

The Commerce Of The Sacred Mediation Of The Divine Among Jews In The Greco Roman World

Commerce of the Sacred-Jack Lightstone 2006-01-01 Jack Lightstone's Commerce of the Sacred remains an original and influential contribution to Judaic studies. Lightstone offers critical perspectives on the practices and beliefs of Greco-Roman Jews who lived outside of Palestine and beyond rabbinic control or influence. He investigates their influence on early Christians and examines how the two communities defined themselves in relation to each another. He challenges the view of Judaism as a single set of practices and beliefs and argues that Jews of the Greco-Roman Diaspora did not retain a shared, biblical 'perception of the world' centered on the Jerusalem temple. Rather, they believed multiple points of contact between God and man could be made through particular rites: prayer in the presence of the sacred scrolls, pleas for help at the tombs of dead saints and martyrs, and the interventions of holy men with alleged supernatural powers, to name a few. Many early Christians also participated in this Judaic 'commerce of the sacred', blurring the social and religious boundaries that distinguished Jews and Christians. Lightstone innovatively combines approaches from the history of religions and social anthropology to provide a different picture of Judaism during this period. Featuring a new foreword and an updated bibliography, Commerce of the Sacred resituates the Jews in the Greco-Roman world.

Sacred Commerce-Matthew Engelhart 2008-05-06 In this timely book, authors Matthew and Terces Engelhart present the idea that love before appearances is the antidote to our spiritual, environmental, and social degradation. Exploring topics such as mission statements, manager as coach, human resources as a sacred culture, and inspirational meetings, they offer a manual for building a spiritual community at the workplace—a vital concept in an age when work consumes the bulk of most adults' time. Business, the authors explain, is all about providing a service, product, or experience the market wants, and no business can succeed by failing to understand this point. However, integrating the concept of "Sacred Commerce" into business can provide both financial success and spiritual satisfaction. Stressing that every business is an opportunity to make a lasting impact on the lives of both clients and employees, the Engelharts share the tools they've learned in their own enterprises to fulfill this vision. Sacred Commerce is the ideal mix of the personal and the practical—a guidebook written by people who have felt success, not just spent it. Dissatisfaction with work is at record levels, and the Engelharts show that you don't have to suffer personally—or give up your humanity—to pay the mortgage.

The Commerce of the Sacred-Jack N. Lightstone 2006 Known as "the Garbo of Chinese letters" for her elegance and the aura of mystery that surrounded her, Eileen Chang is regarded as one of the greatest and most influential modern Chinese novelists and cultural critics of the twentieth century. In *Written on Water*, first published in 1945 and now available for the first time in English, Chang offers essays on art, literature, war, and urban life, as well as autobiographical reflections. Chang takes in the sights and sounds of wartime Shanghai and Hong Kong, with the tremors of national upheaval and the drone of warplanes in the background, and inventively fuses explorations of urban life, literary trends, domestic habits, and historic events. These evocative and moving firsthand accounts examine the subtle and not-so-subtle effects of the Japanese bombing and occupation of Shanghai and Hong Kong. Eileen Chang writes of friends, colleagues, and teachers turned soldiers or wartime volunteers, and her own experiences as a part-time nurse. Her nuanced depictions range from observations of how a woman's elegant dress affects morale to descriptions of hospital life. With a distinctive style that is at once meditative, vibrant, and humorous, Chang engages the reader through sly, ironic humor; an occasionally chatty tone; and an intense fascination with the subtleties of modern urban life. The collection vividly captures the sights and sounds of Shanghai, a city defined by its mix of tradition and modernity. Chang explores the city's food, fashions, shops, cultural life, and social mores; she reveals and upends prevalent attitudes toward women and in the process presents a portrait of a liberated, cosmopolitan woman, enjoying the opportunities, freedoms, and pleasures offered by urban life. In addition to her descriptions of daily life, Chang also reflects on a variety of artistic and literary issues, including contemporary films, the aims of the writer, the popularity of the Peking Opera, dance, and painting.

The Commerce of the Sacred-Jack N. Lightstone 2006 This work was originally published in the Brown Judaic Studies series in 1984 by Scholars Press. It was first brought to my attention by Sarah Schwarz at Penn. The book describes the thinking of the Hellenistic Jewish community outside Palestine, beyond rabbinic influence, in the early days of the Christian church. It particularly addresses their influences on the Church, their interactions with it, and their shared cultural perceptions. The author's social-anthropologic approach to the history of religion was ground-breaking. This new edition of the work is accompanied by a comprehensive new introduction and updated bibliography situating the book in the literature, bringing its content up to date, and describing its influence on subsequent work.

What Color Is the Sacred?-Michael Taussig 2010-07-01 Over the past thirty years, visionary anthropologist Michael Taussig has crafted a highly distinctive body of work. Playful, enthralling, and whip-smart, his writing makes ingenious connections between ideas, thinkers, and things. An extended meditation on the mysteries of color and the fascination they provoke, *What Color Is the Sacred?* is the next step on Taussig's remarkable intellectual path. Following his interest in magic and surrealism, his earlier work on mimesis, and his recent discussion of heat, gold, and cocaine in *My Cocaine Museum*, this book uses color to explore further dimensions of what Taussig calls "the bodily unconscious" in an age of global warming. Drawing on classic ethnography as well as the work of Benjamin, Burroughs, and Proust, he takes up the notion that color invites the viewer into images and into the world. Yet, as Taussig makes clear, color has a history—a manifestly colonial history rooted in the West's discomfort with color, especially bright color, and its associations with the so-called primitive. He begins by noting Goethe's belief that Europeans are physically averse to vivid color while the uncivilized revel in it, which prompts Taussig to reconsider colonialism as a tension between chromophobes and chromophiliacs. And he ends with the strange story of coal, which, he argues, displaced colonial color by giving birth to synthetic colors, organic chemistry, and IG Farben, the giant chemical corporation behind the Third Reich. Nietzsche once wrote, "So far, all that has given colour to existence still lacks a history." With *What Color Is the Sacred?* Taussig has taken up that challenge with all the radiant intelligence and inspiration we've come to expect from him.

The Sacred Fire of the Phoenix-Robin Sacredfire 2014-09-28 There's a sacred and hidden path inside each one of us, a path of mysteries and amazing manifestations, where nothing is impossible, not even our wildest spiritual creations. This is the realm of impossibilities, where imagination is carried away by a spiritual insight, which is here referred as the phoenix. The allegory inside this book takes us to a subconscious realm, that can lead us to the most uplifting and unknown side of ourselves, but also to other realities as well, namely, the ones that are parallel to ours, and also other dimensions and galaxies. It is with this allegory of the phoenix that we understand the role of the dragons and serpents of our planet, and how they interfere in the Tao of our existence. As a dance of forces, vibrations of different natures, these symbols and concepts take us to the deepest truth within, of who we are and how far can we go. This is a book about the adventures of our soul, the journey within that so many Shamans live to explore. It's also about a path that all spiritualists and gurus have experienced, a path that some have called nirvana, enlightenment or awaking, but few have ever had the ability to fully describe in a way that can be perceived by the common mortal. The Native Americans have often told us about the spirit of the eagle that keeps guard over the spiritual world. This eagle, or big bird, is representative of another living force, which is the phoenix, the bird of fire. This is why many mystics of ancient times believed that only fire could take souls to another world. The fire purifies the body, but the most potent fire comes from within, as an energy that we burn with our conscious awareness. This is the fire that Buddhists, Taoists and Hindus persist in awakening from within, commonly using disciplines created specifically for this purpose, such as yoga, chikung and meditation. This fire represents the power of our own spirituality, which most people are unaware to possess. As mortals and genetically manipulated slaves of a few alien species, we've lost the physical capability to ignite it. But the phoenix can help us reach it, through the spiritual nature that is within each one of us. The one who can ride the phoenix, can travel very far, to amazing lands. And these are the ones that often come back, when they choose to, as our prophets and religious leaders. This book describes their journey to Valhalla, Heaven, Paradise, or more simply, the Laboratory of God.

Sacred Economics, Revised-Charles Eisenstein 2021-02-16 Expanded and updated, Charles Eisenstein's classic treatise on capitalism, currency, and the gift economy. This revised version traces the history of money, from ancient gift economies to modern capitalism, and includes new material on cryptocurrencies and emerging research that has come out since the book's original publication. Charles Eisenstein shows how capitalism contributes to alienation, competition, and scarcity; destroys community; and necessitates endless growth at the cost of social and environmental devastation. Today, these trends have reached their extreme--and their collapse presents a golden opportunity to transition to a more connected, ecological, and sustainable way of being. Eisenstein describes the deeper narratives beneath our economic system, and how we can reimagine it to align with a new story. Applying a broadly integrated synthesis of theory, policy, and practice, he explores avant-garde concepts of the New Economics, including negative-interest currencies, local economies, gift economics, cryptocurrencies, and the restoration of the commons. Tapping into a rich lineage of conventional and unconventional economic thought, Eisenstein presents a vision that is original yet commonsense, radical yet gentle, and increasingly relevant as the crises of our civilization deepen.

Yahwism After the Exile-European Association for Biblical Studies. Meeting 2003 "The Persian era in Ancient Israel's history is an intriguing period. The time span between Cyrus the Great and Alexander the Great was a theatre of shifts and changes. These changes are observable in daily life, in the organisation of society as well as in various religious phenomena. The essays in this volume originate from a seminar about developments and movements in the religion of Israel after the Exile, which was part of the first meeting of the European Association for Biblical Studies (Utrecht, 2000). The essays deal with questions like: How did religion help inhabitants of Yehud to cope with the new reality? How did this new reality influence the (re)formulation of Yahwism? What was the character of the existing Yahwism that was reformulated?"--

Sacred Invocation-Origen 2014-09-28 A unique translation from the original Greek of the second century spiritual master Origen, developed and handed down by a reknown Scottish scholar and made available nearly one hundred years later in memory of Dr. Charles Ashanin whose last days were devoted to this project. From the book: Who would not say that it is impossible for man to trace out things in heaven? Yet this impossible thing, by the surpassing grace of God, becomes possible; for he who was caught up unto a third heaven traced out things in the three heavens through having heard unutterable utterances which it was not permitted for man to speak. Who can say that it is possible for the mind of the Lord to be known by man?

The Sacred Wound-Lois Gold 2000-11-01 This is an account of one of life's most painful experiences--the sudden death of a child. A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, *The Sacred Wound* is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth.A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life and not simply mortality, and that this truth can emerge in ways we can never predict or expect

The Sacred Bonds of Commerce-Nicholas K. Rauh 1993 This study analyzes the religious mentality, commercial practices, and social composition of Roman trade society at the celebrated Hellenistic Greek, Roman Republican emporium of Delos, 166-87 B.C. The remains of this site date largely to the late second and early first centuries B.C., when Delos was the nerve center of the trans-Mediterranean luxury and slave trade of Roman Italy. Repeated military assaults between 87 and 69 B.C. destroyed the community and its trade importance declined. But as an archaeological site it offers the earliest and most detailed remains of a Roman trade community to survive anywhere in the Mediterranean world, including the city of Rome itself. This study marks the first re-assessment and interpretation of these remains from the vantage point of Roman trade in more than seventy years. Among the subjects discussed are the religious character of the remains of Delian marketplaces and their likely commercial function; the role of oaths and, more particularly, of the gods, Mercury and Hercules, in Roman commerce; the tendency of Roman traders to organize themselves according to religious fraternities and the manner in which this enhanced trade activities such as finance; the social status of these traders in wider Roman society as reflected by their house remains; and, finally the identity of the mysterious Agora of the Italians.

International Law and Religion-Martti Koskeniemi 2017-08-10 This book maps out the territory of international law and religion challenging receiving traditions in fundamental aspects. On the one hand, the connection of international law and religion has been little explored. On the other, most of current research on international legal thought presents international law as the very victory of secularization. By questioning that narrative of secularization this book approaches these traditions from a new perspective. From the Middle Ages' early conceptualizations of rights and law to contemporary political theory, the chapters bring to life debates concerning the interaction of the meaning of the legal and the sacred. The contributors approach their chapters from an array of different backgrounds and perspectives but with the common objective of investigating the mutually shaping relationship of religion and law. The collaborative endeavour that this volume offers makes available substantial knowledge on the question of international law and religion.

Shi'ism-Hamid Dabashi 2012-05-07 For a Western world anxious to understand Islam and, in particular, Shi'ism, this book arrives with urgently needed information and critical analysis. Hamid Dabashi exposes the soul of Shi'ism as a religion of protest—successful only when in a warring position, and losing its legitimacy when in power. Dabashi makes his case through a detailed discussion of the Shi'i doctrinal foundations, a panoramic view of its historical unfolding, a varied investigation into its visual and performing arts, and finally a focus on the three major sites of its contemporary contestations: Iran, Iraq, and Lebanon. In these states, Shi'ism seems to have ceased to be a sect within the larger context of Islam and has instead emerged to claim global political attention. Here we see Shi'ism in its combative mode—reminiscent of its traumatic birth in early Islamic history. Hezbollah in Lebanon claims Shi'ism, as do the militant insurgents in Iraq, the ruling Ayatollahs in Iran, and the masses of youthful demonstrators rebelling against their reign. All declare their active loyalties to a religion of protest that has defined them and their ancestry for almost fourteen hundred years. Shi'ism: A Religion of Protest attends to the explosive conflicts in the Middle East with an abiding attention to historical facts, cultural forces, religious convictions, literary and artistic nuances, and metaphysical details. This timely book offers readers a bravely intelligent history of a world religion.

Biblical Prophets in Byzantine Palestine-David Satran 1995 The "Lives of the Prophets," a series of brief biographical sketches of the major and minor prophets of the Hebrew Bible, is a unique composition. Generally held to be a Jewish document from the end of the period of the Second Temple, the "Lives" offers an abundance of geographical, genealogical, and narrative detail which is not readily paralleled. This study provides the first thorough assessment of the work in nearly a century. A survey of the textual state of the composition and its reception is followed by a detailed examination of the literary structures which underlie the individual "vitae." It is argued that the "Lives" is an evolved, heavily redacted document whose present form cannot predate the fourth century C.E. Only within the context of early Byzantine Christian concerns - holy men, sacred sites, and the veneration of the saints - does the "Lives of the Prophets" become a comprehensible and vital text.

Weekly Options for Monthly Income-Jon Schiller, Ph.d. 2015-10-06 Weekly Index Options became available on the Chicago Board of Options Exchange in 2003. I have watched this type of Options Trading evolve as more investors used weekly trading. The trading software I have developed adapted to the weeklies evolution. The software became simpler: It uses SPX for the weekly options My principle strategy for trading Weekly Index Options uses 2 sigma Condors: Short Calls 2 standard deviations above the market and the Long Calls the next strike price higher; Short Puts 2 standard deviations below the market and the Long Puts the next strike price lower. This is called 2 Sig Iron Condors. I have developed a tactic to make weekly profits in spite of the huge daily Up and Down movements in the SPX. SelfAdapSPXweeklyVLTy is the name of my software which I use to generate monthly income. The software described in this book uses only SPX for the options because I discovered that when I used other underlying stocks or indices such as Google and SPY, SPX usually finished best. This book describes how to use the TradeMonster real-time SPX quotes for computing the 2 sig Condors used in my Software: SelfAdapSPXweeklyVLTy. Trade Monster's affiliate OptionsHouse can be used for Weekly Options trading if you have a minimum of \$2,000 in the account. I use 1/4 of the capital = \$500 for Margin to generate about \$100 for the week or \$400 for the Month. In other words you get 90% return per month on \$500 margin. Remember the weekly in-out trades should be no more than 2 per week to avoid being designated a day trader by your broker which requires a minimum of \$25,000 in your account.
