DIY Outdoor Wood Projects for Beginners-Allan Ford, MD 2020-11-20 Wood has always been mankind's favorite building material, but it has always had one major problem. Because it is an organic material, wood will always rot, whether sooner or later. That's a natural problem, but the modern world has provided an elegant and convenient solution. Nothing quite equals the satisfaction of building a project that adds charm and personality to your yard. If it is a memorable design and built well, even a small planter, trellis, or other feature will be a nice touch that makes your outdoor space more of a pleasure to use. Special details that complement the house or landscape can help to unify your outdoor space. A home-made project tailored to your space can tie it all together, adding your personal signature in a satisfying way. Who knows? Maybe one day your project may become a treasured heirloom. Natural wood (and bamboo, though it is technically a grass) is the ideal material for a modest do-it-yourself project. Whether stained or left alone to turn a weathered gray, your new structure will effortlessly harmonize with leafy plants, colorful flowers, and nearby stone or brick surfaces. You also have the option of painting it a muted tone that barely asserts itself, or with bright colors that proudly announce its presence and make your yard a more whimsical place.

While ambling through the streets of modern Canterbury, one is able to—if careful enough to do so—get the feel of the medieval city. There must be reasons for that enduring impact of the past and it might be because of the overwhelming wealth of people who have left their mark as well as events of momentous importance that took place there. It will enable him to apprehend the magnitude of the history of the place and the reasons why Canterbury has become the magnet it is nowadays for people from all over the world, the “mecca for tourists” as it is advertised on some websites. While illustrious figures are dealt with in the articles contained in the book, such as Saint Augustine, Thomas Becket, and Geoffrey Chaucer—who account for the renown of the place and have indeed helped to shape national identity—it is also possible to catch a glimpse of the less notorious personalities and facts that have also worked to give Canterbury its deeply ingrained identity: people like priors, as well as the many different ways which the city functioned.

Women, Work and Islamism-Elaheh Rostami-Povey 1999 This book explores Islamism in practice and looks at the influence of state, economy and religion on women in Iran. Drawing on original research into women's participation in the work force, the author shows how the Islamization of state and society which followed the 1979 revolution involved an attempt by the Islamic state to seclude women within the home. Its power to transform gender relations, however, was constrained by many factors--the Iran-Iraq war, economic restructuring, and women's varied responses to oppression. In 1999, women's participation in the labor force is greater than it was before the revolution, and gender consciousness is at a higher level than at the height of westernization in the 1960s and 70s.
