

The Courage To Love Principles And Practices Of Self Relations Psychotherapy

The Courage to Love: Principles and Practices of Self-Relations Psychotherapy-Stephen Gilligan 1997-05-17 This is a book about how psychotherapy may be used to cultivate the courage and freedom to love. In a time when love seems to be fading and hatred and despair rising, it presents love as a skill and force that can heal and invigorate, reconnect and guide, calm and encourage. In Gilligan's self-relations approach, psychotherapy is a conversation about competing differences. When these differences are treated violently or indifferently, problems arise; solutions develop when the skills of love are practiced. Those practical skills are described here, with an emphasis on postconventional ethics, Buddhist and aikido principles, and ideas of human sponsorship.

The Courage to Love-William Sloane Coffin 1982 In these essays, which were originally delivered as sermons, Coffin argues that religion has fallen on hard times. He offers a cogent means of recovering a faith true to the spirit of the Bible and able to face up to the uncertainties of the present age. Brings essential biblical insights to bear on such issues as arms race, abortion, homosexuality, separation of church and state, communism, the Moral Majority and the true meaning of "Born again." In his vision, the churches can become centers of creative and courageous thinking, and not mere sanctuaries for frustrated men unable to meet the questions of moral and intellectual uncertainty.

Bravehearts-Sharon Hersh 2009-10-07 For Every Woman Who Wants More from Her Relationships Within every woman is the desire for extraordinary relationships. We crave intimacy and interconnectedness, companionship and camaraderie. Yet most of us eventually begin to wonder if we want too much. As heartbreak and disappointment take their toll, we become convinced that our desire for deep connection is our downfall. Not understanding that a woman's longings are her strength, we bury or ignore this God-given compass and lose our way. Yet the desire to connect persists. We make cookies for a new family in the neighborhood, send a note of encouragement to someone at church, plan date nights with our spouse, call a friend after a bad day at work to tell her every detail because we know she cares. And still we long for more. What is behind this yearning? Is it healthy? Is it normal? Does it have a purpose? Yes, says author and licensed professional counselor Sharon Hersh--and in Bravehearts, she'll teach how your deepest longings can lead you to rich relationships and give you the courage to love with abandon.

The journey of love in couples-Jessica Riberi 2021-01-20 A couple's relationship is not just about two people. Numerous unconscious psychological scripts from the collective sphere and mandates inherited from family history affect our way of living love, one of the most significant human experiences. The psychotherapists and Master Trainer in NLP, Jessica Riberi and Inge Ludvigsen, combine their professional and teaching experience in Chile and Denmark, and propose a system to align six energy fields that promote and strengthen the love bond. "Jessica Riberi and Inge Ludvigsen have written a delightful and very helpful guide to how archetypal forms - that is, the patterns of the universal energies of human being - can support and transform intimate relationships. They are especially good in describing how to develop more mature and generative levels of each universal energy. I highly recommend it to both people helpers, as well as those seeking deeper intimacy connections." Stephen Gilligan, psychologist, author of The Courage to Love and The Hero's Journey (with Robert Dilts) "What could be more important and timely than having pathways to bring more quality into our relationships. We are relational beings seeking the connections for outcomes of life: partners, families, work-spaces and communities. Connection is there but managing these connections is quite a different order. This is where archetypes guide us by reflecting back an ideal. Not that we ever really get to the ideal but they remind us to bring awareness to the learning and the nurturing of the relationships that bring the joy to our lives. Thank you so much for this book, The Journey of love in couples as it also can bring us some hope for our inner and outer peace" Judith DeLozier, anthropologist, coauthor of Turtle all the way down (with John Grinder) and Encyclopedia of Systemic NLP (with Robert Dilts).

Generative Trance-Stephen Gilligan 2012-09-30 This book describes an entirely new way of conducting hypnotherapeutic interventions - Stephen Gilligan's generative trance. The first generation of trance work, the traditional hypnosis that still holds sway in most places, considers that both the conscious mind and the unconscious mind of the client are, to put it bluntly, idiots. So trance work involves first 'knocking out' the conscious mind and then talking to the unconscious mind like a 2-year old that needs to be told how to behave. Milton Erickson created the second generation of trance work. He approached the unconscious as having creative wisdom and each person as extraordinarily unique. Thus, rather than trying to programme the unconscious with new instructions, Erickson saw trance as an experiential learning state where a person's own creative unconscious could generate healing and transformation. At the same time Erickson, for the most part, carried the same low opinion of the conscious mind. Thus, Ericksonian hypnosis looks to bypass the conscious mind with indirect suggestions and dissociation and depotentiate it with confusion techniques.

Speaking about the Unspeakable-Dennis McCarthy 2008-05-10 Children do not always have the capacity or need to express themselves through words. They often succeed in saying more about their feelings and experiences by communicating non-verbally through play and other expressive, creative activities. The basic premise of *Speaking about the Unspeakable* is that life's most pivotal experiences, both good and bad, can be truly expressed via the language of the imagination.

Through creativity and play, children are free to articulate their emotions indirectly. The contributors, all experienced child therapists, describe a wide variety of non-verbal therapeutic techniques, including clay, sand, movement and nature therapy, illustrating their descriptions with moving case studies from their professional experience. Accessible and engaging, this book will inspire child psychologists and therapists, art therapists and anyone with an interest in therapeutic work with children.

Current Thinking and Research in Brief Therapy-William Matthews 2013-06-20 In Volume 2 of Current Thinking and Research in Brief Therapy the author's consideration of Ericksonian-influenced brief therapy continues. Presently, there is a concern among those in the psychotherapy profession who worry that this area of science will become heartless. Others are equally concerned that their hearts not become science-less in the future. In this volume, the authors respect both viewpoints and attempt to weave these notions together. Throughout this book, different types of emotions in psychotherapy unfold. For instance, Harry Aponte presents a thoughtful piece on the issue of client-therapy intimacy, while Doug Flemons and Shelley Green, a married couple, share a humorous yet sensitive article on sexual concerns in couples, and finally, Daniel Handel provides a powerful story of the use of hypnosis with a dying adolescent. In addition to the emotional side of psychotherapy, the authors include the scientific aspects of psychotherapy. A discussion about various models of brief therapy is given, emphasizing that the therapeutic effects of the treatment models are attributable to "the non-treatment specifics" of the therapeutic interaction. A review of empirical data on the key elements of Ericksonian hypnosis and the social-psychological aspect of Ericksonian hypnosis are discussed as well. Finally, an important, and perhaps controversial, essay on ethics in the general non-therapeutic use of hypnosis by lawyers and its use in recovering memories is presented.

Beyond Technique in Solution-focused Therapy-Eve Lipchik 2002-05-31 This book adds a dimension to the solution-focused therapy literature, providing a framework to facilitate nonformulaic clinical decision making. Focus is on how emotional issues can help pave the way to successful solutions. Case material is also used showing not only what a clinician does at particular moments in therapy but why.

Beyond Technique in Solution-Focused Therapy-Eve Lipchik 2011-09-12 Solution-focused therapy is often misunderstood to be no more than the techniques it is famous for—pragmatic, future-oriented questions that encourage clients to reconceptualize their problems and build on their strengths. Yet when applied in a "one-size-fits-all" manner, these techniques may produce disappointing results and leave clinicians wondering where they have gone wrong. This volume adds a vital dimension to the SFT literature, providing a rich theoretical framework to facilitate nonformulaic clinical decision making. The focus is on how attention to emotional issues, traditionally not emphasized in brief, strengths-based interventions, can help "unstuck" difficult situations and pave the way to successful solutions.

Invitation To Possibility Land-Bill O'Hanlon 2013-06-17

Observing Theatre-Daniel Meyer-Dinkgräfe 2013-12-01 Daniel Meyer-Dinkgräfe and co-authors take the exploration of the subjective dimension of theatre, its spiritual context, its relation to consciousness and natural law, further than ever before, thanks to the context provided by the thinking of German geobiologist Hans Binder. We present relevant aspects of Binder's approach as precisely as possible, then take Binder's approach for granted to tease out the implications of that approach to the issues of theatre, including nostalgia, intercultural theatre, theatre criticism, dealing with demanding roles, the canon, theatre and philosophy, digital performance, practice as research, and applied theatre. Overall, the book proposes an overarching emphasis on the importance of living in the present and the concomitant need to abandon obsolete but still powerful patterns of the past. In this context, theatre, according to Binder, has a global responsibility for the new world in which humans are liberated from the scourge of the past. Theatre has the power and thus the responsibility to be path-breaking for a new "fiction", to show to people, in a playful and creative manner, the direction in which the new consciousness can move. Daniel Meyer-Dinkgräfe is Professor of Drama at the Lincoln School of Performing Arts, University of Lincoln. He has numerous

publications on the topic of 'Theatre and Consciousness' to his credit, and is founding editor of the peer-reviewed web-journal Consciousness, Literature and the Arts and the book series of the same title with Rodopi.

Intimacy, Change, and Other Therapeutic Mysteries-David C. Treadway 2004-09-07 This unique collection of short fiction takes the reader on an journey beyond the terrain of the clinical text or case study. David Treadway not only explores the ways in which therapy addresses client problems, but also illuminates the impact of clinical work on the therapist, how what happens in sessions spills over into the personal lives of both parties, and how we can understand the myriad, often unpredictable ways in which change occurs over time. Delving into vital personal, professional, and ethical issues that are often neglected in clinical training - and offering insights to stimulate further thinking and discussion - the volume is deeply instructive. This volume is a rewarding resource for psychotherapists from a range of backgrounds, including clinical psychologists, clinical social workers, couple and family therapists, and psychiatrists. It is also an invaluable tool for professional workshops or graduate training programs.

Dare to Lead-Brené Brown 2018-10-11 In her #1 NYT bestsellers, Brené Brown taught us what it means to dare greatly, rise strong and brave the wilderness. Now, based on new research conducted with leaders, change makers and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status and power over people. Leaders are people who hold themselves accountable for recognising the potential in people and ideas, and developing that potential. This is a book for everyone who is ready to choose courage over comfort, make a difference and lead. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it and work to align authority and accountability. We don't avoid difficult conversations and situations; we lean into the vulnerability that's necessary to do good work. But daring leadership in a culture that's defined by scarcity, fear and uncertainty requires building courage skills, which are uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the same time we're scrambling to figure out what we have to offer that machines can't do better and faster. What can we do better? Empathy, connection and courage to start. Brené Brown spent the past two decades researching the emotions that give meaning to our lives. Over the past seven years, she found that leaders in organisations ranging from small entrepreneurial start-ups and family-owned businesses to non-profits, civic organisations and Fortune 50 companies, are asking the same questions: How do you cultivate braver, more daring leaders? And, how do you embed the value of courage in your culture? *Dare to Lead* answers these questions and gives us actionable strategies and real examples from her new research-based, courage-building programme. Brené writes, 'One of the most important findings of my career is that courage can be taught, developed and measured. Courage is a collection of four skill sets supported by twenty-eight behaviours. All it requires is a commitment to doing bold work, having tough conversations and showing up with our whole hearts. Easy? No. Choosing courage over comfort is not easy. Worth it? Always. We want to be brave with our lives and work. It's why we're here.'

She offers practical guidelines and tools and points readers towards spiritual avenues for parenting with God's help. Topics covered include: • The upshot of culture • Character and values • Stages of development • Discipline • Intentional parenting • How to pray for your child Also included are many real-life stories that parents will be able to relate to, as well as Scripture verses and questions for personal reflection and discussion at the end of every chapter.
