The Hidden-Ivy Asher 2019-08-28 I am a latent wolf shifter. Or so I thought.Then life as I knew it changed in a flash-or more accurately, an electrocution.I've woken up in a strange place, surrounded by strange people who hate me. They're in the middle of a war, and I look like I belong on the wrong side of it. If that's not enough to qualify as a really bad day, I now have wings and a strange animal to figure out, because it turns out that there's not a damn latent thing about me. If I want to live, I have to prove that I'm not the spy I'm accused of being. Then I need to figure out how the fuck to get back home before all hell breaks loose. Too bad my animal has zero interest in working with me unless it has to do with the two hot assholes that lead this rebel group. I'm on my own, in a place I've never even heard of, with threats I don't know how to defeat. And lucky me, I might as well have a rotisserie chicken living inside of me for all the help my newly discovered gryphon is. Perfect. Just fucking perfect.

The dropbears are just one of a number of rare monster species acting erratically in Tamarel. After a swarm of colocolos nearly tramples the group, Rowan becomes convinced that someone (or something) is driving these monsters out of their natural habitats.
