Understanding Children with Autism Spectrum Disorders-Michelle R. Haney 2012-10-12 As prevalence rates and awareness of Autism Spectrum Disorder (ASD) increase, there is a need for all educators to have a basic understanding of the disorder and how to teach affected children. Understanding Children with Autism Spectrum Disorders: Educators Partnering with Families introduces, in an accessible manner, the significant body of research and theory in the field of autism within the larger context of understanding the unique socio-cultural dimensions of individuals with ASD and their families. Engaging and user-friendly, Michelle Haney’s text provides future educators insight into the complexity and diversity of children with ASD, the wide range of interventions and processes for make decisions about choosing interventions (teaming with parents to provide optimal educational opportunities), and the personal/professional growth that is likely to take place during such a journey.

Christianity Neither False Nor Useless, Tho’ Not as Old as the Creation-George Turnbull 1732

Christianity as Old as the Creation: or, the Gospel, a republication of the religion of nature. [By Matthew Tindal.] The second edition in octavo- 1732

Star Wars in Context-Nader Elhefnawy 2018-05-02 We often hear about the inspirations for and impact of Star Wars, but most of the discussion tends to be vague, cursory--and ill-informed. STAR WARS IN CONTEXT aims to do better, explaining and in cases debunking what others tend to just assume. This second edition of the book, over twice the length of the original, not only updates the discussion but expands on it, covering such questions as: \* How did George Lucas’s earlier films (THX 1138, American Graffiti) lead to Star Wars? \* In what ways did Akira Kurosawa’s films, Joseph Campbell, Bruno Bettelheim, Carlos Castaneda and the James Bond movies actually influence the films’ creation? \* Where did the idea of the Force come from, and why does it seem so vague and slippery? (As it happens, Castaneda had a lot to do with it.) \* Why did fans react so strongly against the prequels, and then become so much more accepting of them later? \* What part did Star Wars actually play in creating the movie blockbuster and film market as we now know it? Going from Modernism to the globalization of the entertainment industry, from New Age mysticism to journalistic poptimism in its search for the answers, STAR WARS IN CONTEXT sets the record straight on all this, and much more.

Reframing Disability in Manga-Yoshiko Okuyama 2020-05-31 Reframing Disability in Manga analyzes popular Japanese manga published from the 1990s to the present that portray the everyday lives of adults and children with disabilities in an ableist society. It focuses on five representative conditions currently classified as shōgai (disabilities) in Japan—deafness, blindness, paraplegia, autism, and gender identity disorder—and explores the complexities and sociocultural issues surrounding each. Author Yoshiko Okuyama begins by looking at preindustrial understandings of difference in Japanese myths and legends before moving on to an overview of contemporary representations of disability in popular culture, uncovering sociohistorical attitudes toward the physically, neurologically, or intellectually marked Other. She critiques how characters with disabilities have been represented in mass media, which has reinforced ableism in society and negatively influenced our understanding of human diversity in the past. Okuyama then presents fifteen case studies, each centered on a manga or manga series, that showcase how careful depictions of such characters as differently abled, rather than disabled or impaired, can influence cultural constructions of shōgai and promote social change. Informed by numerous interviews with manga authors and disability activists, Okuyama reveals positive messages of diversity embedded in manga and argues that greater awareness of disability in Japan in the last two decades is due in part to the popularity of these works, the accessibility of the medium, and the authentic stories they tell. Scholars and students in disability studies will find this book an invaluable resource as well as those with interests in Japanese cultural and media studies in general and manga and queer narrative and anti-normative discourse in Japan in particular.

Language Creation and Language Change-Michel DeGraff 1999 Research on creolization, language change, and language acquisition has been converging toward a triangulation of the constraints along which grammatical systems develop within individual speakers--and (viewed externally) across generations of speakers. The originality of this volume is in its comparison of various sorts of language development from a number of linguistic-theoretic and empirical perspectives, using data from both speech and gestural modalities and from a diversity of acquisition environments. In turn, this comparison yields fresh insights on the mental bases of language creation.The book is organized into five parts: creolization and acquisition; acquisition under exceptional circumstances; language processing and syntactic change; parameter setting in acquisition and through creolization and language change; and a concluding part integrating the contributors’ observations and proposals into a series of commentaries on the state of the art in our understanding of language development, its role in creolization and diachrony, and implications for linguistic theory.Contributors : Dany Adone, Derek Bickerton, Adrienne Bruyn, Marie Coppola, Michel DeGraff, Viviane Dopez, Alison Henry, Judy Kegl, David Lightfoot, John S. Lumsden, Salikoko S. Mufwene, Pieter Muysken, Elissa L. Newport, Luigi Rizzi, Ian Roberts, Ann Senghas, Rex A. Sprouse, Denise Tangney, Anne Vainikka, Barbara S. Vance, Maaike Verrips.

Christianity as Old as the Creation-Matthew Tindal 1730

International Business-Marios Katsioloudes 2007-03-15 Traditionally, international business (IB) texts survey the field from a USA perspective, going on to compare the USA to the rest of the business world. This text addresses IB from a purely multinational perspective. International Business is examined from the USA angle, going on to address IB issues from other countries’ perspectives, what we call the “Reverse Perspective.” The authors interview business executives and politicians from a number of countries including the USA, Canada, Mexico, Brazil, Colombia, Argentina, India, Hong Kong, Taiwan, China, Japan, South Korea, Germany, Italy, and Russia. These interviews are incorporated at appropriate points in the text providing first-hand information and practical insight. Cases include: Air Arabia, Gap, Diebold Inc, Matsushita, AMSUPP, NIKE, China Eastern Airlines, Luton & Dunstable Hospital, Harley Davidson, Cassis de Dijon, Green investments in Belize, Chicago Food and Beverage Company, Advanced Software Analytics

In a Different Key-John Donvan 2016-01-19 The stunning history of autism as it has been discovered and felt by parents, children and doctors Nearly seventy-five years ago, Donald Triplett of Forest, Mississippi became the first child diagnosed with autism. In a Different Key tells the extraordinary story of the world his diagnosis created - a riveting human drama that takes us across continents and through some of the great social movements of the twentieth century. The history of autism is, above all, the story of families fighting for a place in the world for their children. It is the story of women like Ruth Sullivan, who rebelled against a medical establishment that blamed "refrigerator mothers" for causing autism, of fathers who pushed scientists to dig harder for treatments, of parents who forced schools to accept their children. But many others played starring roles too: doctors like Leo Kanner, who pioneered our understanding of autism, scientists who sparred over how to treat autism, and those with autism, like Temple Grandin and Ari Ne’eman, who explained their inner worlds and championed a philosophy of “neurodiversity”. This is also a story of fierce controversy: from the question of whether there is truly an autism ‘epidemic’, and whether vaccines played a part in it, to scandals involving ‘facilitated communication’, one of many treatments that have proved to be blind alleys. And there are dark turns too: we learn about experimenters feeding LSD to children with autism, or shocking them with electricity to change their behavior; and the authors reveal, for the first time, that Hans Asperger, discoverer of the syndrome named after him, may have cooperated with the Nazis in sending disabled children to their deaths. By turns intimate and panoramic, In a Different Key takes us on a journey from an era when families were shamed and children were condemned to institutions, to one in which parents and people with autism push not simply for inclusion, but for a new understanding of autism: as difference rather than disability.

The Wibbly-Wobbly, Timey-Wimey Trivia Quiz: An Unauthorized Doctor Who Companion-Don J. Krouskop It’s a trivia quiz! It’s an episode guide! It’s bigger on the inside than the outside! Test your knowledge of the most popular, enduring science-fiction series in the world with this comprehensive Doctor Who trivia quiz. With more than 1000 questions, covering every period in the program’s five-decade history, it’s the ultimate challenge for fans of television’s #1 cult classic. In these pages, you’ll find questions like: Who knitted the Fourth Doctor’s trademark scarf? “The Doctor’s Daughter” guest star Georgia Moffett is the real-life daughter of what former Doctor Who star? What alien race built the Genesis Ark? The first episode of Doctor Who was broadcast just one day after what real-life tragedy? How many holes are there inside the lock on the TARDIS door? Dalek creator Terry Nation co-produced what iconic 1980s U.S action series? Are you ready to put your Time Lord expertise on trial? Can you be the Master of Doctor Who minutiae? Only time will tell.... Don J. Krouskop is a critic, film/TV historian, screenwriter, and rabid Doctor Who fan. He lives with his wife, four dogs, and four cats in Columbus, Ohio.

The Doctors Are In-Graeme Burk 2015-09-01 Get to know the eccentric alien known as the Doctor in this ‘out-of-this-world read for both Classic and New Who fans’ (Library Journal). From his beginnings as a crotchety, anti-heroic scientist in 1963 to his current place in pop culture as the mad and dangerous monster-fighting savior of the universe, the character of Doctor Who has metamorphosed in his many years on television. And yet the questions about him remain the same: Who is he? Why does he act the way he does? What motivates him to fight evil across space and time? The Doctors Are In is a guide to television’s most beloved time traveler from the authors of Who Is the Doctor and Who’s 50. This is a guide to the Doctor himself—who he is in his myriad forms, how he came to be, how he has changed (within the program itself and behind the scenes) . . . and why he’s a hero to millions.

The Handbook of Contemporary Clinical Hypnosis-Les Brann 2015-06-22 Covering theory and practice, The Handbook of Contemporary Clinical Hypnosis is an up-to-date, authoritative resource to support health professionals in their use of hypnosis in clinical settings. Provides an authoritative reference for practitioners and trainees on the diverse applications of hypnosis, published under the auspices of the British Society for Clinical and Academic Hypnosis (BSCAH) Combines a theoretical framework with material on a wide range of specific disorders including anxiety, stress phobias, eczema, oncology, eating disorders and infertility Shows how to adjust hypnotic techniques for different contexts e.g. when working with children, in emergencies and via a translator Features a variety of case studies that illustrate hypnosis techniques in action

A Prehistory of Western North America-David Leedom Shaul 2014-06-30 This book offers a new approach to the use of linguistic data to reconstruct prehistory. The author shows how a well-studied language family—in this case Uto-Aztecan—can be used as an instrument for reconstructing prehistory. The main focus of Shaul’s work is the mapping of Uto-Aztecan. By presenting various models of Uto-Aztecan prehistory, by assessing multiple models simultaneously, and by guiding readers through areas where the evidence is not so clear, Shaul helps nonspecialists develop the tools needed for evaluating various historical linguistics models themselves. He evaluates both archaeological and genetic evidence as well, placing it carefully alongside the linguistic evidence he knows best. Shaul’s thorough treatment provides many new avenues for future research on the historical anthropology of western North America.

Clinical Neuropsychology and the Psychological Care of Persons with Brain Disorders-George P. Prigatano 2019-09-06 The administration of psychological care to persons with brain disorders requires a series of skills that integrate the knowledge of clinical neuropsychology with developmental psychology, psychotherapy, rehabilitation, and the study of the humanities. In Clinical Neuropsychology and the Psychological Care of Persons with Brain Disorders, Dr. Prigatano describes his approach to this complex topic. He reviews some of the defining characteristics of human nature, and blends that discussion with an understanding of how the brain normally develops and declines with age. The psychological struggles of people at each stage of development are further described as different brain disorders occur at different times in development.
