Samuel Pepys-Margarette Lincoln 2015-10-12 This book, published to coincide with a major exhibition at the National Maritime Museum to mark the 350th anniversary of the Great Fire of London, centres on Samuel Pepys (1633 1703), the famous diarist and the greatest administrator of the Stuart Age. Not only a passionate diarist, Pepys was also a prolific correspondent who lived through and wrote about all the key events and leading individuals of his time: the Restoration of Charles II, the Great Plague, the Fire of London, the raid of the Dutch fleet in the river Medway, the King's mistresses. Through a series of essays by leading experts, this publication reveals the rich diversity of his career and interests - from the theatre, to advances in science and development of the Royal Navy. His life was so utterly entwined with the extraordinary period he lived through - he was even a witness to the beheading of Charles I - that the book becomes a portrait of the age. Each chapter has two or three essays followed by discussion of specific objects and paintings.

Classical Music-Phil G. Goulding 2011-03-16 MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's "Rite of Spring" cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, Classical Music provides such essential information as: * Rankings of the top 50 composers (Bach is #1. Borodin is #50) * A detailed and anecdotal look at each composer's life and work * The five primary works of each composer and specific recommended CDs for each. * Further great works of each composer--if you really like him * Concise explanations of musical terminology, forms, and periods * A guide to the parts and history of the symphony orchestra "This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads." --The Washington Post "One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature...[He] has raised music appreciation from a racket to a service." --The Arizona Daily Star

Schadenfreude-Tim Lihoreau 2012-06-01 The shady details of our darkest schadenfreude pleasures, including "turparphilia"—to delight in the less than aesthetically beautiful nature of a friend's offspring We might not like to admit to it, but everyone—even the gentlest of souls—derives a secret guilty satisfaction from the misfortune of others. Tim Lihoreau has made it his business to uncover the myriad ways in which schadenfreude rears its wicked head, including "nimbuphilia" (to delight in driving wildly through a curb-side puddle which you know to be too close to a pedestrian) and "famaphilia" (to delight in witnessing a celebrity in an everyday pickle). He also discusses the particular delights of highlighting a person's mispronunciation (by pronouncing it properly), having a seat on the train while those around you stand, and being loud during another's hangover. Naming, defining, and explaining each one in turn with fascinating insights and erudite wit, this book drives at the heart of what it is we find so irresistibly delightful when faced with others' discomfort.

Helping them to deal with their anxiety (Bad Manners), and show them techniques to help put Bad Manners in place. Whilst having a little bit of fun along the way! A diary based story giving techniques of how to reduce and overcome anxiety.It's taken a number of years of research and testing to put this all together. Inner Buddy was written to help children deal with anxiety and offer them the best techniques to reduce, or even overcome their anxiety. When I was 17 I got told I had an anxiety disorder and I would 'have to live with it'. Since then I made a decision not to 'live with it' and started out on a mission to find a way to overcome my anxiety. I have read hundreds of books, watched countless videos, attended numerous courses and spoken to a variety of different people in that field. I have taken the techniques that I have found to work the best and put them into a children's story. I would be grateful for any help or even a share of this book on social media to get this book seen. As I know it will help a lot of children. Thanks for taking the time to read this.
