The Children of the Sky-Vernor Vinge 2011-10-11 The Children of the Sky continues the epic scifi adventure of Hugo award-winning A Fire Upon the Deep! "Vinge is one of the best visionary writers of SF today." —David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Ten years have passed on Tines World, and Ravna and the children have survived a war. While there is peace among the Tines, there are those among them—and among the humans—who seek power...and no matter the cost, these malcontents are determined to overturn the fledgling civilization that has taken root since the humans landed. Children from the Sky-Duncan Lunan 2012-05 In the late 12th century, two very strange children came out of an ancient earthwork at the village of Woolpit in East Anglia. They wore clothes of a colour and material never seen before, spoke a language nobody recognised, and were coloured green all over. Later, when they had learned 'our manner of speaking', and lost their green colour, they described a homeland which was no place on Earth. The boy died within a year, but the girl grew up and married. Is this a fairy story, or were the children runaways from some primitive tribe? In the 17th century Robert Burton included them in the astronomy section of *The Anatomy of Melancholy*, suggesting that they came from another world. Could it be true? Duncan Lunan has located the places in the story and traced the people, who turn out to be real, though mysterious, and very highly connected. The incident at Woolpit was one of a series at linked sites, and seems to have been anticipated by the authorities of the time. Lunan traces the green girl, traces her descendants to the present day, and investigates strange things happening in the sky and other events relating to her 'arrival'. It suggests that in mediaeval times there might have been mass abductions from Earth, by extraterrestrials, for experimental purposes, with the knowledge if not the agreement of some of the terrestrial authorities - if so, Lunan suggests, "The X-Files are set in the wrong century."

Children of Earth and Sky-Guy Gavriel Kay 2016-05-12 Guy Gavriel Kay, bestselling author of the

groundbreaking novels *Under Heaven* and *River of Stars*, once again visits a world that evokes one that existed in our own past, this time the tumultuous period of Renaissance Europe - a world on the verge of war, where ordinary lives play out in the grand scheme of kingdoms colliding. From the small coastal town of Senjan, notorious for its pirates, a young woman sets out to find vengeance for her lost family. That same spring, from the wealthy city-state of Seressa, famous for its canals and lagoon, come two very different people: a young artist traveling to the dangerous east to paint the Grand Khalif at his request - and possibly to do more - and a fiercely intelligent, angry woman, posing as a doctor's wife in her role of a spy. The trading ship that carries them is commanded by the clever younger son of a merchant family - with ambivalence about the life he's been born to live. And farther east a boy trains to become a soldier in the elite infantry of the khalif - to win glory in the war everyone knows is coming. As these lives entwine, their fates-and those of many others - will hang in the balance, when the khalif sends out his massive army to take the great fortress that is the gateway to the western world . . .

A Fire Upon the Deep-Vernor Vinge 2013-01-24 Thousands of years hence, many races inhabit a universe where a mind's potential is determined by its location in space - from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures and technology can function. Nobody knows what strange force partitioned space into these 'zones of thought', but when the warring Straumli realm use an ancient Transcendent artefact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and

A Child Across the Sky-Jonathan Carroll 2012-07-31 An inheritance from a suicidal friend leads a film director into an unimaginable reality in this novel by an author who is "one of the special ones" (Neil Gaiman). Like many young men before them, Weber and Philip went to Hollywood to make

their fortune. Weber became one of the most respected directors of his generation, but Philip's talent went unnoticed until he found his calling making horror pictures, a genre in which his gruesome imagination could shine. But everything changes one morning when he calls his old friend Weber to say hello, then kills himself only an hour later. From Philip, Weber inherits a box of three videotapes. The first tape begins with Philip, warning Weber of challenges ahead, mysterious things he couldn't handle but believes that Weber can. Then Weber sees something unbelievable: a first-person view of his mother's last minutes alive before a plane crash took her life in 1960. Weber watches her settle into her airplane seat and read a newspaper, then hears the passengers scream as the jet falls from the sky. Before he died, Philip had unlocked a terrible secret. To understand it, Weber must learn the mysteries of death—no matter the cost. From the author of *Bathing the Lion* and other acclaimed works, the recipient of honors ranging from the Bram Stoker Award to the World Fantasy Award, this is a novel filled with “wickedly imaginative twists and turns” (Publishers Weekly). This ebook contains an all-new introduction by Jonathan Carroll, as well as an exclusive illustrated biography of the author including rare images from his personal collection.
