Dynamic Embodiment of the Sun Salutation?-Martha Eddy 2021-10-25 Dynamic Embodiment of the Sun Salutation?: Pathways to Balancing the Chakras and the Neuroendocrine System guides you to do the Sun Salutation with more ease by integrating awareness of glandular and chakral embodiment cues and neuro-developmental movement. Everything in this book can be applied to your personal practice and overall health, or to teaching others. It offers a soft, organic yet powerful approach to being in the poses and transitioning between them. What you will learn is effective and surprising. There is tangible mystery in accessing this ability, which we all have, to embody the endocrine system and the related energy fields. By working with the endocrine system and their correlations with the chakras we are grounding the subtle within the physical body. Learn about the dynamic combination of the specific electrical and systemic circulatory nature of the neuroendocrine system. Discover how the anatomical placement of the glands and the spatial tensions (or tensegrity) surrounding them are the natural bridge to activating the energy needed for a fulfilling life. One access route to these dynamic stimuli is through Body Mind Centering's developmental approach, conveyed through the lens of Dynamic Embodiment by BMC® Master teacher Dr Martha Eddy. This approach includes an understanding of careful skeletal positioning, brain-activating movement and hormonal balancing as well as integrating broader social somatic contexts such as the impact of lifestyle, cultural and intergenerational influences. In an age when, most likely, at least one person you know is struggling with thyroid, adrenal, or reproductive glandular imbalance, this book will provide information on the physical, emotional and spiritual impact of attuning with the glands and early childhood development imprints while practising the Sun Salutation. It includes clues for what to do when yoga or endocrine work brings on chaos - from trauma triggers, kundalini overwhelm, to basic life confusion. It gives you the tools to help ground yourself and others, and to take centered action in a dynamic world.

The Tantra Connection-Monika Müller 2009-09-18 Having started the new millennium we are in the midst of imminent changes. This era was foreseen five millennia ago, and described in tantric scriptures as the transition from the "Age of Darkness" to the "Age of Truth". The main intention of this book is to heighten the reader's understanding of this transformation and to assist in this time of change we are going through, individually as well as in society. Tantra considers the spiritual component of sexuality as it presents a balanced approach to life. Like Tantra this text is designed to enhance and support individual spiritual growth - in unity within a healing body. Holistic health is an ever-present undercurrent, since the work intertwines the conscious use of energy in the body with knowledge gleaned from ancient Tantra. Some parallels, between ancient East Indian Tantra and the highly developed cosmology of the pre-columbian Mayan culture, are also identified. The work is based on personal experiences. These have led the author to an energetic understanding of Tantra. Describing the use of certain meditations, different modes of energy-cleansing and cultivated sexuality, it attempts to reinforce the reader's courage and self-confidence. The goal is to master life, eventually becoming a "whole" human being - a microcosm within the macrocosm. In this context, the work seeks to clarify - from the focal point of energy and social programming - the adversities and opportunities that couples face as soon as either partner begins the journey to Self. It concludes, by pointing to a possible future vision - enabled by our consciousness and the actions we can take to bring on deepened awareness.

Stunning illustrations from unique and striking perspectives capture the owls as they worry about their mother: What is she doing? When will she be back? What scary things move all around them?
