2005 Tanure Ojaide Creative writing is a relatively new phenomenon in African universities, as the influence of the American higher education system gains ground on the continent. Whilst there are many creative writing course books that focus on American/European audiences, there are almost no books with an African literary emphasis in mind, placing African literature and writing into a wider literary context and tradition, and targeting African writers, students and teachers of creative writing. Intending to fill this gap, this book is meant for teachers and students of creative writing, poetry and African literature on the African continent and beyond, especially young African writers.

2016 Lorrie Blair Writing A Graduate Thesis or Dissertation is a comprehensive guide to the stages of working through the rigors of writing and defending a graduate degree from the initial stages of choosing a thesis topic and supervisor, right through to the defense of the work. Each chapter can be consulted separately, or the whole book read to give a wide-ranging understanding of the issues most pertinent to writing and defending a thesis. This book provides something for everyone involved in that process. Both graduate students and their supervisors will find this a refreshing and thorough collection that

addresses the topic across a wide range of disciplines.

This book answers every question a doctoral graduate new to publishing could have about writing for a conference, from "Why would I want to publish at a conference?" to "What do I wear?" Conferences are often a researcher's first foray into publishing. Each year, about 50,000 new doctoral graduates arrive to the publishing landscape, most with little or no understanding of how the conference publication process works. Yet until now, there have been no publications devoted to this specific subject. *Writing for Conferences: A Handbook for Graduate Students and Faculty* serves as an essential guide for graduate students who want to publish the results of the research projects of their graduate program to maximum effect. It explains the conference publication process step-by-step and answers all of the questions asked by students inexperienced in publishing. The book is also a valuable reference manual for

previously published authors, providing insightful sections on ethics in publishing, dress and grooming, presentation tips, and networking techniques to develop further research and career opportunities. Presents vignettes from many published authors that highlight their real-life experiences. Dedicates an entire chapter to documenting the timeline of publishing. Includes over 80 tables that augment the text. Contains sidebars that reinforce key points and definitions. Provides bibliography references at the end of each chapter. Includes a glossary of key terms.
