History and Cultural Theory-Simon Gunn 2014-05-22 In recent times there has been recognition of the growing influence of cultural theory on historical writing. Foucault, Bourdieu, Butler and Spivak are just some of the thinkers whose ideas have been taken up and deployed by historians. What are these ideas and where do they come from? How have cultural theorists thought about 'history'? And how have historians applied theoretical insights to enhance their own understanding of events in the past? This book provides a wide-ranging and authoritative guide to the often vexed and controversial relationship between history and contemporary theory. It analyses the concepts that concern both theorists and historians, such as power, identity, modernity and postcolonialism, and offers a critical evaluation of them from an historical standpoint. Written in an accessible manner, History and Cultural Theory gives historians and students an invaluable summary of the impact of cultural theory on historiography over the last twenty years, and indicates the likely directions of the subject in the future.

Black British Cultural Studies-Houston A. Baker, Jr. 1996-09 Black British Cultural Studies has attracted significant attention recently in the American academy both as a model for cultural studies generally and as a corrective to reigning constructions of Blackness within African-American studies. This anthology offers the first book-length selection of writings by key figures in this field. From Stuart Hall's classic study of racially structured societies to an interview by Manthia Diawara with Sonia Boyce, a leading figure in the Black British arts movement, the papers included here have transformed cultural studies through their sustained focus on the issue of race. Much of the book centers on Black British arts, especially

film, ranging from a historical overview of Black British cinema to a weighing of the costly burden on Black artists of representing their communities. Other essays consider such topics as race and representation and colonial and postcolonial discourse. This anthology will be an invaluable and timely resource for everyone interested in cultural studies. It also has much to offer students of anthropology, sociology, media and film studies, and literary criticism.

Slavery and the Culture of Taste-Simon Gikandi 2014-04-27 It would be easy to assume that, in the eighteenth century, slavery and the culture of taste--the world of politeness, manners, and aesthetics--existed as separate and unequal domains, unrelated in the spheres of social life. But to the contrary, Slavery and the Culture of Taste demonstrates that these two areas of modernity were surprisingly entwined. Ranging across Britain, the antebellum South, and the West Indies, and examining vast archives, including portraits, period paintings, personal narratives, and diaries, Simon Gikandi illustrates how the violence and ugliness of enslavement actually shaped theories of taste, notions of beauty, and practices of high culture, and how slavery's impurity informed and haunted the rarified customs of the time. Gikandi focuses on the ways that the enslavement of Africans and the profits derived from this exploitation enabled the moment of taste in European--mainly British--life, leading to a transformation of bourgeois ideas regarding freedom and selfhood. He explores how these connections played out in the immense fortunes made in the West Indies sugar colonies, supporting the lavish lives of English barons and altering the ideals that defined middle-class subjects. Discussing how the ownership of slaves turned the American planter class into a new aristocracy, Gikandi engages with the slaves' own response to the strange interplay of modern notions of freedom and the realities of bondage, and he emphasizes the aesthetic and cultural processes developed by slaves to create spaces of freedom outside the regimen of enforced labor and truncated leisure. Through a close look at the eighteenth century's many remarkable documents and artworks, Slavery and the Culture of Taste sets forth the tensions and contradictions entangling a brutal practice and the distinctions of civility.

Gender in Translation-Sherry Simon 2003-09-02 Gender in Translation is a broad-ranging, imaginative and lively look at feminist issues surrounding translation studies. Students and teachers of translation studies, linguistics, gender studies and women's studies will find this unprecedented work invaluable and thought-provoking reading. Sherry Simon argues that translation of feminist texts - with a view to promoting feminist perspectives - is a cultural intervention, seeking to create new cultural meanings and bring about social change. She takes a close look at specific issues which include: the history of feminist theories of language and translation studies; linguistic issues, including a critical examination of the work of Luce Irigaray; a look at women translators through history, from the Renaissance to the twentieth century; feminist translations of the Bible; an analysis of the ways in which French feminist texts such as De Beauvoir's *The Second Sex* have been translated into English.

Popular Culture Theory and Methodology-Harold E. Hinds 2006 Since its birth in the 1960s, the study of popular culture has come a long way in defining its object, its purpose, and its place in academe. Emerging along the margins of a scholarly establishment that initially dismissed anything popular as unworthy of serious study-trivial, formulaic, easily digestible, escapist-early practitioners of the discipline stubbornly set about creating the theoretical and methodological framework upon which a deeper understanding could be founded. Through seminal essays that document the maturation of the field as it gradually made headway toward legitimacy, *Popular Culture Theory and Methodology* provides students of popular culture with both the historical context and the critical apparatus required for further growth. For all its progress, the study of popular culture remains a site of healthy questioning. What exactly is popular culture? How should it be studied? What forces come together in producing, disseminating, and consuming it? Is it always conformist, or has it the power to subvert, refashion, resist, and destabilize the status quo? How does it differ from folk culture, mass culture, commercial culture? Is the line between "high" and "low" merely arbitrary? Do the popular arts have a distinctive aesthetics? This collection offers a wide range of responses to these and similar questions. Edited by Harold E. Hinds, Jr., Marilyn F. Motz, and Angela M. S. Nelson, *Popular Culture Theory and Methodology* charts some of the key turning points in the "culture wars" and leads us through the central debates in this fast developing discipline. Authors of the more than two dozen studies, several of which are newly published here include John Cawelti, Russel B. Nye, Ray B. Browne, Fred E. H. Schroeder, John Fiske, Lawrence Mintz, David Feldman, Roger Rollin, Harold Schechter, S. Elizabeth Bird, and Harold E. Hinds, Jr. A valuable bibliography completes the volume.

British Government-Simon James 2002-03-11 This reader presents over seventy case studies of policy making in Whitehall and Westminster, combining newspaper coverage, official documents, academic analysis and the recollections of participants. Simon James demonstrates the various ways in which policy originates, the way it is shaped within Whitehall, the different modes of parliamentary control, and the problems of implementation and policy review. He illustrates civil servants' part in developing policy, ministers' relations with their departments and their colleagues, and the role of the prime minister and cabinet. Case studies help to examine cabinet committees, the influence of pressure groups and select committees as well as the consequences of independent inquiries, the impact of the European Community and the restraining power of parliament and the courts. The case studies range from national controversies such as the pits closure crisis and the "Satanic Verses" affair, through

to the hidden side of policy making including deals struck with pressure groups in Whitehall conference and wrangling in Brussels over the tax on whisky. Designed as a textbook for A-level students and undergraduates, "Policy Making in the British Government" provides a broad range of source material and analysis that will be of value to students of British politics, policy making and political institutions.

Reading Into Cultural Studies-Martin Barker 2003-09-02 "Reading Into Cultural Studies" revisits a selection of key texts central to the formation of cultural studies as a discipline and as a project. These texts address questions of power, ideology and the possibilities and limits of resistance. Each of the eleven essays in the collection renews an early study in one area of cultural investigation, bringing such seminal texts as "Subculture" by Dick Hebdige, "Loving With a Vengeance" by Tania Modleski and "Bond and Beyond" by Tony Bennett back to the centre of attention, However the essays are not purely celebratory. Each study is critically examined in a number of ways - for its research strategy, its implicit theories of power and ideology, for the empirical evidence it draws on and its conceptual framework. Together, the essays provide an introduction to some of the central debates and issues in cultural studies.

The Digital Literary Sphere-Simone Murray 2018-09-10 Drawing on approaches from literary studies, media and cultural studies, book history, cultural policy, and the digital humanities, this book asks: What is the significance of authors communicating directly to readers via social media? The Adaptation Industry-Simone Murray 2012-03-12 Adaptation constitutes the driving force of contemporary culture, with stories adapted across an array of media formats. However, adaptation studies has been concerned almost exclusively with textual analysis, in particular with compare-and-contrast studies of individual novel and film pairings. This has left almost completely unexamined crucial questions of how adaptations come to be made, what are the industries with the greatest stake in making them, and who the decision-makers are in the adaptation process. The Adaptation Industry re-imagines adaptation not as an abstract process, but as a material industry. It presents the adaptation industry as a cultural economy of six interlocking institutions, stakeholders and decision-makers all engaged in the actual business of adapting texts: authors; agents; publishers; book prize committees; scriptwriters; and screen producers and distributors. Through trading in intellectual property rights to cultural works, these six nodal points in the adaptation network are tightly interlinked, with success for one party potentially auguring for success in other spheres. But marked rivalries between these institutional forces also exist, with competition characterizing every aspect of the adaptation process. This book constructs an overdue sociology of contemporary literary adaptation, never losing sight of the material and institutional dimensions of this powerful process.

Elizabeth Barrett Browning-Rebecca Stott 2014-09-25 This volume will provide students with an introduction to the poetry and life of Elizabeth Barrett Browning, one of the most popular poets of her day in Britain and America and who has become one of the great icons of Victorianism for the

modern age. The authors present a biographical survey, study of her poetry, its critical reception and an assessment of her influence on later poets. This book also examines the complex 'myths' which are associated with Elizabeth Barrett Browning and offers re-readings of her life and work, particularly in dispelling the myth of the ailing invalid poet-recluse and instead showing her to be one of the great intellectuals of her day, immersed in European history and politics from a very early age. The book situates Browning within broader historical, political and cultural contexts than have yet been examined enabling a better understanding of her poetry and paints the portrait of a fine and innovative poet, an intellectual and an astute political thinker.

Performing Rites-Simon Frith 1998-02-06 An influential writer on popular music asks what we talk about when we talk about music. Instead of dismissing emotional response and personal taste as inaccessible to academic critics, Frith takes these forms of engagement as his subject—and discloses their place at the center of the aesthetics that structure our culture and color our lives.

Cultural Studies and Political Economy-Robert E. Babe 2010-05-10 This book addresses the notorious split between the two fields of cultural studies and political economy. Drawing on the works of Harold Innis, Theodor Adorno, Raymond Williams, Richard Hoggart, E.P. Thompson, and other major theorists in the two fields, Robert E. Babe shows that political economy can be reconciled to certain aspects of cultural studies, particularly with regards to cultural materialism. Uniting the two fields has proven to be a complex undertaking though it makes practical sense, given the close interaction between political economy and cultural studies. Babe examines the evolution of cultural studies over time and its changing relationship with political economy. The intersections between the two fields center around three subjects: the cultural biases of money, the time/space dialectic, and the dialectic of information.

Notework-Simon Reader 2021-06-22 Notework begins with a striking insight: the writer's notebook is a genre in itself. Simon Reader pursues this argument in original readings of unpublished writing by prominent Victorians, offering a more expansive approach to literary formalism for the twenty-first century. Neither drafts nor diaries, the notes of Charles Darwin, Oscar Wilde, Gerard Manley Hopkins, Vernon Lee, and George Gissing record ephemeral and nonlinear experiences, revealing each author's desire to leave their fragments scattered and unused. Presenting notes in terms of genre allows Reader to suggest inventive new accounts of key Victorian texts, including *The Picture of Dorian Gray*, *On the Origin of Species*, and Hopkins's devotional lyrics, and to reinterpret these works as meditations on the ethics of compiling and using data. In this way, Notework recasts information collection as a personal and expressive activity that comes into focus against large-scale systems of knowledge organization. Finding resonance between today's digital culture and its nineteenth-century precursors, Reader honors our most disposable, improvised, and fleeting textual gestures.
