The Years That Matter Most-Paul Tough 2019-09-12 What has gone wrong in our universities? And how do we make it right? When Amy applied to university, she thought she'd be judged purely on her merits. But she never thought that her family background would have as much impact on her future as her grades. When KiKi arrived at university, she knew she could be the only black woman in her class. But she didn't know how out of place she would feel, nor how unwelcoming her peers would be. When Orry graduated from university, he was told he'd probably land a six-figure salary. But he wasn't told he'd end up barely scraping a living wage, struggling to feed his children. Drawing on the stories of hundreds of American students, *The Years That Matters Most* is a revelatory account of a university system in crisis. Paul Tough, bestselling author of *How Children Succeed*, exposes a world where small-town colleges go bust, while the most prestigious raise

billions every year; where overstretched admissions officers are forced to pick rich candidates over smart ones; where black and working-class students are left to sink or swim on uncaring campuses. Along the way, he uncovers cutting-edge research from the academics leading the way to a new kind of university - one where students succeed not because of their background, but because of the quality of their minds. The result is a call-to-arms for universities that work for everyone, and a manual for how we can make it happen.

The Community College Board 2.0-Daniel J. Phelan 2021-01-15 This book provides the reader with a fresh and comprehensive approach to both considering and implementing an uncommon governance practice that emphasizes a lasting, effective, and a sustaining relationship between the board and president. This discussion encapsulates pre-hiring practices, and principles regarding CEO selection, onboarding, various board membership constructions (both appointed and elected), and new dimensions of board governance that emphasize competition, agility, transparency, effectiveness, and new business models. The discussion also includes elements of policy and by-law design, intentional governance design and development, committee structures and use, parliamentary procedures, meeting construction and effectiveness, CEO contracts and evaluation, board self-evaluation, generative thinking and planning, transparency and addressing board and organizational challenges. Given that transitioning to a new, enhanced or blended governance model can be difficult, the book will offer suggestions and guidance about how to move toward a more preferred, effective model. This component will include tools, such as a strategy canvas, and other processes to assist boards in addressing questions along the way, such as how and where to begin, how to evaluate the efficacy of the current model and how to structure the transition process and the timing thereof.
