Sky Dance of the Woodcock-Greg Hoch 2019-03 Woodcock are one of the oddest birds in North America. They are a shorebird that got lost and ended up in the scrubby parts of the forest, and look like they were put together with the leftover parts of other birds. Oddities aside, each spring they rise to great beauty with their sky dance at dusk. Greg Hoch combines natural history, land management, scientific knowledge, and personal observation to examine this little game bird.

Woodcock have a complex life history and the management of their habitat is also complex. The health of this bird can be considered a key indicator of what good forests look like.

The Fight Against Platform Capitalism-Jamie Woodcock 2021-03-02 So far, platform work has been an important laboratory for capital. Management techniques, like the use of algorithms, are being tested with a view to exporting across the global economy and it is argued that automation is undermining workers' agency. Although the contractual trick of self-employment has allowed platforms to grow quickly and keep their costs down, yet it has also been the case also that workers have also found they can strike without following the existing regulations. This book develops a critique of platforms and platform capitalism from the perspective of workers and contributes to the ongoing debates about the future of work and worker organising. It presents an alternative portrait returning to a focus on workers' experience, focusing on solidarity, drawing out a global picture of new forms of agency. In particular, the book focuses on three dynamics that are driving struggles in the platform economy: the increasing connections between workers who are no longer isolated; the lack of communication and negotiation from platforms, leading to escalating worker action around shared issues; and the internationalisation of platforms, which has laid the basis for new transnational solidarity. Focusing on transport and courier workers, online workers and freelancers author Jamie Woodcock concludes by considering how workers build power in different situations. Rather than undermining worker agency, platforms have instead provided the technical basis for the emergence of new global struggles against capitalism.

Working the Phones-Jamie Woodcock 2016-11-20 \*Shortlisted for the BBC Radio 4 Thinking Allowed Award for Ethnography 2017\*\*Winner of the 2016 Labor History Best Book prize\*Over a million people in the UK work in call centres, and the phrase has become synonymous with low-paid and high stress work, dictatorial supervisors and an enforced dearth of union organisation. However, rarely does the public have access to the true picture of what goes on in these institutions. For Working the Phones, Jamie Woodcock worked undercover in a call centre to gather insights into the everyday experiences of call centre workers. He shows how this work has become emblematic of the shift towards a post-industrial service economy, and all the issues that this produces, such as the destruction of a unionised work force, isolation and alienation, loss of agency and, ominously, the proliferation of surveillance and control which affects mental and physical well being of the workers. By applying a sophisticated, radical analysis to a thoroughly international 21st century phenomenon, Working the Phones presents a window onto the methods of resistance that are developing on our office floors, and considers whether there is any hope left for the modern worker today.

Becoming Reverend-Matt Woodcock 2016-11-03 Meet Woody. Former journalist. Die-hard Oasis fan. High energy. Low sperm count. Training to be a vicar. Obviously. Matt Woodcock's frank, funny real-life diaries reveal what it was like for him to train as a vicar while struggling against all odds to become a father. In them he lays bare his joys and struggles as he attempts to reconcile his calling as a vicar with his life as a party-loving journalist, footy-freak and incorrigible extrovert. Becoming Reverend is a compelling and original account of how faith can work in the midst of a messy life, combining family, fertility, faith and friendship with the story of a divine - but unlikely - calling.

Being Reverend-Matt Woodcock 2020-10-29 Matt Woodcock returns with this sequel to the bestselling 'Becoming Reverend'. Follow Matt's journey as he starts work at one of Hull's oldest, biggest and emptiest churches. It's a shadow of its former self, with a small congregation and huge bills to pay. Adding the entrepreneurial (and somewhat excitable) Matt to their clergy line-up is the last throw of the dice for this 700-year-old institution. But is Matt ready for such a tough first assignment? Are his new flock - or his new colleagues - ready for the whirlwind that's about to descend? And can Matt realize his vision of a thriving church without wrecking his home life in the process? As this real-life diary reveals, Matt's life being Reverend can be every bit as fraught, funny and fascinating as it was becoming one.

Geological History of Britain and Ireland-Nigel H. Woodcock 2009-04-01 Britain, Ireland and their surrounding areas have a remarkably varied geology for so small a fragment of continental crust. This region contains a fine rock record from all the geological periods from Quaternary back to Cambrian, and a less continuous but still impressive catalogue of events back through nearly 2500 million years of Precambrian time. This protracted geological history would have been interesting enough to reconstruct if it had been played out on relatively stable continental crust. However, Britain and Ireland have developed instead at a tectonic crossroads, on crust traversed intermittently by subduction zones and volcanic arcs, continental rifts and mountain belts. The resulting complexity makes the geological history of this region at once fascinating and perplexing. Geological History of Britain and Ireland tells the geological story of the region at a level accessible to undergraduate geologists, as well as to postgraduates, professionals or informed amateurs. The book takes a multi-disciplinary rather than a purely stratigraphical approach, and aims to bring to life the processes behind the catalogue of historical events. Full coverage is given to the rich Precambrian and Early Palaeozoic history, as well as to later events more relevant to hydrocarbon exploration. The book is profusely illustrated and contains guides to further reading and full references to data sources, making it an essential starting point for more detailed studies of the regional geology. All British Earth science undergraduates will be required to spend some time studying British Geological History, and this book will be the only one available to British undergraduates. The book takes a process-based approach, rather than simply describing the regional stratigraphy. Lavishly illustrated with high-quality diagrams.

Malcolm Lowry-George Woodcock 2007 With compassion and honesty, George Woodcock presents Malcolm Lowry: the man and his works. The portrait that emerges depicts a series of complex and destructive relationships that lead to an existential exploration of alienation, exile, and identity and to what many critics regard as some of the finest writing to come out of the twentieth century. This compelling collection of essays provides considerable insight into the challenges Lowry set for himself—as an artist and as a man. The first section of the book, "The Works," considers all of Lowry's fiction and the evolution of his style as he struggled to find the form appropriate to a new approach to reality. The influences that shaped his world and gave form to his work are considered in the second section, "The Man and the Sources." From Lowry's love of jazz and the cinema, to the books he read, Woodcock follows Lowry's life: a life marked by violent alcoholism, two unstable marriages, and stints in jails and mental institutions as he drifted to and from London, Paris, New York, and Mexico. Contributors include: Robert B. Heilman, Anthony R. Kilgallin, George Woodcock, Geoffrey Durrant, David Benham, Matthew Corrigan, Conrad Aiken, Hilda Thomas, Downif Kirk, W.H. New, Perle Epstein, William McConnell, and Maurice J. Carey. George Woodcock (1912-1995)—award-winning poet, author, and essayist and widely known as a literary journalist and historian—published more than ninety titles on history, biography, philosophy, poetry, and literary criticism.

Gargoyles and Grotesques-Alex Woodcock 2011-05-24 Gargoyles are an architectural feature

designed to throw rainwater clear of the walls of a building. Widely used on medieval churches, these water spouts were often richly decorated, and fashioned as serpents' heads and other fanciful shapes. Today, the term gargoyle is also popularly applied to any carved decorative head or creature high up on a building and this book is an exploration of all of these enchanting features. Written by an academic and stonemason, it is the perfect introduction to this fascinating subject. Gargoyles aims to provide a concise introduction to the stone carvings often found on religious and secular buildings in Britain from the medieval period to the modern. It will explore the typical imagery, some of the theories put forward to explain them, as well as consider the carvings within their architectural and social contexts. Incorporating recent and current research, the book will nevertheless be accessible to the general reader.

First Love-Geoff Woodcock 2020-06-30 "Choose life, that you may live, by loving God, hearing His voice, and living in union with Him. For He is your life." - Deuteronomy 30:19b-20 God created us to live in love, intimacy and unity with Him. This is His brilliant design for life. But how do we love God? How can we hear His voice and experience true intimacy with Him? And what does it mean to live in union with God? This book is written to help you encounter the Living God in a real and powerful way. It is written to help you love Him more deeply, hear His voice more clearly, and to grow in your unity with Jesus. If you are hungry to experience more of God and His awesome love, this book is for you. Testimonies "I was reading First Love and doing the reflections at the end of each chapter. I followed a question and asked the Father, 'What's your love for Jesus like?' I don't usually get pictures, but the Father took me into a vision. What I saw was awesome beyond words and then the words He spoke to me just melted my heart. No other book has ever brought me into such a powerful encounter with God." - DN "I was only up to Chapter Two and the Holy Spirit filled my bedroom and gave me an awesome revelation of God's love." - GT "I have been a Christian my entire life and I haven't come across so much truth. I already lost the count on how many times I cried while the book was working in me. This book is a wonderful gift!" - LK "This book is a miracle, it's like a love letter from Jesus to me. I feel so free! My fears are going away as Jesus keeps on pouring His love on me. During the day, I keep looking forward to the evening when I can be alone with Him. Love has a name! It's Jesus!" - ST "Since I started reading First Love, I have been getting clear dreams and visions from the Lord." - SL From the Author In 1 Timothy, Paul writes that the goal of his teaching is love from a pure heart. So if you this book does not lead you into a deeper experience of God's love then I have failed and these words are worthless. I pray that this may not be the case! I pray that as you read this book, the Lord would share His consuming love with you and that His love would be absolutely life-defining for you! May Jesus make His presence so real for you and His voice clearer than ever before. May you find deep joy as you experience the goodness and love of God in Christ Jesus! I would love to hear about how God uses this book to bring you deeper into His love. So after you read this book, please feel free to email some feedback or leave your testimony in a review. All blessings and love in Christ! - Geoff (Jeff) Woodcock, author.
