

The Consolations Of Imperfection Learning To Appreciate Lifes Limitations

The Consolations of Imperfection-Donald W. McCullough 2004 It is easy to hate or even deny our limitations, but despite our greatest efforts, there are things we cannot change. In The Consolations of Imperfection, Donald McCullough explains that everyone lives out a particular story, and the very limitations that frustrate us may also be freeing us toward new growth. An aging body, for example, reminds us of the transcendent power of the human spirit. Broken relationships remind us that love is a gift, not an obligation, and death is the beginning of something greater, not the end of everything. Weaving anecdotes and inspiring stories into this well-written book, McCullough covers topics ranging from limitations on the body, senses, and knowledge to limitations on moral goodness, spirituality, and time. If you are looking for encouragement and a better way to approach life's inevitable limits, you'll enjoy this witty and insightful book. Book jacket.

The Contradictions of Jazz-Paul Rinzler 2008-10-16 In The Contradictions of Jazz, Paul Rinzler takes a new approach to jazz aesthetics and theory by exploring four pairs of opposites present in jazz: individualism and interconnectedness, assertion and openness, freedom and responsibility, and creativity and tradition. By themselves, these eight values speak volumes about the meaning of jazz and its significance. Understanding how these opposites coexist in jazz leads to an exploration of the connections linking jazz with the experiential and existential, which contrast with the connections between composition and science. Rinzler explains the various concepts, including either/or and dialectic thinking, and then examines the pairs of opposites individually, describing their position and presence in jazz. He then demonstrates how the larger meaning of these contradictory opposites depends on ideas from the philosophies of phenomenology and existentialism. Rinzler considers the opposites inherent in the product and process of jazz, as well as mistakes and the challenge of perfection, presenting these values in light of the contradictions inherent in jazz. With a full bibliography and an index, The Contradictions of Jazz is a fascinating read for fans and scholars of jazz history and aesthetics.

The Consolations of a Critic-C. Lewis Hind 2015-06-26 Excerpt from The Consolations of a Critic When I consider the educational vicissitudes, æsthetic and spiritual, of my friend Claude Williamson Shaw, I know not whether to smile or to be sorrowful. He means so well; his enthusiasms are so rushing, his intention so admirable, but they seldom last longer than morning freshness. The day wanes into commonplace; his fury of appreciation sinks to indifference. I believe that his writings upon art have pleased a few, but his excursions into ideality do not seem to have any permanent effect upon his own character. He remains an inquirer, a pursuer. He follows the gleam, but it eludes him; it does not hover before his path to illumine and direct. He will always be an amateur. I am sure now that the book I wrote about sanguine, soft-hearted Shaw should have been called The Education of an Amateur, not The Education of an Artist. The Relief of Imperfection-Joan C. Webb 2008-01-02 "Dear Lord, I pray that all limitations, weaknesses, defects, pain, hurt, mistakes, embarrassment, and imperfection in my personal and public life, relationships and circumstances be eliminated." This book is for any woman who has ever prayed this prayer or for the one who has even thought it. Joan Webb, a self-proclaimed recovering perfectionist, knows how hard it is for determined and caring women to step into the relief of imperfection. And yet, this is exactly what God wants for us. The Relief of Imperfection encourages the reader to believe the truth about God, others, herself, and her reality, thus eventually releasing her from the pursuit of perfection to relax in the relief of imperfection. Webb provides real-life stories, including how Jesus lived in the midst of imperfect surroundings, to show that it is okay with God to cease trying to appear perfect and have all the right answers all the time. Readers will find permission to stop pretending and start enjoying authentic, intimate relationships with others, with themselves, and with God.

Wisdom From the Margins-William G. Britton 2018-05-16 Henri Nouwen wisely said, "The great illusion of leadership is to think that man can be led out of the desert by someone who has never been there." Jesus has "been there" and knows how to lead us out—but first, he just may lead us in. He meets us in the desert and does his best work in us there. We look for an easier way in vain. I myself reluctantly entered the desert and eventually received unimagined gifts there—gifts I didn't ask for, deserve, or want—gifts hidden in such painful loss that I despaired—and yet, looking back now, these "desert gifts" were the best thing that ever happened to me. I entered the desert, and years later, found my way out. It's not a new way, it was just new to me. Jewish and Christian sages had been living it for thousands of years. Somehow, in recent generations, we managed to forget it. In this collection I mean to begin to make those riches available to you. I'm hoping that like me, you'll discover something that you didn't know you wanted or needed—and something now you wouldn't give up at any price.

Ways of Imperfection-Simon Tugwell 1985 Spirituality has to do with a whole Christian vision of life, not simply with methods of prayer or contemplation. The author approaches the subject through the idea of 'imperfection', tracing this theme through a series of spiritual writers from different periods of Christian history. These are penetrating and illuminating studies which show how from the start and throughout its history the Christian vision is not one for an elite but for everyone, sinners all. The religion of the Cross is the religion of failure turned to account, creatively.

Machiavelli-Paul Oppenheimer 2011-10-27 Niccolò di Bernardo Machiavelli is not only one of the most fascinating figures of the Italian Renaissance, an outstanding author and statesman, but indisputably one of its most influential political theorists, whose fundamental contributions to ideas of political power - as well as to the history of modern drama - remain astonishingly pertinent. His adventurous life led him to notable heights as a diplomat and reformer of the Florentine military, with his replacement of mercenaries by a citizen-militia. His fall, exile and eventual rehabilitation followed as briskly as his rise. Unlike many innovative thinkers about politics, he developed his radical theories of treachery and social transformation, here explored in terms of their originality, in an atmosphere of violence. Based on his experience of government, his insights led to a shift from understanding statehood, war and society as forms of finitude and stasis to those of process. All this unfolds in Paul Oppenheimer's compelling recreation of Machiavelli's life as he actually lived it.

What Persists-Judith Kitchen 2016 What Persists contains eighteen of the nearly fifty essays on poetry that Judith Kitchen published in The Georgia Review over a twenty-five-year span. Coming at the genre from every possible angle, this celebrated critic discusses work by older and younger poets, most American but some foreign, and many of whom were not yet part of the contemporary canon. Her essays reveal a cultural history from the dismantling of the Berlin Wall, through 9/11 and the Iraq War, and move into today's political climate. They chronicle personal interests while they also make note of what was happening in contemporary poetry by revealing overall changes of taste, both in content and in the use of craft. Over time, they fashion a comprehensive overview of the contemporary literary scene. At its best, What Persists shows what a wide range of poetry is being written--by women, men, poets who celebrate their ethnicity, poets who show a fierce individualism, poets whose careers have soared, promising poets whose work has all but disappeared.

Mysticism-Evelyn Underhill 2018-11-01 "Mysticism" is one of most celebrated books on the subject. The spirit of the book is romantic, engaged, and theoretical rather than historical or scientific. Underhill has little use for theoretical explanations and the traditional religious experience, formal classifications or analysis. She dismisses William James' pioneering study, The Varieties of Religious Experience (1902), and his "four marks of the mystic state" (ineffability, noetic quality, transcience, and passivity). Excerpt: "All men, at one time or another, have fallen in love with the veiled Isis whom they call Truth. With most, this has been a passing passion: they have early seen its hopelessness and turned to more practical things. But others remain all their lives the devout lovers of reality: though the manner of their love, the vision which they make to themselves of the beloved object varies enormously. Some see Truth as Dante saw Beatrice: an adorable yet intangible figure, found in this world yet revealing the next."
