She describes these irresistible critters as "quiet, clean, friendly, curious, active, and easy-to-please." In deciding whether the gerbil is for you, Anastasi offers this advice: "If you are looking for a seemingly limitless cache of cuteness;from their long, fanning whiskers and large almond-shaped eyes to heir bunnylike hind legs and tufted tail tips;then gerbils are for you!" Clearly bitten by the gerbil bug, the author begins by providing some basic natural history about gerbils, their origins on the Mongolian range, and an overview of their behaviors. Anastasi defends her favorite pocket pet and asserts that the gentle gerbil does not deserve its Latin name (Meriones unguiculatus), which translates as "clawed warrior." Filled with terrific color photographs, Gerbils summarizes the basic needs of these adorable rodents, specifically addressing their housing requirements, the cost and commitment involved, and their interactions with children and other pets. The following are devoted to purchasing a healthy gerbil from a pet shop, hobby breeder, or shelter; introducing the gerbil to the home; housing and feeding; taming and handling the pet gerbil; health considerations and potential household hazards; breeding and raising the young; and exhibiting gerbils at shows.The discussion on housing covers the selection of the ideal enclosure, basic housing setup, accessories, safety, and a guide to cleaning the tank. The chapter "Taming and Handling Your Gerbils" offers a step-by-step socialization process to acclimate the gerbil to its new handler and surroundings plus instructions for handling the gerbil and discouraging nipping. All keepers will be interested in the chapter on keeping gerbils healthy through smart preventative care; topics covered include allergies; broken limbs and head injury; teeth, tail, and ear problems; dehydration; diarrhea; heat stroke; hypothermia; mites, and more. Gerbil enthusiasts who are looking to become gerbil midwives will find complete instructions for breeding and raising pups (baby gerbils) in the chapter about reproduction. It covers planning a litter, setting up a breeding tank, mating, caring for the pregnant mom, birthing, fostering, growth cycles, weaning, handling pups, and more. Fun Learning Activities for Modern Foreign Languages-Jake Hunton 2015-03-26 The whole philosophy behind students learning a Modern Foreign Language is based around the following techniques which aim to provide learning and engagement: Word Recognition & Key Vocabulary, Paragraph-Building. Jake Hunton includes Vocab Fun-Learning Activities (VFLAs) - suggested teaching & learning strategies based on how to engage students in learning vocabulary. They are all in-class strategies that directly impact on students' engagement & their recall & recognition of vocabulary in the modern foreign language. A number of these strategies are based around students having access to the vocabulary in the lesson and encouraged to learn (through recognition and recall) any vocabulary that the teacher chooses. A key issue with these strategies is that students struggle or are disengaged from the outset at having to learn lists of vocabulary. Using these strategies students' learning of vocabulary is made active in the lesson by the teacher.

All Joy and No Fun-Jennifer Senior 2014-02-19 Award-winning journalist Jennifer Senior tries to tackle the issue of the effects of children on their parents, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their internal senses of self. She argues that changes in the last half-century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources - in history, sociology, economics, psychology, philosophy, and anthropology - she dissects both the timeless strains of parenting and the ones that are brand new, and then brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations - and luxuriate in some of its finest rewards. All Joy and No Fun makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. All Joy and No Fun is original and essential reading for mothers and fathers of today - and tomorrow.

The Mammoth Book of Fun Brain-Training-Gareth Moore 2013-07-18 New from the bestselling Dr Gareth Moore, in full colour throughout, the truly fun way to a fitter brain. The ebook edition has been specially modified to make all the puzzles work on screen. Traditional brain-training programmes tend to include a range of tasks which few of us would classify as 'fun', such as completing sheets of maths equations or remembering long lists of objects. Whilst these can certainly help to improve brain function, most of us would avoid such exercises so would not benefit from them. The Mammoth Book of Fun Brain-Training changes all that with an approach centred on fun, which nevertheless improves memory, logic and reasoning, visual and spatial awareness, word and language skills and maths skills. It contains nothing which smacks of 'school work'. Instead there are 'challenge' puzzles, often with a twist, which are both more entertaining and more effective from a brain-training point of view in that they call on multiple skills concurrently.
