The Day the Whale Came-Lynne Cox 2007-09-19 The real-life story of how the world's most famous female long-distance swimmer encountered a grey whale separated from its mother - and how she helped to reunite them. Lynne Cox is the author of 'Swimming to Antarctica', a memoir of her life as a swimmer. From the age of fourteen she has been breaking records for long-distance swimming, culminating in a mile-long swim in Antarctica, in zero degree-temperature water. When Lynne was 17, and on a training swim off the California mainland, she found herself swimming with a grey whale that had lost its mother. For the next seven hours, she swam with the whale - through pods of dolphin, and schools of sun-fish, between the pilings of a pier, and out to the base of an oil-rig, diving down as deeply as Lynne was able to, losing sight of the whale for minutes only to have it return and listen to its strange clicking and singing - in an increasingly desperate attempt to locate its mother. The whale was too young to survive by itself, and Lynne's account of the hours she spent swimming with it, and of the moment when they finally found its mother is remarkable. Heartwarming, beautifully-written, atmospheric and sparkling with descriptions of the ocean and the behavior of the magnificent creatures that live in it, 'The Day the Whale Came' is an unforgettable story of human resilience and natural wonder.

Moby Dick-Herman Melville 2022-02-01 Moby Dick is a novel by American writer Herman Melville. The work is an epic sea story of Captain Ahab's voyage in pursuit of Moby Dick, a great white whale. A contemporary commercial failure and out of print at the time of the author's death in 1891, its reputation rose during the twentieth century. D.H. Lawrence called it "the greatest book of the sea ever written." Jorge Luis Borges praised the style: "Unforgettable phrases abound." Today it is considered one of the Great American Novels and a leading work of American Romanticism. The opening line, "Call me Ishmael," is one of the most recognizable opening lines in Western literature. Ishmael then narrates the voyage of the whaleship Pequod, commanded by Captain Ahab. Ahab has one purpose: revenge on Moby Dick, a ferocious, enigmatic white whale which on a previous voyage destroyed Ahab's ship and severed his leg at the knee. The detailed and realistic descriptions of whale hunting and the process of extracting whale oil, as well as life aboard ship among a culturally diverse crew, are mixed with exploration of class and social status, good and evil, and the existence of God. Melville uses a wide range of styles and literary devices ranging from lists and catalogs to Shakespearean stage directions, soliloquies, and asides.

Shiny agrees to be turned into a boy by the ocean's water spirit so he can visit the land and alert people to these dangers. He meets Alex, a young Coast Salish girl who learns from Shiny that the living spirit of water exists in everything--glaciers, rivers, oceans, rain, plants, and all living creatures. Together the two travel the earth, confronting the realities of a planet threatened by an uncertain future. Inspired by Shiny's hope, humor, and wisdom, Alex makes the promise to become a teacher for future generations. She realizes that the timeless Indigenous value of environmental stewardship is needed now more than ever and that we must all stand up on behalf of Mother Earth. Fathoms-Rebecca Giggs 2020-07-28 Winner of the 2020 Andrew Carnegie Medal for Excellence in Nonfiction * Finalist for the 2020 Kirkus Prize for Nonfiction * Finalist for the PEN/E.O. Wilson Literary Science Writing Award A "delving, haunted, and poetic debut" (The New York Times Book Review) about the awe-inspiring lives of whales, revealing what they can teach us about ourselves, our planet, and our relationship with other species. When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia, she began to wonder how the lives of whales reflect the condition of our oceans. Fathoms: The World in the Whale is "a work of bright and careful genius" (Robert Moor, New York Times bestselling author of On Trails), one that blends natural history, philosophy, and science to explore: How do whales experience ecological change? How has whale culture been both understood and changed by human technology? What can observing whales teach us about the complexity, splendor, and fragility of life on earth? In Fathoms, we learn about whales so rare they have never been named, whale songs that sweep across hemispheres in annual waves of popularity, and whales that have modified the chemical composition of our planet's atmosphere. We travel to Japan to board the ships that hunt whales and delve into the deepest seas to discover how plastic pollution pervades our earth's undersea environment. With the immediacy of Rachel Carson and the lush prose of Annie Dillard, Giggs gives us a "masterly" (The New Yorker) exploration of the natural world even as she addresses what it means to write about nature at a time of environmental crisis. With depth and clarity, she outlines the challenges we face as we attempt to understand the perspectives of other living beings, and our own place on an evolving planet. Evocative and inspiring, Fathoms "immediately earns its place in the pantheon of classics of the new golden age of environmental writing" (Literary Hub).

Billion Dollar Whale-Tom Wright 2018-09-18 Named a Best Book of 2018 by the Financial Times and Fortune, this "thrilling" (Bill Gates) New York Times bestseller exposes how a "modern Gatsby" swindled over \$5 billion with the aid of Goldman Sachs in "the heist of the century" (Axios). Now a #1 international bestseller, Billion Dollar Whale is "an epic tale of white-collar crime on a global scale" (Publishers Weekly), revealing how a young social climber from Malaysia pulled off one of the biggest heists in history. In 2009, a chubby, mild-mannered graduate of the University of Pennsylvania's Wharton School of Business named Jho Low set in motion a fraud of unprecedented gall and magnitude--one that would come to symbolize the next great threat to the global financial system. Over a decade, Low, with the aid of Goldman Sachs and others, siphoned billions of dollars from an investment fund--right under the nose of global financial industry watchdogs. Low used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like *The Wolf of Wall Street*. By early 2019, with his yacht and private jet reportedly seized by authorities and facing criminal charges in Malaysia and in the United States, Low had become an international fugitive, even as the U.S. Department of Justice continued its investigation. Billion Dollar Whale has joined the ranks of *Liar's Poker*, *Den of Thieves*, and *Bad Blood* as a classic harrowing parable of hubris and greed in the financial world.
