The Complete Guide to Keeping Your Houseplants Alive and Thriving-Sandy Baker 2011-09-30 Houseplants are one of the most enduring members of any household. They provide a much needed addition of color, fresh oxygen, and character to any room. They can add a boost to your mood, improve the quality of air in your home, and help relax you after a long day at work. But every houseplant needs a different amount of care, including water, food, and sunlight. Some plants, if they get too much light or too little water, will simply die without warning. To combat this, you need a complete guide to keeping your houseplants alive and happy. In this guide, you will learn all of the basics of houseplant care, starting with a thorough explanation and glossary of terms that are used to describe different plants and how they grow. You will learn what makes a houseplant different from other plants and how much water, sunlight, and food each plant needs to truly stay alive. You will read specific sections about many of the common houseplants, sections that contain detailed information about the needs of each specific plant. Top houseplant experts and gardeners have contributed their insight through various interviews to further the knowledge you can gain from this book and to help you overcome particularly finicky houseplants. You will learn to find the right plant location in your home, avoid meddling pests and pets, and make sure unknown contagions do not interfere with the growth of your plants. This book, for anyone who has ever wanted to add a little green to their home, is the perfect path to understanding and keeping your favorite houseplants healthy and happy.

The Complete Houseplant Bible-Peter McHoy 2000 The complete guide to making the most out of your houseplants, from choosing the right plants to finding the right settings in your home and much more.

Houseplants for All-Danae Horst 2020 "A guide to selecting and growing plants for your home, including a plant profile quiz"--

The Houseplants Guide for Beginners and Plant Lovers-Christo Sullivan 2021-04-18 This book is a guide, a manual, a handbook. But most of all this is my love letter to all the plants in the world. Inside this book you will find my notes from 17 years of passion and experience of living in the Nature. This guide is specifically for those who do not have plenty of space in their backyards, and want to start approaching the art of growing plants at home. They will give you as much love as you give them. Often more. My name is Christo Sullivan, and 17 years ago I was fortunate enough to have become who I wanted to be. No, let me restate that... I was fortunate enough to become, fairly early in my life, what society wanted me to be. Then I quit, and I started to become who I wanted to be. I had enough to part from the world and retire, and so I did. From that moment on I learned to live surrounded by nature. In this book I want to share with you my knowledge about harboring plants inside our houses, my best recommendations, how to grow them, and how to attend to them. Houseplants are a great way to ease stress, purify our air and stay connected with nature even when you're indoors, even if you're not an expert. Inexpensive to purchase, easy to care for and a statement in any space they inhabit, growing these plants is very easy, if you know how to do it. The Houseplant for Beginners and Plant Lovers is your no-fuss guide that takes you from being an absolute beginner to know a great deal about houseplants. In this book you will find out: The benefits of having plants inside your house The 15 lowest-maintenance plants to keep inside The 14 best plants to keep you healthy How to manage the 4 Elements of house planting Water, Light, Heat and Humidity The best kept secret on how to make your plants propagate efficiently The only efficient techniques to groom and prune How to solve common houseplants problems, the Do's and Don't's The Houseplants Guide for Beginners and Plant Lovers is really packed with all the information you'll need to successfully make your houseplants thrive. This is the book I wished I had when I first started. Click on "Buy Now" and get started in the very rewarding path to grow and love your houseplants!

Create a greener world, one houseplant at a time.

Leaf Supply-Lauren Camilleri 2018-04-17 A beautiful and practical book on choosing and caring for over 100 easy-to-find houseplants, as well as inspiring plant styling advice and much more. Fresh flowers are great—everyone loves receiving them. But inevitably they're already on the way out the door (and into the trash) by the time they arrive. Plants—living, breathing, life-sustaining plants—are where it's at! Authors Lauren Camilleri and Sophia Kaplan really want you to love indoor gardening and growing as much as they do. Leaf Supply profiles and provides comprehensive (but easy to follow) care instructions for 100 houseplants—including tropical plants, palms, hanging plants, succulents, cacti, and more unusual varieties such as air plants and carnivorous plants—ensuring you learn and grow as your plant grows. But much more than a plant guide, Leaf Supply also gives interior styling advice on choosing the right pots for your plants—both aesthetically and practically—as well as best utilizing your space, making the most of your indoor greenery, plus advice on pet-friendly (as well as harmful) plants for your home. This is a comprehensive guide for any budding green thumb interested in greening their apartment or inside their home.

The New Plant Parent-Darryl Cheng 2019-03-19 For indoor gardeners everywhere, Darryl Cheng offers a new way to grow healthy house plants. He teaches the art of understanding a plant's needs and giving it a home with the right balance of light, water, and nutrients. After reading Cheng, the indoor gardener will be far less the passive follower of rules for the care of each species and much more the confident, active grower, relying on observation and insight. And in the process, the plant owner becomes a plant lover, bonded to these beautiful living things by a simple love and appreciation of nature. The New Plant Parent covers all of the basics of growing house plants, from finding the right light, to everyday care like watering and fertilizing, to containers, to recommended species. Cheng's friendly tone, personal stories, and accessible photographs fill his book with the same generous spirit that has made @houseplantjournal, his Instagram account, a popular source of advice and inspiration for thousands of indoor gardeners.

The Total Book of House Plants-R. C. Mott 1986-05-21 Provides all essential information on the horticultural requirements and traits of hundreds of flowering, foliage, and fruit-bearing plants, ferns, bromeliads, succulents, and bulbs from around the world

Root, Nurture, Grow-Caro Langton 2020-08-03 Life with a potted plant is undeniably better. And better yet is the ability to grow and replicate new, healthy houseplants without ever having to visit a garden centre again. Learn to share, swap and celebrate the miraculous methods of multiplying all of your favourites at almost no cost at all. And here's the secret: it's really, really easy. Plants are designed to multiply. They spread their roots, send off inquisitive shoots, and regenerate themselves in all sorts of exciting and unexpected ways without any help. Even for the beginner indoor gardener, a single leaf can hold enough life to be successfully grown into a brand new plant. With Root, Nurture, Grow, you'll quickly discover how to propagate any houseplant, take cuttings, cultivate runners and offsets, divide plants at the roots and even grow brand new root systems in the air. You'll learn pruning methods that produce no waste, organic rooting medium recipes, and eventually enjoy gifting and swapping newly grown greenery with friends, family and other houseplant hoarders you'll meet along the way. As well as myriad propagation methods, the book includes practical DIY projects to better nurture and display your plant family, including a homemade propagation chamber and simple self-watering planters. An Illustrated A-Z Guide to Houseplants-Peter McHoy 2013-10-29 A visual A to Z directory of the most popular varieties of indoor plant, including evergreens, ferns, palms, cacti, succulents, flowering plants and those with variegated foliage. With 350 photographs and clear advice on position, feeding, watering, pest control and propagation, this handy guide enables you to identify and grow them with confidence.

Reader's Digest Complete Guide to Indoor Plants- 1980

Houseplant Handbook-David Squire 2017-10-24 "Grow a garden inside! Houseplants bring life and color to any room, and with the right care you can successfully cultivate everything from succulents and bonsai to foliage, flowers, and fruit. RHS Little Book of Happy Houseplants-Holly Farrell 2018-04-05 Growing indoors has never been easier or more fun. Become a star gardener without leaving your home with this beginner's guide to houseplants for the whole family. Whatever the size of your home, and even if you don't have much spare time on your hands, house plants are an exciting way to bring some low-maintenance greenery into your life. As well as looking luscious, house plants improve air quality and our sense of well-being - and caring for them is an endlessly enchanting hobby for both adults and children. See how a knobby ginger root sprouts huge exotic leaves, or how plants can grow without any soil at all. Children can get up close and personal with the natural world and try their hand at growing with ease. Best of all, the plants provide year-round interest and there's never any need to go out into the rain. In RHS Little Book of Happy House Plants, every technique and project is explained and illustrated in clear, down-to-earth steps. Even beginners will want to have a go!

The House Plant Expert-D. G. Hessayon 1996 The House Plant Expert is one of the books in the Expert series written by the world's best-selling gardening author. Quite simply, the best-selling gardening book in the world. Over a million copies have been sold in the U.S, and nearly 14 million worldwide. According to one reviewer - "after the Bible, the best-selling reference book of all time." In a basketful of countries it has taught people how to choose and care for their indoor plants. Its style of dealing with each plant with drawings, photographs and no-nonsense text has become a legend in the publishing world. If you have house plants (and who doesn't?) you need this book.

Houseplants 101-Peter Shepperd 2020-08-20 Your guide to growing big, beautiful, thriving houseplants, whether you're an expert gardener or self-described newbie. Houseplants bring life into the home, literally. They produce oxygen and refresh the air indoors, they liven up small spaces, and they make the perfect companions since they don't demand much more than a sunny window and some water. Of course, for those who have never grown houseplants before, the mere idea of bringing one inside conjures up all sorts of questions and concerns. Don't different plants need different amounts of light? How much water is too much? If I have kids or pets, which plants should I avoid? Relax! Growing plants is supposed to be a joy-filled activity, so before you let all your concerns come pouring out, consult Houseplants 101. Written with beginners and experienced gardeners alike in mind, this book covers everything, from picking the right plants for your space to making them fit right in with decorative pots and hanging baskets. Experience the emotional and psychological benefits of keeping houseplants, which have been shown to reduce feelings of depression and provide an outlet to those with anxiety. Your small corner of the world will grow a bit greener when you learn about the best indoor plants for all types of caretakers, why succulents are so popular, and how to make your plants not only happy and lush, but also stylish. In addition, you'll discover:

- Which houseplants are the hardest to kill (perfect for those who do not consider themselves to have green fingers yet!)
- How to ensure your plants get adequate light
- Why repotting is an important step in the growth cycle of a plant
- High-maintenance plants for the more adventurous indoor gardeners
- The best plants for every type of home, from those that have an abundance of sunlight to the ones that are darker than a cave

And much, much more! As a bonus, you'll even find a growing guide for edible plants that you can keep inside all year round! Everyone can grow plants, and that's what Houseplants 101 will prove. If you're ready to pick up a spade and get your hand dirty, click "add to cart" and discover the wonderful world of houseplants!

Grow Houseplants-Tamsin Westhorpe 2021-06-03 Discover how to keep your houseplants alive and thriving. Get to grips with essential care know-how and expert advice, then explore the illustrated directory to learn how to look after, rescue, and propagate more than 60 of your favourite houseplant varieties. Includes practical, jargon-free know-how, this easy-to-use e-guide has everything you need to know to help your houseplants Grow.

My House Plant Changed My Life-David Domoney 2021-02-04 Use the power of the humble house plant to combat the stresses of modern life! Succulents and indoor house plants may seem extra trendy right now, but these plants have more benefits than simply looking beautiful. Everyday products pollute the air in our homes and our mental wellbeing is threatened like never before. This gardening book reveals the best life-enhancing houseplants that can reduce stress, fight fatigue, and even lower your blood sugar. Winning Gold for the accompanying exhibit at the RHS Chelsea Flower Show 2021, My Houseplant Changed My Life draws on groundbreaking research, profiling the best air-purifying plants you can put in your home to reduce pollutant gases, particulates, and volatile compounds. Discover how these indoor plants can actively clean the air and improve your mental health through their colours, scent, habit, and nurturing needs. Explore how having leafy companions can help to unlock your potential: - Profiles of the 50 top air-purifying and mood-enhancing plants - Easy-to-follow advice and expert tips from David Domoney, award-winning horticulturalist - Informative text highlights the natural wonder of each plant - Feature spreads show plant combinations to enhance your mood in different ways - Step-by-step demonstrations of essential care techniques Packed with expert advice, this book will equip you with everything you need to keep your plants thriving. It also highlights mindful ways to nurture and increase your green guests: by misting, wiping, feeding, pinching, pruning, and propagating. Discover the Power of Nature The ideal gift for your green-fingered friends, this book is perfect for urbanites with little or no outdoor space who want to increase the amount of greenery in their life.

The Complete Guide to Indoor Gardening-Jenny Raworth 1998 Presents information on the care and selection of indoor flowering and foliage plants, with advice on feeding, watering, planting, potting, pruning, and staking

The Inspired Houseplant-Jen Stearns 2019-01-29 The ultimate indoor gardening book, this guide offers inspiration and instruction for creating vibrant in-home gardens and caring for your houseplants With plentiful images and a distinctly modern and sophisticated feel, this book imparts both easy-to-follow advice and creative garden-design inspiration. Whether you are looking to pick a statement plant for your living room, create a terrarium centerpiece, or arrange an artful display of air plants, this book will provide the tools you need. You'll be tempted to thumb through it again and again—for both resource and relaxation. The Inspired Houseplant includes: • Plant Basics: beginner-friendly plant care info • Plant Guide: profiles of popular indoor plants • Plant Projects: fun, easy projects with major wow factor (including trending designs like terrariums, air plants, marimo and other underwater gardens, kokedama, mounted staghorn ferns, and edible herbs) • Plant Style: ways to use plants in interior design for every style from Desert Boho to Midcentury Modern

At Home with Plants-Ian Drummond 2017-04-06 Houseplants are hot, and creative interior planting is becoming increasingly easy to achieve. The new wave of unusual and dramatic indoor plants is as much about décor and statement as greenery. Used aesthetically, as a focal point and sculptural element in interior design, indoor gardening is not just about possessing or growing a plant, but about using it as an accessory combined with other objects to create a particular style and mood. In this much-needed book, Ian and Kara show you how to transform your home with plants and tells you which plants will work best where and how to care for them. From strikingly geometric terrariums to pretty hanging baskets, practical herb pots and colourful window displays, this book is packed full of exciting and gorgeous ideas. Specially commissioned photography by Nick Pope throughout proves that bringing the outdoors in really is the best form of interior design.

The House Plant Encyclopedia-Ingrid Jantra 1997 A-Z listings, at-a-glance symbols, useful hints and tips and an extensive glossary. (1997)

Gardening Under Lights-Leslie F. Halleck 2018-06-26 "If you want to grow plants indoors, you need this book." —Niki Jabbour, author and staff writer at savvygardening.com Gardening Under Lights is a highly-detailed, accessible guide for seed starters, plant collectors, houseplant fans, and anyone who wants to successfully garden indoors any time of the year. You'll learn the basics of photosynthesis, the science of light, how to accurately measure how much light a plant needs, and details about the most up-to-date tools and gear available. Also included are tips and techniques for helping ornamental plants (like orchids, succulents, bonsai, and more) and edible plants (arugula, cannabis, oregano, tomatoes, and more) thrive indoors. Whether you are a vegetable gardener who wants to extend the growing season, a balcony gardener short on outdoor space, or a specialty plant collector, Gardening Under Lights is a must-have.

The Complete Guide to Successful Houseplants, Window Boxes, Hanging Baskets, Pots and Containers-Stephanie Donaldson 2010-03-01 A pictorial guide to container gardening covers topics ranging from simple care and maintenance to identifying and treating pests.
