

The Christian Tradition In Anglo Saxon England Approaches To Current Scholarship And Teaching

The Christian Tradition in Anglo-Saxon England-Paul Cavill 2004 Essays exploring a wide array of sources that show the importance of Christian ideas and influences in Anglo-Saxon England.

Preaching Apocrypha in Anglo-Saxon England-Brandon W. Hawk 2018-06-26 Preaching Apocrypha in Anglo-Saxon England is the first examination of Christian apocrypha in Anglo-Saxon England, focusing on the use of biblical narratives in Old English sermons. This work demonstrates that apocryphal media are a substantial part of the apparatus of Christian tradition inherited by Anglo-Saxons.

T. S. Eliot and Christian Tradition-Benjamin G. Lockerd 2014-06-18 T. S. Eliot was raised in the Unitarian faith of his family in St. Louis but drifted away from their beliefs while studying philosophy, mysticism, and anthropology at Harvard. During a year in Paris, he became involved with a group of Catholic writers and subsequently went through a gradual conversion to Catholic Christianity. Many studies of Eliot's writings have mentioned his religious beliefs, but most have failed to give the topic due weight, and many have misunderstood or misrepresented his faith. More recently, scholars have begun exploring this dimension of Eliot's thought more carefully and fully. In this book readers will find Eliot's Anglo-Catholicism accurately defined and thoughtfully considered. Essays illuminate the all-important influence of the French Catholic writers he came to know in Paris. Prominent among them were those who wrote for or were otherwise associated with the *Nouvelle Revue Française*, including André Gide, Paul Claudel, and Charles-Louis Philippe. Also active in Paris at that time was the notorious Charles Maurras, whose influence on Eliot has been exaggerated by those who wished to discredit Eliot's traditionalist views. A more measured assessment of Maurras's influence has been needed and is found in several essays here. A wiser French Catholic writer, Jacques Maritain, has been largely ignored by Eliot scholars, but his influence is now given due consideration. The keynote of Eliot's cultural and political writings is his belief that religion and culture are integrally related. Several contributors examine his ideas on this subject, placing them in the context of Maritain's ideas, as well as those of the Catholic historian Christopher Dawson. Contributors take account of Eliot's intellectual relationship with such figures as John Henry Newman, Charles Williams, and the expert on church architecture, W. R. Lethaby. Eliot's engagement with other contemporaries who held a variety of Christian beliefs—including George Santayana, Paul Elmer More, C. S. Lewis, and David Jones—is also explored. This collection presents the subject of Eliot's religious beliefs in rich detail, from a number of different perspectives, giving readers the opportunity to see the topic in its complexity and fullness.

The Anglo-Marxists-Edwin A. Roberts 1997 In this book, Edwin Roberts provides a comparative intellectual history of the development of Marxist theory in Great Britain, concentrating on the years between the Great Depression and the Cold War. Roberts argues that during this period there developed among university-educated intellectuals a distinctively Anglicized form of Marxist theory that prefigured the analytical Marxism so prominent in the English-speaking world today. Roberts' important book explores this school—a precursor to contemporary analytical Marxism—examining key figures such as Haldane and Bernal and providing readers with a compelling argument for the significance of Anglo-Marxism in the tradition of Marxist thought.

Anglo-Saxon Christianity-Paul Cavill 1999 Studying the impact of Christianity on the pagan Germanic warrior peoples who invaded Britain from the 5th century onwards, this text draws on historical evidence to describe the invading Anglo-Saxons' culture and beliefs.

The Radical Anglo-Catholic Social Vision-Kenneth Leech 1989

Thomas Hardy and the Church-Jan Jędrzejewski 1996-01 "Thomas Hardy and the Church traces the development of Hardy's attitude towards Christianity as expressed in his use of the motifs of church architecture, religious music and ritual, and the characters of clergymen. Its argument firmly rooted in a wealth of documentary evidence, the book underlines the significance of the tension that existed between Hardy's aesthetic and emotional attachment to the Christian tradition he inherited, and his inability to accept the ontological essence of that tradition. In consequence, Hardy's views shifted from a largely automatic acceptance of Christianity in his youth, through the careful reserve of the early years of his literary career and the critical outspokenness of his middle period, to a recognition, towards the end of his life, of the role religion can play as a guardian of moral values and as a cohesive force in the development of modern society."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Priests and Their Books in Late Anglo-Saxon England-Gerald P. Dyson 2019 Fresh perspectives on the English clergy, their books, and the wider Anglo-Saxon church.

Anglo-Saxon Psychologies in the Vernacular and Latin Traditions-Leslie Lockett 2017-05-08 Old English verse and prose depict the human mind as a corporeal entity located in the chest cavity, susceptible to spatial and thermal changes corresponding to the psychological states: it was thought that emotions such as rage, grief, and yearning could cause the contents of the chest to grow warm, boil, or be constricted by pressure. While readers usually assume the metaphorical nature of such literary images, Leslie Lockett, in *Anglo-Saxon Psychologies in the Vernacular and Latin Traditions*, argues that these depictions are literal representations of Anglo-Saxon folk psychology. Lockett analyses both well-studied and little-known texts, including Insular Latin grammars, *The Ruin*, the Old English Soliloquies, *The Rhyiming Poem*, and the writings of Patrick, Bishop of Dublin. She demonstrates that the Platonist-Christian theory of the incorporeal mind was known to very few Anglo-Saxons throughout most of the period, while the concept of mind-in-the-heart remained widespread. *Anglo-Saxon Psychologies in the Vernacular and Latin Traditions* examines the interactions of rival - and incompatible - concepts of the mind in a highly original way.

Heaven and Earth in Anglo-Saxon England-Helen Foxhall Forbes 2016-04-22 Christian theology and religious belief were crucially important to Anglo-Saxon society, and are manifest in the surviving textual, visual and material evidence. This is the first full-length study investigating how Christian theology and religious beliefs permeated society and underpinned social values in early medieval England. The influence of the early medieval Church as an institution is widely acknowledged, but Christian theology itself is generally considered to have been accessible only to a small educated elite. This book shows that theology had a much greater and more significant impact than has been recognised. An examination of theology in its social context, and how it was bound up with local authorities and powers, reveals a much more subtle interpretation of secular processes, and shows how theological debate affected the ways that religious and lay individuals lived and died. This was not a one-way flow, however: this book also examines how social and cultural practices and interests affected the development of theology in Anglo-Saxon England, and how 'popular' belief interacted with literary and academic traditions. Through case-studies, this book explores how theological debate and discussion affected the personal perspectives of Christian Anglo-Saxons, including where possible those who could not read. In all of these, it is clear that theology was not detached from society or from the experiences of lay people, but formed an essential constituent part.

Nam Virtus Perficitur in Infirmirate-Nicholas Babich 2019 This honors thesis addresses the heroic protagonists in Anglo-Saxon heroic poetry, particularly in the late fragmentary poem, *The Battle of Maldon*. The thesis seeks to defend the Anglo-Saxon heroic persona as compatible in abstract terms with Christian ethics and doctrine, although the persona originated in the pagan Germanic homelands. I have concluded that the Germanic hero

was in large part valued, preserved, and cultivated in the Christian tradition. Early medieval Christianity had already cultivated a very similar figure in the image of Christ as a suffering servant and His saints and martyrs, who all suffered for a greater, heroic end. This end, Christian sanctification and perfection, grants the heroic genre a new and spiritually profound dimension that augments an older, pagan, heroic system that existed in pre-Christian Anglo-Saxon England.

The Experience of Education in Anglo-Saxon Literature-Irina Dumitrescu 2018-01-31 Reveals the rich emotional experience of teaching and learning as revealed in Anglo-Saxon literature.

Medical Texts in Anglo-Saxon Literary Culture-Emily Kesling 2020 Winner of the Best First Monograph from the International Society for the Study of Early Medieval England (ISSEME) 2021. An examination of the Old English medical collections, arguing that these texts are products of a learned intellectual culture.

Tradition and Belief-Clare A. Lees 1999 In this major study of Anglo-Saxon religious texts--sermons, homilies, and saints' lives written in Old English--Clare A. Lees reveals how the invention of preaching transformed the early medieval church, and thus the culture of medieval England. By placing Anglo-Saxon prose within a social matrix, her work offers a new way of seeing medieval literature through the lens of culture. By concentrating on the theoretically problematic areas of history, religious belief, and aesthetics--the book contributes to debates about the evolving meaning of culture.

A Companion to Medieval Poetry-Corinne Saunders 2010-04-12 MEDIEVAL POETRY In a series of original essays from leading literary scholars, this Companion offers a chronological sweep of medieval poetry from Old English to the great genres of romance, narrative, and alliterative poetry of the 15th century. Beginning in the Anglo-Saxon period, the volume explores the Old English language and its alliterative tradition, before moving on to examine the genres of heroic, devotional, wisdom and epic poetry, culminating in a discussion of arguably the founding text of the English literary canon, the great epic Beowulf. In part two, the Companion moves on to discuss the linguistic and social changes brought about as a result of the Norman Conquest, exploring how this influenced the development of literary genres. Essays probe the shifts and continuities in genres such as lyric, chronicle and dream vision, and the emergence of new genres such as popular and courtly romance, and drama. A particular focus is the continuation of the alliterative tradition from the Anglo-Saxon period to the fifteenth century. A series of chapters on major authors, including Chaucer, Gower, and Langland, provide fresh approaches to reading and studying key texts, such as The Canterbury Tales, Piers Plowman and Sir Gawain and the Green Knight. Finally, the collection examines cultural change at the close of the medieval period and the variety of literature produced in the long fifteenth century, including writing by and for women, Scots poetry, clerical and courtly works, and secular and sacred drama.

The Art of Anglo-Saxon England-Catherine E. Karkov 2011 A fresh appraisal of the art of Anglo-Saxon England, focusing on art as an aesthetic vehicle and art as an active political force.

Anglo-Saxon Styles-Catherine E. Karkov 2012-02-01 Considers the definitions and implications of style in Anglo-Saxon art and literature.

Feminism and Christian Tradition-Mary-Paula Walsh 1999 A survey of literature, from the 1960's through the 1990's, on feminism and Christian tradition.

The Cult of Kingship in Anglo-Saxon England-William A. Chaney 1970

LATINITATIS RATIONES-Paolo Poccetti 2016-12-05 This volume assembles 50 contributions presented at the XVII International Colloquium on Latin Linguistics. They embrace essential topics of Latin linguistics with different theoretical and methodological approaches: phonetics, syntax, etymology and semantics, pragmatics and textual analysis. It is a useful resource for the study of comparative and general linguistics, not only for linguists but

also for scholars of classical philology.

Liberal Learning and the Great Christian Traditions-Gregory W. Jenkins 2015-07-07 As an aspect of civic humanism, the liberal arts comprehended the skills necessary to realize the common good of free citizens within a free society, the mental habits basic to citizenship as preached and taught in the classical, medieval, and Renaissance worlds. The liberal arts formed people with the virtues proper to civic life. The Church has never been quiet about these issues. In every age Christians have addressed themselves to what the human animal is that such a being can be trained in civic virtue, and how this can best be done, why Christians should care, and what Faith has to say on such matters as profane learning. This book's essays explore how the various Christian Traditions have taken up the question of liberal learning by setting it within the context of their own peculiar idioms and histories.

The Concepts of Time in Anglo-Saxon England-Kaifan Yang 2020-04-02 The book examines the diachronic change of time perception throughout Anglo-Saxon England, with the conversion as a turning point. It draws evidence from a variety of sources, in particular from a close reading of Bede's historical writings and his treatises on time, from Old English poetry, especially *The Dream of the Rood*, *The Phoenix*, *The Wanderer*, *Beowulf*, *The Ruin*, *Deor*, from the literature of the Alfredian period, and from the lexical and statistical analysis of Old English time words. It offers insights into the complexity of time in the Anglo-Saxon context, and shows how the change of time can help to understand the conceptual system of the Anglo-Saxons.

Angles on a Kingdom-Joseph Grossi 2021-07-05 *Angles on a Kingdom* analyses changing attitudes towards East Anglia within early medieval England as revealed in several important literary texts.

Religion, Politics and Society in Britain, 800-1066-A E Redgate 2014-03-05 Using a comparative and broad perspective, *Religion, Politics and Society in Britain 800-1066* draws on archaeology, art history, material culture, texts from charms to chronicles, from royal law-codes to sermons to poems, and other evidence to demonstrate the centrality of Christianity and the Church in Britain 800-1066. It delineates their contributions to the changes in politics, economy, society and culture that occurred between 800 and 1066, from nation-building to practicalities of government to landscape. The period 800-1066 saw the beginnings of a fundamental restructuring of politics, society and economy throughout Christian Europe in which religion played a central role. In Britain too the interaction of religion with politics and society was profound and pervasive. There was no part of life which Christianity and the Church did not touch: they affected belief, thought and behaviour at all levels of society. This book points out interconnections within society and between archaeological, art historical and literary evidence and similarities between aspects of culture not only within Britain but also in comparison with Armenian Christendom. A. E. Redgate explores the importance of religious ideas, institutions, personnel and practices in the creation and expression of identities and communities, the structure and functioning of society and the life of the individual. This book will be essential reading for students of early medieval Britain and religious and social history.

Writing Europe, 500-1450-Aidan Conti 2015 Essays on the writing and textual culture of Europe in the middle ages.

The Concise Dictionary of the Christian Tradition-James Dixon Douglas 1989 In this book, briefly defined and described in one volume, are nearly three-and-a-half thousand terms and names for the history, the teachings, and the liturgy of the church.

Water and fire-Daniel Anlezark 2021-06-15 Noah's Flood is one of the Bible's most popular stories, and flood myths survive in many cultures today. This book presents the first comprehensive examination of the incorporation of the Flood myth into the Anglo-Saxon imagination. Focusing on literary representations, it contributes to our understanding of how Christian Anglo-Saxons perceived their place in the cosmos. For them, history unfolded between the primeval Deluge and a future - perhaps imminent - flood of fire, which would destroy the world. This study reveals both an imaginative

diversity and shared interpretations of the Flood myth. Anglo-Saxons saw the Flood as a climactic event in God's ongoing war with his more rebellious creatures, but they also perceived the mystery of redemption through baptism. Anlezark studies a range of texts against their historical background, and discusses shifting emphases in the way the Flood was interpreted for diverse audiences. The book concludes with a discussion of Beowulf, relating the epic poem's presentation of the Flood myth to that of other Anglo-Saxon texts.

Old English Literature-John D. Niles 2016-05-02 This review of the critical reception of Old English literature from 1900 to the present moves beyond a focus on individual literary texts so as to survey the different schools, methods, and assumptions that have shaped the discipline. Examines the notable works and authors from the period, including Beowulf, the Venerable Bede, heroic poems, and devotional literature Reinforces key perspectives with excerpts from ten critical studies Addresses questions of medieval literacy, textuality, and orality, as well as style, gender, genre, and theme Embraces the interdisciplinary nature of the field with reference to historical studies, religious studies, anthropology, art history, and more

The Christian Tradition in English Literature-Paul Cavill 2007 Features: * Wide chronological coverage of English literature, especially texts found in the Norton, Oxford, Blackwell and other standard anthologies * Short, punchy essays that engage with the texts, the critics, and literary and social issues * Background and survey articles * Glossaries of Bible themes, images and narratives * Annotated bibliography and questions for class discussion or personal reflection * Scholarly yet accessible, jargon-free approach -- ideal for school and university students, book groups and general readers Created for readers who may be unfamiliar with the Bible, church history or theological development, it offers an understanding of Christianity's key concepts, themes, images and characters as they relate to English literature up to the present day.

The Quest for Plausible Christian Discourse in a World of Pluralities-Younhee Kim 2008 This book critically examines David Tracy's well-known methodology of fundamental theology, namely his revisionist model as developed in his Blessed Rage for Order (1975), together with his methodological shifts through the 1980s, 1990s and early 2000s. It explores how successful he has been in constructing a methodology for the public theological discourse that he deems so necessary. More particularly, this book asks how serviceable this methodology is for articulating Christian discourse in an intelligible and public way in the contemporary context of religious plurality.

The Anglo Saxon Literature Handbook-Mark C. Amodio 2013-04-03 The Anglo-Saxon Literature Handbook presents an accessible introduction to the surviving works of prose and poetry produced in Anglo-Saxon England, from AD 410-1066. Makes Anglo-Saxon literature accessible to modern readers Helps readers to overcome the linguistic, aesthetic and cultural barriers to understanding and appreciating Anglo-Saxon verse and prose Introduces readers to the language, politics, and religion of the Anglo-Saxon literary world Presents original readings of such works as Beowulf, The Battle of Maldon, The Wanderer, The Seafarer, and The Anglo-Saxon Chronicle

Writing the Barbarian Past: Studies in Early Medieval Historical Narrative-Shami Ghosh 2015-11-06 This book provides studies of narratives concerning the distant, 'barbarian' past, composed c.550-c.1000, ranging from Latin 'national' histories to Latin and vernacular epics and lays, and examines the place of this past in early medieval historical consciousness.

An Introduction to Anglo-Saxon Kingship-Peter Fox 2004 The primary purpose of this book is to be an introduction to the subject of early Anglo-Saxon kingship. Central to that subject is the huge impact that conversion to Christianity had upon Anglo-Saxon kingship. The aim is to answer four major questions: How did kingship manifest itself pre and post conversion and what theories underpinned early Anglo-Saxon kingship? What were the implications of conversion on the practicalities of kingship? How did Christianity interact with kings, was it passive tool, or did it challenge kings? What was the impact of conversion to Christianity on Anglo-Saxon kingship?

The Coming of Christianity to Anglo-Saxon England-Henry Mayr-Harting 1991

Women's Studies of the Christian and Islamic Traditions-Kari Elisabeth Børresen 2012-12-06 In this collection of articles, Kari Elisabeth Børresen and Kari Vogt point out the convergence of androcentric gender models in the Christian and Islamic traditions. They provide extensive surveys of recent research in women's studies, with bio-socio-cultural genderedness as their main analytical category. Matristic writers from late Antiquity, the Middle Ages and the Renaissance are analysed in terms of a female God language, reshaping traditional theology. The persisting androcentrism of 20th-century Christianity and Islam, as displayed in institutional documents promoting women's specific functions, is critically exposed. This volume presents a pioneering investigation of correlated Christian and Islamic gender models which has hitherto remained unexplored by women's studies in religion. This work will serve scholars and students in the humanistic disciplines of theology, religious studies, Islamic studies, history of ideas, Medieval philosophy and women's history.

Process Theology and the Christian Tradition-Illyd Trethowan 1985 Far from being a twentieth-century innovation, the idea of an eternal yet changeable God is part of our theological heritage.

A Companion to Priesthood and Holy Orders in the Middle Ages-Greg Peters 2015-11-06 A Companion to Priesthood and Holy Orders in the Middle Ages contains essays that examine the ontology and function of ordained bishops, priests and deacons throughout the medieval era as preachers, confessors and providers of pastoral care.

Humour in Anglo-Saxon Literature-Jonathan Wilcox 2000 Essays lay the groundwork for a theory of humour in Old English literature.

Anglo-Saxon Liberated Blacks-Therlee Gipson 2019-05-21 Introduction I have written over 180 books. I think this is the best book that I have ever compiled. The Anglo-Saxons have been given an unfortunate bad opinion about their Race. Let's, begin with the truth. The Egyptians and Romans had Slaves before the Anglo-Saxons came into existence. The England Empire started in the Dark Ages. They were basically many Northern Tribes living in caves. They eventually evolved into the most Powerful and greatest Country on Earth (England). England was wise enough to adopt Christianity as their core Religionist belief of compassion, forgiveness and love. They had the opportunity to believe in Buddhism, Hinduism, Islam, Judaism or any other Ideology. They chose Christianity because Jesus made more sense to them. The Anglo-Saxons fought many Wars between other ethnic groups. They conquered them and established Colonies around the World. Eventually, they ended Colonization and let other Races control their own destiny.

Old English Homily and Its Background-Paul E. Szarmach 1978-01-01 Essays on the largest body of prose work in Old English, by Stafford, Gatch, Smetana, Goddin, HuppéLetson, Nichols, Tandy, Jurovics, Dalbey, Szarmach.
