The Oxford Companion to Wine-Julia Harding 2015-09 Published in 1994 to worldwide acclaim, the first edition of Jancis Robinson's seminal volume immediately attained legendary status, winning every major wine book award including the Glenfiddich and Julia Child/IACP awards, as well as writer and woman of the year accolades for its editor on both sides of the Atlantic. Combining meticulously-researched fact with refreshing opinion and wit, The Oxford Companion to Wine presents almost 4,000 entries on every wine-related topic imaginable, from regions and grape varieties to the owners, connoisseurs, growers, and tasters in wine through the ages; from viticulture and oenology to the history of wine, from its origins to the present day. The Loire-Martin Garrett 2010 Gustave Flaubert called the Loire "the most French of French rivers." It is the longest river in France and the most varied in scenery and moods. Beginning as a mountain stream in the Ardèche, it issues, 630 miles later, into the Atlantic beyond the great modern port of St.-Nazaire. Small and rapid at first, the Loire runs through dark volcanic hills; further downstream it becomes the broad, slower river of sandy islands, poplars, and châteaux and of the vibrant cities of Orléans, Blois, Tours, and Nantes (the former capital of Brittany). It is lined with vineyards, forests, medieval fortresses, and flamboyant Renaissance palaces. It is fed by countless tributaries, from rivulets to mighty rivers like the Allier, Cher, and Vienne, each with their own remarkable sights. Martin Garrett follows the Loire's course through cities and countryside, tracing its dramatic history from the days of feuding warlords and barons to the battles of 1940. Looking at the wide range of literature, art, and architecture created along its banks, he considers works from Du Bellay and Balzac to Virginia Woolf, from Renaissance palace builders to Le Corbusier.

With each new guidebook, I become more convinced that the best way to engage totally with a region is to bicycle it. Get out there you cycling pilgrims.

The Wine Pioneers-Anton Massel 2008 At first there were the horticulturists and wine growers, then came the wine makers, the coopers, and the cellar masters. Inevitably there were wine shippers and

wine merchants. Chemists and biologists added their skills in the past two centuries, and only very recently came the oenologists and the professional wine tasters. Wine writers play an important role in today's wine trade, and there were always wine connoisseurs and wine snobs. From 5000BC to the modern day, this book provides a chronological history of the wine pioneers through the ages.

The Companion Guide to Mainland Greece-Brian De Jongh 2000 When Brian de Jongh's two classic

Companion Guides, 'Southern Greece' and 'Mainland Greece', were first published they were greeted with acclaim and immediately established themselves as essential guides. They have now been combined into this single volume, covering the whole of the Greek mainland. This new edition has been thoroughly revised by John Gandon (Brian de Jongh's nephew) and Geoffrey Graham-Bell, taking into account both new archaeological discoveries and recent development. Brian de Jongh combined an expert knowledge of history, archaeology and mythology with a profound understanding of the Greek people and a feeling for the landscape which inspired their myths and monuments: he describes a country that he loved and much of which Pausanias, writing almost two thousand years ago, would still recognise. This book is, more than ever, the most indispensable of all modern guides to Greece.

The Companion Guide to St Petersburg-Kyril FitzLyon 2003 As a guide to the hidden city, reconstructed, imagined and remembered, as well as to St Petersburg today, this book is highly recommended. It will take you to parts of the city and corners of buildings that other guides do not reach and reveal stories that others do not tell.

The Companion Guide to New York-Michael Leapman 2000 Written with unfailing common sense, as well as insight and affection... the perfect guide to this tremendous city OBSERVER A true traveller's companion and friend SUNDAY TELEGRAPH For more than thirty years Michael Leapman has been intimately involved with New York as a journalist, resident or frequent visitor. Here he takes readers with him on a series of walks through the heart of Manhattan and beyond, explaining how it came to be the world's most fabulous city, as well as revealing its present-day secrets. When the original edition of this incomparable guide was published in 1983, it won the Thomas Cook award as the guide book of the year. After he revised it in 1991 it was chosen by New York Magazine as the best

of nearly a hundred books about the city. Now he has been back to retrace his steps. Thoroughly updated, this book is packed with inspiration, revelation, and sound practical advice. MICHAEL LEAPMAN lived in New York for seven years, as correspondent for The Times, reporting perceptively on the city's delights and foibles. He continues to visit New York regularly and to write about it for magazines and other newspapers. This is a reissue of a book first published in 1983 and last revised in 2000. It therefore includes references to and descriptions of the World Trade Center. These have been left in for historical interest.

The Companion Guide to the Lake District-Frank Welsh 1997 Comprehensive guide to the Lake District, fully revised and updated.

The Companion Guide to Kent and Sussex-Keith Spence 1999 This is a thoroughly revised and updated edition of KEITH SPENCE's essential guide to two of the most beautiful - and often still unspoiled - counties in England, which on its first publication quickly established itself as the best available guide to the area. Mr Spence shows how much as yet survives and how rich, varied and fascinating this part of England still is. He writes sensitively and knowledgeably about buildings and architecture, and has a keen sense of the detail that gives identity to a place. There is much to be learned from this book, which maintains the high standard of the Companion Guide series.

The Companion Guide to Gascony and the Dordogne-Richard Barber 1999 The corner of south-west France comprising Gascony and the Dordogne is the quintessence of provincial France. Many will be content to enjoy the *douceur de vivre*, the good food and the unspoiled countryside, but for those who are interested in the past this is rich terrain. Much of England's history between 1154 and 1453 was bound up with events in the region, as the French lands of Henry II remorselessly slipped from

the grasp of the English kings. This is the land of Eleanor of Aquitaine and Gaston Phebus, the scene of Richard I's death, and of the Black Prince's triumphs and disasters. It is also the landscape in which some of the greatest medieval poetry and architecture was created; here many of the troubadours lived, and the lofty castles, Romanesque churches, and fortified villages of their time still beguile the traveller of today. RICHARD BARBER is an expert guide to the region and its history: he made his name as a medieval historian with biographies of Henry II and the Black Prince, and his important study *The Knight and Chivalry* is rooted in the society of the vast dukedoms of south-west France.

*The Companion Guide to Edinburgh and the Borders*-A. J. Youngson 2001 Long overdue: Revised, updated, freshly-illustrated Edinburgh joins the Companion Guide series, informative on Edinburgh's - and Scotland's - past and present.

*The Companion Guide to the South of Spain*-Alfonso Lowe 2000 I value the traditional virtues of the Companion Guides... actually written by an individual rather than packaged by production teams... straightforward intelligent guides to cultural sites. BOOKSELLER Andalusia in its heyday, after the invasion of the Moors in 711, was famous for its wealth and fertility, and the province's Moorish character remains distinct; even before the Moors, the Phoenicians, the Romans and the Vandals had all been drawn to this beautiful land. The Moors cultivated science and the arts, and their influence was felt throughout western Europe - in the songs of the troubadours, the poems of Dante and the discoveries of Copernicus; their merchants enriched the province; their courtiers and architects set new standards of luxurious living. This glory finally ended in 1492, when the Christian armies of the Reconquista entered Granada, but much remains in the three Moorish towns of Cordoba, Seville and Granada, and the country round about, to recall the great times. Alfonso Lowe

is an admirable guide, from the intricacies of the distinction between Mozarabic and Mudejar Moorish styles to the characteristic dishes to be found in restaurants and bars - and to the adjacent territories of Murcia and the greater part of Alicante.

The Companion Guide to Madrid and Central Spain-Alastair Boyd 2002 The history and culture of Madrid, the cluster of historical cities at an easy distance (Segovia, Avila and Toledo) and the heartlands of Castile - the core of Spanish civilisation.

The Companion Guide to the Country Round Paris-Ian Dunlop 1996-03 One of the classic "Companion Guides", this is devoted to the country around the city of Paris. Each volume in the series aims to provide a comprehensive travel companion in the person of the author, who knows intimately the places and people of which he or she writes.

The Companion Guide to Istanbul and Around the Marmara-John Freely 2000 The traveller gets exactly what he needs, and in a handy format. THE TIMES The author seems to have covered every road in the country, and has something of interest to say about virtually every site. COUNTRY LIFE Bicycle Your France: Secret Burgundy Queue Sheets (2nd Edition)-Walter Moore 2011-12-24 This QUEUE SHEETS companion guide, with just the segment directions, profiles and maps from the guidebook, is for BICYCLE YOUR FRANCE SECRET BURGUNDY. Color is used throughout for clear understanding of directions, maps and elevation profiles. The book is 9" wide by 6" high, a more suitable size to fit in a bike map case. Walter Judson Moore's second Burgundy cycling guidebook contains 16 new and original loops with comprehensive maps, elevation profiles, point to point and turn directions, restaurants and orientation features plus detail maps for the villages with extra complexity. Color maps for each loop have photographs that help visualize the ride. This guide reduces travel stress by making clear what to expect at every turn from arrival in Paris to buying

groceries at a supermarché. Lodging in a Gîte Rural (holiday cottage) benefits not only your budget but also your grasp of village life. BICYCLE YOUR FRANCE: SECRET BURGUNDY expands your understanding of a gracious culture and the delight of bicycling in this unique region. These welcoming and friendly people live a 3,000-year-old history. They seem incapable of serving anything but fine food and drink. Their dwellings, roads, bridges and railways last hundreds of years. Flowers grow at the end of most vineyards, around many houses and highlight village squares. There is no litter. The pride practiced in agriculture is like creating artwork. A cyclist appreciates these traits better than most who examine the world. On a bicycle in Burgundy you pedal up hills, on less traveled roads and through villages. You won't miss small slopes, big hills, narrow roads, winding lanes, hamlets and bustling market towns.
