanying audio tracks (available for download at: https://vernonpress.com/book/1281), which feature vibrant music-making from a diverse range of performers and composers.

Inside Book Publishing-Giles Clark 2014-06-27 Now in its fifth edition, Inside Book Publishing remains the classic introduction to the book publishing industry, being both a manual for the profession for over two decades and the bestselling textbook for students of publishing. This new edition has been fully updated to respond to the rapid changes in the market and technology. Now more global in its references and scope, the book explores the tensions and trends affecting the industry, including the growth of ebooks, self-publishing, and online retailing, and new business models and workflows. The book provides excellent overviews of the main aspects of the publishing process, including commissioning, product development, design and production, marketing, sales and distribution. The book remains essential reading for publishing students, those seeking a career in publishing, recent entrants to the industry, and authors seeking an insider's view. The accompanying website supports the book by providing up-to-date and relevant content.

Managing Tourism in a Changing World-Rodolfo Baggio 2016-04-08 Managing Tourism in a Changing World provides an overview of state-of-the-art research surrounding today's tourism management. Recognising the relevance of tourism activities as major economic drivers, this book offers a significant contribution to the advancement of managerial practice in the tourism field. It is the outcome of the collective intellectual efforts of a number of scholars, with dissimilar geographical roots and backgrounds, who cultivate original research on tourism management from a variety of perspectives (economic, managerial) and using multiple methods (theory building, experimental and inductive case-based inquiries). While drawing on multiple theoretical perspectives and adopting different epistemological paradigms and methodologies, this book answers a wide range of research questions related to a number of relevant themes in the following fields: destination management, marketing and branding, inter-organizational dynamics and corporate social responsibility in the tourism sector. This book was originally published as a special issue of Anatolia.

Principles for Dealing with the Changing World Order-Ray Dalio 2021-11-30 From legendary investor Ray Dalio, author of the international bestseller Principles, who has spent half a century studying global economies and markets, Principles for Dealing with the Changing World Order examines history's most turbulent economic and political periods to reveal why the times ahead will likely be radically different from those we've experienced in our lifetimes - but similar to those that have happened many times before. A few years ago, Ray Dalio noticed a confluence of political and economic conditions he hadn't encountered before. They included huge debts and zero or near-zero interest rates that led to massive printing of money in the world's three major reserve currencies; big political and social conflicts within countries, especially the US, due to the largest wealth, political and values disparities in more than 100 years; and the rising of a world power (China) to challenge the existing world power (US) and the existing world order. The last time that this confluence occurred was between 1930 and 1945. This realisation sent Dalio on a search for the repeating patterns and cause/effect relationships underlying all major changes in wealth and power over the last 500 years. In this remarkable and timely addition to his Principles series, Dalio brings readers along for his study of the major empires - including the Dutch, the British and the American - putting into perspective the 'Big Cycle' that has driven the successes and failures of all the world's major countries throughout history. Dalio reveals the timeless and universal forces behind these shifts and uses them to look into the future, offering practical principles for positioning oneself for what's ahead.

Family Communication-Beth A. Le Poire 2006 What's the most common family form today? In what ways can we define "family" that ensure it is inclusive of all family forms? Despite the current diverse nature of family forms, which functions are fulfilled by the family regardless of its makeup> In what ways do family members function to nurture and control each other through their changing roles and rules to maintain their family identity? Family Communication examines the role communication plays in family development and maintenance—from a consideration of what constitutes a "family" (according to various governmental, religious, and social science orientations), to the initiation of dating relationships and romantic commitment, to adding and raising socio-emotionally competent children. Also explored are the roles that communication plays in maintaining intimacy and closeness in the family and in managing family conflicts and tensions. In addition, unique emphasis is given to how cognitions and emotions influence communication outcomes in the family. Despite the diversity of family forms today, families all share one thing in common—they all include some form of nurturing and control: support and development and behavior control and limitations; nurturing communication to encourage intimacy development and maintenance and controlling communication to resolve conflict and change undesirable behavior. By organizing the study of family communication around the concepts of nurturing and control, author Beth Le Poire emphasizes the central role that communication plays in both families if origin and newly formed families.

Language Sustainability in a Changing World-Marinela Burada 2020-09-23 This volume includes thirteen papers presented at the 16th Conference on British and American Studies held at Transilvania University of Brasov, Romania. It consists of three main parts, the first of which includes contributions falling within the scope of communication and meaning-making. The articles gathered here consider issues such as social identity and the construction of gender both in and through language, and the rendition of cultural content across languages. The second section takes a closer look at language in context: the contributions included here approach language as a means to encode and decode the reality around us, whether in media discourse, academic contexts, fictional literature or bilingual dictionaries. The research strand in the third part of the volume relates to the lexico-grammatical specificities of natural languages. The focus of attention here is Romanian, with some of its structural particularities set against those present in other languages.

Becoming Citizens in a Changing World-Wolfram Schulz 2018-05-01 This open access book presents the results from the second cycle of the IEA International Civic and Citizenship Education Study (ICCS 2016). Using data from 24 countries in Asia, Europe and Latin America, the study investigates the ways in which young people are prepared to undertake their roles as citizens in a range of countries in the second decade of the 21st century. It also responds to the enduring and emerging challenges of educating young people in a world where contexts of democracy and civic participation continue to change. New developments of this kind include the increase in the use of social media by young people as a tool for civic engagement, growing concerns about global threats and sustainable development, as well as the role of schools in fostering peaceful ways of interaction between young people. Besides enabling the evaluation of a wide range of aspects of civic and citizenship education, including those related to recent developments in a number of countries, the inclusion of test and questionnaire material from the first cycle of the study in 2009 allows the results from ICCS 2016 to be used to examine changes in civic knowledge, attitudes and engagement over seven years.

Power in a Changing World Economy-Benjamin J. Cohen 2013-10-30 This book is about power in a changing world economy. Though power is ubiquitous in the study of International Political Economy, the concept is underdeveloped in formal theoretical terms. This collection of essays analyses recent experience in East Asia to advance our theoretic understanding of state power in IPE. Over the last quarter century, no other region of the world has had a greater impact on the global distribution of economic resources and capabilities. China, with its "peaceful rise," now stands as the second largest national economy on the face of the earth; South Korea and Taiwan have become industrial powerhouses; Hong Kong and Singapore are among the world's most important financial centres; and new poles of growth have emerged in several southeast Asian countries - all while Japan, long the region's dominant market, has slipped into seemingly irreversible decline. The volume's nine essays, contributed by leading scholars in the United States, Britain and Taiwan, aim to extract relevant inferences and insights from these developments for the study of state power. All are framed by a core agenda encompassing four key clusters of questions concerning the meaning, sources, uses, and limits of power. These essays ask: What new lessons are offered for power analysis in International Political Economy?

Faith Lessons in a Changing World-Linda Katherine Baker 2010-12 As a successful businesswoman with a fashionable wardrobe, expense account, and a new car every year, Linda Baker thought she had it all. But when her success cost her something far more valuable, her relationship with God, she realized she needed to slow down and stop living life in the fast lane. In Faith Lessons in a Changing World, Linda shares her desire to escape a world of glamour, affluence, and ultimately emptiness to live a life of significance and purpose. She shares personal experiences and Scripture to raise the spirits of the downhearted and encourage the faithless to look to Faith Lessons in a Changing World to survive. "Linda Baker provides us with an abundance of examples where real people have faced intense and frightening situations, often including heartbreak and loss yet increased faith in God. These true stories provide real witness (and yes, proof) that when we are weak, He is strong. Faith Lessons in a Changing World offers us evidence that when we lose ourselves and surrender what we think is most important, then we finally know we are truly embraced and held by the Lord through it all." —Dr. Peggy Bolcoa PhD, Bristol Cove Counseling Center

The Naked Author - A Guide to Self-publishing-Alison Baverstock 2011-11-07 New digital technology, falling production costs and a new type of company offering publishing services have contributed to self-publishing becoming a viable option for writers, rather than a poor second to finding a commercial publishing deal. Written by a publishing consultant and author, with plenty of advice from other industry professionals, this book offers an objective analysis of the processes and companies involved in self-publishing. It helps you to analyse your objectives, define and meet the needs of your audience and looks at the right kind of content for self publishing. It also provides insight into the editorial processes you will need to put your content through, how to commission services from freelancers and companies and how to get a product worthy of your name. It helps you to understand format and design options, and key issues concerning distribution, sales and marketing. Self-publishing is a costly venture and this guide will help you to scrutinise your investment choices and produce a more professional-looking product. Contains a Foreword by Mark Coker, Founder of Smashwords.

The Caribbean in a Changing World-Stephanie Fullerton-Cooper 2017-06-23 This collection is a critical reflection of the evolution of Caribbean countries since the demise of the West Indies Federation in 1962. At this historical juncture, some territories opted for independence while others remained dependent territories. The volume examines Caribbean societies in comparative and general ways, covering aspects of their ongoing development and challenges. It covers such areas as Caribbean integration, the state of human capital and social policy in the region, the education sector, Caribbean economic sustainability, and, significantly, the physical environment of the Caribbean. A central question has always been: should these territories have gone independent or stayed under some British tutelage? The book addresses this question, illustrating that these island states have made considerable progress, especially in the maintenance and deepening of democratic practices.

The Changing World of Contemporary South Asian Poetry in English-Mitali P. Wong 2019-07-02 This international collection of essays examines contemporary English-language poetry from South Asia. The contributors discuss women's issues, the concerns of marginalized groups—such as the Dalit community and the people of Northeastern India—social changes in Sri Lanka, and the changing society of Pakistan.

Zoonotic Parasitic Diseases in a Changing World-Viliam Šnábel 2021-09-13

The Psychology of Political Behavior in a Time of Change-Jan D. Sinnott 2021-10-24 This volume seeks to add a unique perspective on the complex relationship between psychology and politics, focusing on three analytical points of view: 1) psychology, politics, and complex thought, 2) bio/psycho/social factors of masculinity and power, and 3) underlying factors in political behavior. Contributors examine recent political events worldwide through a psychological lens, using interdisciplinary approaches to seek a deeper understanding of contemporary political ideas, psychologies, and behaviors. Finally, the book offers suggestions for surviving and thriving during rapid political change. Among the topics discussed: Biopsychological factors of political beliefs and behaviors Understanding political polarization through a cognitive lens Impact of psychological processes on voter decision making Motivations for believing in conspiracy theories Nonverbal cues in leadership Authoritarian responses to social change The Psychology of Political Behavior in a Time of Change is a timely and insightful volume for students and researchers in psychology, political science, gender studies, business and marketing, and sociology, as well as those working in applied settings: practitioners, government workers, NGOs, corporate organizations.

The Oxford Handbook of Publishing-Angus Phillips 2019 The Oxford Handbook of Publishing marks the coming of age of the scholarship in publishing studies with a comprehensive exploration of current research on subjects such as copyright, corporate social responsibility, globalizing markets, and changing technology that have transformed the industry in recent years.

Italian Neighbours-Tim Parks 2012-06-12 "Am I giving the impression that I don't like the Veneto? It's not true. I love it. But like any place that's become home I hate it too." How does an Englishman cope when he moves to Italy - not the tourist idyll but the real Italy? When Tim Parks first moved to Verona he found it irresistible and infuriating in equal measure; this book is the story of his love affair with it. Infused with an objective passion, he unpicks the idiosyncrasies and nuances of Italian culture with wit and affection. Italian Neighbours is travel writing at its best.

The State of Scholarly Publishing-Albert N. Greco 2009 For decades, university presses and other scholarly and professional publishers in the United States played a pivotal role in the transmission of scholarly knowledge. Their books and journals became the "gold standard" in many academic fields for tenure, promotion, and merit pay. Their basic business model was successful, since this diverse collection of presses had a unique value proposition.

They dominated the scholarly publishing field with preeminent sales in three major markets or channels of distribution: libraries and institutions; college and graduate school adoptions; and general readers (i.e., sales to general retailers). Yet this insulated world changed abruptly in the late 1990s. What happened? This book contains a superb series of articles originally published in The Journal of Scholarly Publishing, by some of the best experts on scholarly communication in the western hemisphere, Europe, Asia, and Africa. These authors analyze in depth the diverse and exciting challenges and opportunities scholars, universities, and publishers face in what is a period of unusual turbulence in scholarly publishing. The topics given attention include: copyrights, the transformation of scholarly publishing from a print format to a digital one, open access, scholarly publishing in emerging nations, problems confronting journals, and information on how certain academic disciplines are coping with the transformation of scholarly publishing. This book is a must read for anyone interested in the scholarly publishing industry's past, its current focus, or future plans and developments. Albert N. Greco is professor of marketing at the Graduate School of Business Administration, Fordham University. He is the editor of The Changing World of Publishing and The Media and Entertainment Industries.
