Tarot-Eileen Connolly 1990-12-01

The Book of Lost Things-John Connolly 2006-11-07 Taking refuge in fairy tales after the loss of his mother, twelve-year-old David finds himself violently propelled into an imaginary land in which the boundaries of fantasy and reality are disturbingly melded. By the author of The Black Angel. 75,000 first printing.

Kabibbles 1-2-3-Amy R. Connelly 2021-06-30 Kabibbles 1-2-3 is a learning book for toddler and early pre-school levels. Mrs. Connelly, a pre-school teacher, uses rhyme, repetition and silly critters to catch a child's attention and help in the recognition of their first numbers. Snuggle close and enjoy.

The Wolf in Winter-John Connolly 2014-10-28 New York Times bestselling author John Connolly is a master of the supernatural thriller—"a genre of one" (Bookreporter)—whose eerie and electrifying Charlie Parker mystery turns a small town in Maine into an unforgettable character that threatens to destroy the brooding private investigator. The isolated community of Prosperous, Maine, has always thrived. While others suffered, the people there have remained fortunate, wealthy, secure, and insular throughout the centuries. Miles to the south, in Portland, a homeless man dies, and the disturbing manner of his death brings Prosperous to the attention of the private investigator Charlie Parker. He is a dangerous man, driven by compassion, rage, and the desire for vengeance. Prosperous and its townsfolk recognize that he poses a threat to their security that runs deeper than any in their long history. But this community has its own way of protecting itself, and its sheltered residents have marked Charlie for death so that Prosperous may survive. Prosperous, and the secret that is buried beneath it...

The Woman in the Woods-John Connolly 2019-05-14 "With its singular characters, eerie subject matter, and socko style" (The New York Times), this gripping thriller from the internationally bestselling author John Connolly follows Private Investigator Charlie Parker as he is hired to track down the identity of a dead woman—who apparently died in childbirth—and her missing child. In the beautiful Maine woods, a partly preserved body is discovered. Investigators realize that the young woman gave birth shortly before her death. But there is no sign of a baby. Private detective Charlie Parker is hired by a lawyer to shadow the police investigation and find the infant but Parker is not the only one searching. Someone else is following the trail left by the woman, someone with an interest in much more than a missing child...someone prepared to leave bodies in his wake. And in a house by the woods, a toy telephone begins to ring and a young boy is about to receive a call from a dead woman. With breathless pacing and shivery twists and turns, "this is Connolly's masterpiece" (Publishers Weekly, starred review).

A Book of Bones-John Connolly 2020-08-25 Private Investigator Charlie Parker returns in this heart-pounding thriller as he seeks revenge against the darkest forces in the world, from "one of the best thriller writers we have" (Harlan Coben, #1 New York Times bestselling author) and the internationally bestselling author of the acclaimed The Woman in the Woods. He is our best hope. He is our last hope. He is our only hope. On a lonely moor in northern England, the body of a young woman is discovered. In the south, a girl lies buried beneath a Saxon mound. To the southeast, the ruins of a priory hide a human skull. Each is a sacrifice, a summons. And something in the darkness has heard the call. Charlie Parker has also heard it and from the forests of Maine to the deserts of the Mexican border, from the canals of Amsterdam to the streets of London, he will track those who would cast the world into darkness. Parker fears no evil—but evil fears him. "A seamless, expansive, and chilling blend of police procedural and gothic horror tale" (Kirkus Reviews), A Book of Bones will keep you guessing until the very last page.

In Deep Water-Sam Blake 2017-04-06 For fans of Patricia Gibney, Angela Marsons, Robert Dugoni and Alex Barclay, comes the gripping follow-up to the number 1 bestseller, LITTLE BONES. Good intentions can be deadly . . . Cat Connolly is back at work after the explosion that left her on life support. Struggling to adjust to the physical and mental scars, her work once again becomes personal when her best friend Sarah Jane Hansen, daughter of a Pulitzer-winning American war correspondent, goes missing. Sarah Jane is a journalism student who was allegedly working on a story that even her father thought was too dangerous. With Sarah Jane's father uncontactable, Cat struggles to find a connection between Sarah Jane's work and her disappearance. But Sarah Jane is not the only one in deep water when Cat comes face to face with a professional killer . . . In the world of missing persons every second counts, but with the clock ticking, can Cathy find Sarah Jane before it's too late?

Tarot-Eileen Connolly 1987 Basic lessons, exercises, procedures, and fundamental esoteric philosophy make this possibly the best spiritual Tarot book ever published. Relates Tarot to other occult sciences such as astrology, the Cabala, and numerology. (Divination)

Yale French Studies, Number 137/138-Thomas C. Connolly 2021-02-23 Number 137/138 in Yale French Studies, this collection of essays examines poetry in French by authors from across the Maghreb Although in recent years Maghrebi literature written in French has enjoyed increased critical attention, less attention has been paid specifically to the genre of poetry. The sixteen essays collected in this special issue of Yale French Studies show how the poem provides a uniquely privileged perspective from which to examine questions relating to aesthetics, linguistics, philosophy, history, autobiography, gender, the visual arts, colonial and postcolonial society and politics, and issues relating to the post-Arab Spring.

Windswept & Interesting-Billy Connolly 2021-10-14 In his first full-length autobiography, comedy legend and national treasure Billy Connolly reveals the truth behind his windswept and interesting life. Born in a tenement flat in Glasgow in 1942, orphaned by the age of 4, and a survivor of appalling abuse at the hands of his own family, Billy's life is a remarkable story of success against all the odds. Billy found his escape first as an apprentice welder in the shipyards of the River Clyde. Later he became a folk musician - a 'rambling man' - with a genuine talent for playing the banjo. But it was his ability to spin stories, tell jokes and hold an audience in the palm of his hand that truly set him apart. As a young comedian Billy broke all the rules. He was fearless and outspoken - willing to call out hypocrisy wherever he saw it. But his stand-up was full of warmth, humility and silliness too. His startling, hairy 'glam-rock' stage appearance - wearing leotards, scissor suits and banana boots - only added to his appeal. It was an appearance on Michael Parkinson's chat show in 1975 - and one outrageous story in particular - that catapulted Billy from cult hero to national star. TV shows, documentaries, international fame and award-winning Hollywood movies followed. Billy's pitch-perfect stand-up comedy kept coming too - for over 50 years, in fact - until a double diagnosis of cancer and Parkinson's Disease brought his remarkable live performances to an end. Since then he has continued making TV shows, creating extraordinary drawings... and writing. Windswept and Interesting is Billy's story in his own words. It is joyfully funny - stuffed full of hard-earned wisdom as well as countless digressions on fishing, farting and the joys of dancing naked. It is an unforgettable, life-affirming story of a true comedy legend. 'I didn't know I was Windswept and Interesting until somebody told me. It was a friend who was startlingly exotic

himself. He'd just come back from Kashmir and was all billowy shirt and Indian beads. I had long hair and a beard and was swishing around in electric blue flairs. He said: "Look at you - all windswept and interesting!" I just said: "Exactly!" After that, I simply had to maintain my reputation...'

Game Changer-Fergus Connolly 2017-09-05 In Game Changer Fergus Connolly shows how to improve performance with evidence-based analysis and athlete-focused training. Through his unprecedented experience with teams in professional football, basketball, rugby, soccer, Aussie Rules, and Gaelic football, as well as with elite military units, Connolly has discovered how to break down the common elements in all sports to their basic components so that each moment of any game can be better analysed, whether you're a player or coach. The lessons of game day can then be used to create valuable leaning experience in training.

The Book of Perfectly Perilous Math-Sean Connolly 2017-03-28 Math rocks! At least it does in the gifted hands of Sean Connolly, who blends middle school math with fantasy to create an exciting adventure in problem-solving. These word problems are perilous, do-or-die scenarios of blood-sucking vampires (How many months would it take a single vampire to completely take over a town of 500,000 people?), or a rowboat of 5 shipwrecked sailors with a single barrel of freshwater (How much can they drink, and for how long, before they go mad from thirst??). Each problem requires readers to dig deep into the tools they're learning in school to figure out how to survive. Kids will love solving these problems. Sean Connolly knows how to make tough subjects exciting and he brings that same intuitive understanding of what inspires and challenges kids' curiosity to the 24 problems in The Book of Perfectly Perilous Math. These problems are as fun to read as they are challenging to solve. They test readers on fractions, algebra, geometry, probability, expressions and equations, and more. Use geometry to fill in for the ship's navigator and make it safely to the New World. Escape an evil Duke's executioner by picking the right door—probability will save your neck.

Search and Find-A. J. Wood 2020-01-07 Take a ride through 26 fully illustrated search and find spreads, each one themed on a number. Count the animals going into Noah's Ark two-by-two, spot 13 scary skeletons at the haunted house on Halloween and visit Farm Fifteen where everything from one scarecrow through to 15 apples need to be found. Allan Sanders' weird and wonderful drawings are packed full of funny things to spot and plenty of Where's Waldo style humour, making this the best way to learn your 1, 2, 3s...

Every Dead Thing-John Connolly 2015-06-16 PI Charlie Parker, a former New York policeman, searches for the killer of his wife and daughter. Two women help him, a pretty criminal psychologist and an old Creole woman with psychic vision.

The Black Box-Michael Connelly 2012-11-26 In this "superb" thriller, Detective Harry Bosch links the bullet from a recent crime to the unsolved killing of a young female photographer during the 1992 L.A. riots (Wall Street Journal). In a case that spans 20 years, Harry Bosch links the bullet from a recent crime to a file from 1992, the killing of a young female photographer during the L.A. riots. Harry originally investigated the murder, but it was then handed off to the Riot Crimes Task Force and never solved. Now Bosch's ballistics match indicates that her death was not random violence, but something more personal, and connected to a deeper intrigue. Like an investigator combing through the wreckage after a plane crash, Bosch searches for the "black box," the one piece of evidence that will pull the case together. Riveting and relentlessly paced, The Black Box leads Harry Bosch, "one of the greats of crime fiction" (New York Daily News), into one of his most fraught and perilous cases.

Blundering to Glory-Owen Connelly 2006 Renowned for its accuracy, brevity, and readability, this book has long been the gold standard of concise histories of the Napoleonic Wars. Now in an updated and revised edition, it is unique in its portrayal of one of the world's great generals as a scrambler who never had a plan, strategic or tactical, that did not break down or change of necessity in the field. Distinguished historian Owen Connelly argues that Napoleon was the master of the broken play, so confident of his ability to improvise, cover his own mistakes, and capitalize on those of the enemy that he repeatedly plunged his armies into uncertain, seemingly desperate situations, only to emerge victorious as he "blundered" to glory. Beginning with a sketch of Napoleon's early life, the book progresses to his command of artillery at Toulon and the "whiff of grapeshot" in Paris that netted him control of the Army of Italy, where his incredible performance catapulted him to fame. The author vividly traces Napoleon's campaigns as a general of the French Revolution and emperor of the French, knowledgeably analyzing each battle's successes and failures. The author depicts Napoleon's "art of war" as a system of engaging the enemy, waiting for him to make a mistake, improvising a plan on the spot-and winning. Far from detracting from Bonaparte's reputation, his blunders rather made him a great general, a "natural" who depended on his intuition and ability to read battlefields and his enemy to win. Exploring this neglected aspect of Napoleon's battlefield genius, Connelly at the same time offers stirring and complete accounts of all the Napoleonic campaigns.

The Black Ice-Michael Connelly 2010-02-25 When a body is found in a hotel room, reporters are soon all over the case: it appears to be a missing LAPD narcotics detective, apparently gone to the bad. The rumours were that he had been selling a new drug called Black Ice that had been infiltrating Los Angeles from the Mexican cartel. The LAPD are quick to declare the death a suicide, but Harry Bosch is not so sure. There are odd mysteries and unexplained details from the crime scene which just don't add up. Fighting an attraction to the detective's widow, Bosch starts his own maverick investigation, which soon leads him over the borders and into a dangerous world of shifting identities, police politics and deadly corruption . . .

Contested Island-S. J. Connolly 2009-07-30 This definitive study of Ireland's transformation from a medieval to a modern society looks at the way in which the country's different religious groups, and nationalities, clashed and interacted during the transition

Bad Men-John Connolly 2012-03-27 Years after the massacre that wiped out a colony of settlers on the small Maine island of Sanctuary, rookie officer Sharon Macy and policeman Joe Dupree team up to protect the island's residents from a band of vengeful killers.

The Book of Numbers-Peter Bentley 2008 Illustrated with photos, diagrams and digital imagery, this chronicle searches for the meaning of numbers and explores puzzling aspects of the mathematical world, and the people who made it.

Running the Numbers-Matthew Vaz 2020 "Strictly and widely illegal, the most common manifestations of urban gambling were once "the numbers game" and "policy," in which people would place daily bets on random numbers, through community institutions, such as newsstands and barbershops. Gambling became one of the largest economic activities and sources of employment in some nonwhite neighborhoods-and therefore it drew intense police interest. Some of the most corrupt and blatantly discriminatory police actions centered on gambling and its practitioners. The state's interest doomed urban gambling, as many states coopted the market with their own hugely lucrative lotteries. A game that first flourished in poor and nonwhite urban communities has become America's game"--

Numerology for Healing-Michael Brill 2008-11-25 A unique approach to using numerology to identify life challenges and karmic lessons to heal emotional and physical problems • Provides a clear method for identifying challenges specific to your birthday and name • Details 185 health conditions and how to address the causes using numerology--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer • Offers guidance in understanding universal abandonment issues and how these affect our behavior In Numerology for Healing, Michael Brill combines numerology with psychology, quantum physics, and the concepts of gematria and reincarnation to create a unique approach to healing emotional and physical problems based on life challenges and karmic lessons. Humans suffer from a profound sense of abandonment when the soul is decanted from the Universal Oneness into the confines of a personality. Brill explains how this sense of abandonment manifests itself in two principal types of behavior: people work to be loved and appreciated for who they are, or they try to control and micromanage their lives and relationships so that nothing goes wrong. Both of these behavior patterns are exhausting physically, emotionally, and mentally and are clear catalysts for illness. Brill details 185 physical and mental health conditions and shows how to identify and treat the causes--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer. For instance, he reveals that, in general, illnesses beginning with the letter "A" (acne and alcoholism) have issues of self-esteem as one of the basic causes, whereas illnesses beginning with letter "G" (gallstones and glaucoma) are

associated with a need to be in control, in relationships or at work. By using the numerology of your birth date and name, Numerology for Healing makes it easy to identify your positive and negative tendencies and characteristics and to use them as the key to achieving a healthier life.

Bad Relations-Cressida Connolly 2022-05-19 A TALE OF A TRAGEDY SEEPING THROUGH GENERATIONS, AND A FAMILY FRACTURED BY HISTORY AND DESIRE - available for pre-order now 'The characters in Bad Relations are so brilliantly real, so wonderfully compelling at their best, and at their worst, that I can't get them out of my head. A wonderful novel' Nina Stibbe 'A writer who seems able to peer directly into the human heart' John Preston On the battlefields of the Crimea, William Gale cradles the still-warm body of his brother. William's experience of war will bring about a change in him that will reverberate through his family over the next two centuries. In the 1970s, William's descendants invite Stephen, a distant relation, to stay in their house in the English countryside - but their golden summer entanglements will end in a shocking fall from grace. Half a century later, a confrontation between the surviving members of the family will culminate in a terrible reckoning. Praise for AFTER THE PARTY: 'Uncanny, evocative, atmospheric' Sunday Times 'Connolly is a terrifically subtle writer... [she] slyly sweeps her readers into the period drama as tensions tauten between families and social classes' Daily Telegraph 'Profound and moving and completely original, with a storyline that is completely satisfying. It'll be one of those novels that stays in my mind forever... it's a work of art' Craig Brown 'I finished it in two days flat and I've never read anything quite like it' Hilary Spurling 'Wonderfully subtle and interesting... with a compelling voice' Linda Grant

The Black Angel-John Connolly 2015-08-25 Assisting a friend in a search for a kidnapped woman, detective Charlie Parker links the abduction to a church of bones in Eastern Europe, a 1944 slaughter at a French monastery, and the myth of an object known as the Black Angel.

Shadow Voices-John Connolly 2021-10-28 All hardbacks in the first print run will be signed by the author. The story of genre fiction - horror, romantic fiction, science fiction, crime writing, and more - is also the story of Irish fiction. Irish writers have given the world Lemuel Gulliver, Dracula, and the world of Narnia. They have produced pioneering tales of detection, terrifying ghost stories and ground-breaking women's popular fiction. Now, for the first time, John Connolly's one volume presents the history of Irish genre writing and uses it to explore how we think about fiction itself. Deeply researched, and passionately argued, SHADOW VOICES takes the lives of more than sixty writers - by turns tragic, amusing, and adventurous, but always extraordinary - and sets them alongside the stories they have written, to create a new way of looking at genre and literature, both Irish and beyond. Here are vampires and monsters, murderers and cannibals. Here are female criminal masterminds and dogged detectives, star-crossed lovers and vengeful spouses. Here are the SHADOW VOICES.

The Work of Robert Reginald-Michael Burgess 1992 A bibliography of science fiction and fantasy writer, editor, and publisher Robert Reginald, with an introduction by William F. Nolan and an Afterword by Jack Dann.

Tarot-Eileen Connolly 1990 In addition to exploring and discovering your own inner depths, this handbook relates the Tarot to other occult sciences such as astrology, the Cabala, and numerology.

Head First Data Analysis-Michael Milton 2009-07-24 A guide for data managers and analyzers shares guidelines for identifying patterns, predicting future outcomes, and presenting findings to others; drawing on current research in cognitive science and learning theory while covering such additional topics as assessing data quality, handling ambiguous information, and organizing data within market groups. Original.

Quantitative Data Analysis in Education-Paul Connolly 2007-08-07 This book provides a refreshing and user-friendly guide to quantitative data analysis in education for students and researchers. It assumes absolutely no prior knowledge of quantitative methods or statistics. Beginning with the very basics, it provides the reader with the knowledge and skills necessary to be able to undertake routine quantitative data analysis to a level expected of published research. Rather than focusing on teaching statistics through mathematical formulae, the book places an emphasis on using SPSS to gain a real feel for the data and an intuitive grasp of the main concepts and techniques involved. Drawing extensively upon up-to-date and relevant examples, the reader will be encouraged to think critically about quantitative research and its potential as well as its limitations in relation to education. Packed with helpful features, this book: provides illustrated step-by-step guides showing how to use SPSS, with plenty of exercises to encourage the reader to practice and consolidate their new skills makes extensive use of real-life educational datasets derived from national surveys in the US and UK to illustrate key points and to bring the material to life has a companion website that contains all of the educational datasets used in the book to download as well as comprehensive answers to exercises and a range of other useful resources that are regularly updated. The book will therefore appeal not only to undergraduate and postgraduate students but also to more established and seasoned educational researchers and lecturers and professors who have tended to avoid or shy away from quantitative methods.

After the Party-Cressida Connolly 2018-06-07 'I always wanted to be friends with both my sisters. Perhaps that was the source, really, of all the troubles of my life...' It is the summer of 1938 and Phyllis Forrester has returned to England after years abroad. Moving into her sister's grand country house, she soon finds herself entangled in a new world of idealistic beliefs and seemingly innocent friendships. Fevered talk of another war infiltrates their small, privileged circle, giving way to a thrilling solution: a great and charismatic leader, who will restore England to its former glory. At a party hosted by her new friends, Phyllis lets down her guard for a single moment, with devastating consequences. Years later, Phyllis, alone and embittered, recounts the dramatic events which led to her imprisonment and changed the course of her life forever. 'Wonderfully subtle and compelling' Linda Grant 'Uncanny, evocative, atmospheric' Sunday Times 'Connolly is a terrifically subtle writer... [she] slyly sweeps her readers into the period drama as tensions tauten between families and social classes' Daily Telegraph 'Wonderful, tragicomic... beautifully researched' The Times

The Caxton Private Lending Library & Book Depository-John Connolly 2018-12-18 In this "utterly enchanting" Edgar and Anthony Award-winning novella, a book lover uncovers a secret world of literary wonders (Irish Times). A voracious reader, Mr. Berger leads a solitary but satisfying life. Preferring the company of books to that of people, he's looking forward to an early retirement in the English countryside, where he can spend his remaining years nestled comfortably between the pages of classic literature. But his serene life is disrupted when he witnesses a woman with a distinctive red traveling bag fling herself before a train. If Mr. Berger isn't mistaken, he's just seen the climax of Anna Karenina reenacted on the Exeter-to-Plymouth railway. Though there is no body on the tracks, and the destiny of the tragic victim was written nearly a century before, Mr. Berger still longs to rescue her. The investigation leads him to the Caxton Private Lending Library & Book Depository, where the living breathing characters of literary invention are under the guardianship of a curious caretaker—and where, for Mr. Berger, the line between fiction and reality will blur beyond comprehension.

Numbers Don't Lie-Yago Colás 2020-11 A typical NBA game can yield approximately 2,800 statistical events in thirty-two different categories. In Numbers Don't Lie Yago Colás started with a simple question: How did basketball analytics get from counting one stat, the final score, to counting thousands? He discovered that what we call "basketball"—rules, equipment, fundamental skills, techniques, tactics, strategies—has changed dramatically since its invention and today encompasses many different forms of play, from backyards and rec leagues to the NBA Finals. Numbers Don't Lie explores the power of data to tell stories about ourselves and the world around us. As advanced statistical methods and big-data technologies transform sports, we now have the power to count more things in greater detail than ever before. These numbers tell us about the past, present, and future that shape how basketball is played on the floor, decisions are made in front offices, and the sport is marketed and consumed. But what is the relationship between counting and what counts, between quantification and value? In Numbers Don't Lie Colás offers a three-part history of counting in basketball. First, he recounts how big-data basketball emerged in the past twenty years, examines its current practices, and analyzes how it presents itself to the public. Colás then situates big data within the deeper social, cultural, and conceptual history of counting in basketball and beyond and proposes alternative frameworks of value with which we may take fuller stock of the impact of statistics on the sport. Ultimately, Colás challenges the putative objectivity of both quantification and academic writing by interweaving through this history a series of personal vignettes of life at the intersection of basketball, counting, and what counts.

Fair Warning-Michael Connelly 2020-05-26 The hero of The Poet and The Scarecrow is back in this thriller from #1 New York Times bestselling author Michael Connelly. Jack McEvoy, the journalist who never backs down, tracks a serial killer who has been operating completely under the radar—until now. Veteran reporter Jack McEvoy has taken down killers before, but when a woman he had a one-night stand with is murdered in a particularly brutal way, McEvoy realizes he might be facing a criminal mind unlike any he's ever encountered. Jack investigates—against the warnings of the police and his own editor—and makes a shocking discovery that connects the crime to other mysterious deaths across the country. Undetected by law enforcement, a vicious killer has been hunting women, using genetic data to select and stalk his targets. Uncovering the murkiest corners of the dark web, Jack races to find and protect the last source who can lead him to his quarry. But the killer has already chosen his next target, and he's ready to strike. Terrifying and unputdownable, Fair Warning shows once again why "Michael Connelly has earned his place in the pantheon of great crime fiction writers" (Chicago Sun-Times). A Kirkus Best Book of 2020

Painting Portraits-Anthony Connolly 2012-12-21 Portrait painting is inherently difficult and requires a unique understanding of and sensitivity to the sitter. This practical book considers the historical context of portrait painting and its contemporary practice.
