The Writings Of Carlos Fuentes

The Writings of Carlos Fuentes-Raymond Leslie Williams 2010-07-01 Smitten by the modernity of Cervantes and Borges at an early age, Carlos Fuentes has written extensively on the cultures of the Americas and elsewhere. His work includes over a dozen novels, among them The Death of Artemio Cruz, Christopher Unborn, The Old Gringo, and Terra Nostra, several volumes of short stories, numerous essays on literary, cultural, and political topics, and some theater. In this book, Raymond Leslie Williams traces the themes of history, culture, and identity in Fuentes' work, particularly in his complex, major novel Terra Nostra. He opens with a biography of Fuentes that links his works to his intellectual life. The heart of the study is Williams' extensive reading of the novel Terra Nostra, in which Fuentes explores the presence of Spanish culture and history in Latin America. Williams concludes with a look at how Fuentes' other fiction relates to Terra Nostra, including Fuentes' own division of his work into fourteen cycles that he calls "La Edad del Tiempo," and with an interview in which Fuentes discusses his concept of this cyclical division.

Myself with Others-Carlos Fuentes 1988 In "Myself with Others," Fuentes has assembled essays reflecting three of the great elements of his work: autobiography, love of literature, and politics. They include his reflections on his beginning as a writer, his celebrated Harvard University commencement address, and his trenchant examinations of Cervantes, Gabriel Garcia Marquez, and Borges.

The Writings of Carlos Fuentes-Raymond L. Williams 1996 Smitten by the modernity of Cervantes and Borges at an early age, Carlos Fuentes has written extensively on the cultures of the Americas and on those elsewhere in the world. His work includes over a dozen novels, among them the Death of Artemio Cruz, Christopher Unborn, The Old Gringo, and Terra Nostra, several volumes of short stories, numerous essays on literary, cultural, and political topics, and some theater. In this book, Raymond Leslie Williams traces the themes of history, culture, and identity in Fuentes' work, particularly in his complex, major novel Terra Nostra. He opens with a biography of Fuentes that links his works to his intellectual life, a life that has been centrally concerned with finding and defining the source and character of Latin American culture. The heart of the study is Williams' extensive reading of the novel Terra Nostra, in which Fuentes explores the presence of Spanish culture and history in Latin America. Williams concludes with a look at how Fuentes' other fiction relates to Terra Nostra, including Fuentes' own division of his work into fourteen cycles that he calls "La Edad del Tiempo," and with an interview in which Fuentes discusses his concept of this cyclical division. Williams' analysis maps a terrain often left unexplored - the "Spanishness" of Latin American culture - and offers the most in-depth study currently available on Latin America's most prolific living novelist. It will be vital reading for all students of Latin American literature.

Carlos Fuentes-Robert Brody 2014-02-19 Carlos Fuentes is a master of modern world literature. With the translation of his major works into English and other languages, his reputation has surpassed the boundaries of his native Mexico and of Hispanic literature and has become international. Now each new novel stimulates popular and scholarly reviews in periodicals from Mexico City and Buenos Aires to Paris and New York. Carlos Fuentes: A Critical View is the first full-scale examination in English of this major writer's work. The range and diversity of this critical view are remarkable and reflect similar characteristics in the creative work of Carlos Fuentes, a man of formidable intellectual energy and curiosity. The whole of Fuentes' work is encompassed by Luis Leal as he explores history and myth in the writer's narrative. Insightful new views of single works are provided by other well-known scholars, such as Roberto González Echevarría, writing on
Fuentes' extraordinary Terra Nostra, and Margaret Sayers Peden, exploring Distant Relations, for which she served as authorized translator. Here too are fresh approaches to Fuentes' other novels, among them Where the Air Is Clear, Aura, and The Hydra Head, as well as an examination by John Brushwood of the writer's short fiction and a look by Merlin Forster at Fuentes the playwright. Lanin Gyurko reaches outside Fuentes' canon for his fascinating study of the influence of Orson Welles' Citizen Kane on The Death of Artemio Cruz. Manuel Durán and George Wing consider Fuentes in his role as critic of both literature and art. Carlos Fuentes: A Critical View has been prepared with the writer's many English-speaking readers in mind. Quotations are most frequently from standard, readily available English translations of Fuentes' works. A valuable chronology of the writer's life rounds off the volume.

Happy Families-Carlos Fuentes 2012-08-16 A choral novel on the hopes, disillusionments and betrayals of family life in Mexico. A rich Catholic rancher wants his four sons to become priests, while the boys themselves have other plans; a bereaved mother explains her daughter's life to the man who killed her; three daughters meet up around their father's coffin for the first time in ten years; a middle-aged couple meet by chance on a cruise-ship and wonder if they were once young lovers. The result is a picture of contemporary Mexico seen through a violently fragmented narrative, not unlike the internationally successful film Amores Perros. The stories are punctuated by a chorus, commenting as if in a Greek tragedy, crudely and unsentimentally on the underbelly of modern Mexican life, offering a raw but richly textured glimpse of the inequalities of that society - street children, junkies, dead rock icons, the ideal wife, a honeymoon gone wrong, a child suicide, a man faking his death and beginning a new life - that throw the middle-class dramas of the linked stories into harsh relief. Happy Families is a dramatic polyphony of the many conflicting strands of Latin America and the modern urban world.

A Change of Skin-Carlos Fuentes 2013-05-14 First published in 1968, Carlos Fuentes's controversial novel A Change of Skin tells the story of four persons who drive from Mexico City to Veracruz one Palm Sunday. The Driver of the car is Franz, an ex-Nazi, and with him is his young Mexican lover Isabel, the talented but failed poet Javier, and his embittered wife, Elizabeth. There is a fifth person as well--the Narrator. Through him we discover that all the characters are searching for some real value in their lives: love for Elizabeth, creating in the case of Javier, experience for Isabel, and redemption for Franz.

The Death of Artemio Cruz-Carlos Fuentes 2013-05-14 As the novel opens, Artemio Cruz, the all-powerful newspaper magnate and land baron, lies confined to his bed and, in dreamlike flashes, recalls the pivotal episodes of his life. Carlos Fuentes manipulates the ensuing kaleidoscope of images with dazzling inventiveness, layering memory upon memory, from Cruz's heroic campaigns during the Mexican Revolution, through his relentless climb from poverty to wealth, to his uneasy death. Perhaps Fuentes's masterpiece, The Death of Artemio Cruz is a haunting voyage into the soul of modern Mexico.

Where the Air is Clear-Carlos Fuentes 2004 Where the Air Is Clear, Carlos Fuentes's first novel, is an unsparing portrayal of Mexico City's upper class. Departing from a traditional linear narrative, Fuentes overlays Mexican myths onto contemporary settings, showing that even the rich and powerful must succumb to the indomitable spirit of Mexico, which undermines all institutions and shapes all destinies. First published by Farrar, Straus and Giroux in 1988, Dalkey Archive Press in 2004, now available again.

After the Nation-Pedro García-Caro 2014-07-07 After the Nation proposes a series of groundbreaking new approaches to novels, essays, and short stories by Carlos Fuentes and Thomas Pynchon within the framework of a hemispheric American studies. García-Caro offers a pioneering comparativist approach to the contemporary American and Mexican literary canons and their underlying nationalist encodement through the study of a wide range of texts by Pynchon and Fuentes which question and historicize in different ways the processes of national definition and myth-making deployed in the drawing of literary borders. After the Nation looks at these literary narratives as postnational satires that aim to unravel and denounce the combined hegemonic processes of modernity and nationalism while they start to contemplate the ensuing postnational constellations. These are texts that playfully challenge the temporal and spatial designs of national themes while they point to and debase “holy” borders, international borders as well as the internal lines where narratives of nation are embodied and consecrated.

The Old Gringo-Carlos Fuentes 1987 One of Carlos Fuentes's greatest works, "The Old Gringo" tells the story of Ambrose Bierce, the American writer, soldier, and journalist, and of his last mysterious days in Mexico living among Pancho Villa’s soldiers, particularly his encounter with General Tomas Arroyo. In the end, the incompatibility of the two countries (or, paradoxically, their intimacy) claims both men, in a novel that is, most of all, about the tragic history of two cultures in conflict.

Great Latin American Novel-Carlos Fuentes 2016-02-02 One of the late Carlos Fuentes's final projects, this compendium of his criticism traces the evolution of the Latin American novel from the discovery of America to the present day. Combining historical perspective with personal and often opinionated interpretation, Fuentes gives us a tour from Machado de Assis to Borges and beyond. A landmark analysis, as well as a scintillating and often wry commentary on a great author's peers and influences, this book is as much a contribution to Latin American literature as it is a chronicle of that literature's greatest achievements.

The Reptant Eagle-Roberto Cantú 2015-01-12 Carlos Fuentes (1928–2012) was the most prominent novelist in contemporary Mexico and, until his recent death, one of the leading voices in Latin America’s Boom generation. He received the most prestigious awards and prizes in the world, including the Latin Civilization Award (presented by the Presidents of Brazil, Mexico, and France), the Miguel de Cervantes Prize, and the Prince of Asturias Award. During his fecund and accomplished life as a writer, literary theorist, and political analyst, Fuentes turned his attention to the major conflicts of the twentieth century – from the Second World War and the Cuban Revolution, to the Soviet invasion of Czechoslovakia, the war in Vietnam, and the post-revolutionary crisis of the one-party rule in Mexico – and attended to their political and international importance in his novels, short fiction, and essays. Known for his experimentation in narrative techniques, and for novels and essays written in a global range that illuminate the conflicts of our times, Fuentes’s writings have been rightfully translated into most of the world’s languages. His literary work continues to spur and provoke the interest of a global readership on diverse civilizations and eras, from Imperial Spain and post-revolutionary France, to Ancient and Modern Mexico, the United States, and Latin America. The Reptant Eagle: Essays on Carlos Fuentes and the Art of the Novel includes nineteen essays and
one full introduction written exclusively for this volume by renowned Fuentes scholars from Asia, Europe, the United States, and Latin America. Collected into five parts, the essays integrate wide-ranging methods and innovative readings of The Death of Artemio Cruz (1962), Aura (1962), Terra Nostra (1975) and, among other novels, Distant Relations (1980); they analyze the visual arts in Fuentes’s novels (Diego Rivera’s murals and world film); chart and comment on the translations of Fuentes’s narratives into Japanese and Romanian; and propose comprehensive readings of The Buried Mirror (1992) and Personas (2012), Fuentes’s posthumous book of essays. Beyond their comprehensive and interdisciplinary scope, the book’s essays trace Fuentes’s conscious resolve to contribute to the art of the novel and to its uninterrupted tradition, from Cervantes and Rabelais to Thomas Mann and Alejo Carpentier, and from the Boom generation to Latin America’s “Boomerang” group of younger writers. This book will be of importance to literary critics, teachers, students, and readers interested in Carlos Fuentes’s world-embracing literary work.

Postcolonial Concepts of Hybridity and Identity in Carlos Fuentes' Aura-Antonia Lilie 2013-08
Seminar paper from the year 2011 in the subject Romance Languages - Latin American Studies, grade: 1,3, University of Toronto, language: English, abstract: In her essay "Postcolonialism and Latin American literature: the case of Carlos Fuentes" Nadia Lie describes two different currents of Postcolonialism: the first one is the literature that grew out of colonial experience in Latin America and is considered an answer to the over present literature of the oppressing European literary traditions. The second one is characterized by a set of theoretical concerns and reading strategies. Rather than merely “writing back,” a term introduced by Bill Ashcroft, Gareth Griffiths and Helen Tiffin, this approach suggests that cultural differences are constructed by replacing the strong binary opposition "us" versus "the other" with concepts of hybridity, in-betweenness and border thinking (see Lie 2005: 139-140). The early work of Mexican author Carlos Fuentes (*1928) can be seen in an intermediate position between these two concepts. Even though the theme of otherness and opposition is very present in his work, as can be seen in La frontera de cristal (1995) and his early novel Aura (1962), his writing is full of intertextual references that show his appreciation for both European and Latin American literary tradition. As part of the "Boom" movement in Latin American literature he also uses supernatural and gothic elements that sometimes make it hard or even impossible to distinguish between reality and illusion: According to this aesthetic, unreal things are treated as if realistic and mundane, and mundane things as if unreal. Plots, while often based on real experiences, incorporate strange, fantastic, and legendary elements, mythical peoples, speculative settings, and characters who, while plausible, could also be unreal, and combine the true, the imaginary, and the nonexistent in such a way that they are difficult to separate. (Pope 1996: 229) Fuentes' novel Aura is an

Carlos Fuentes, Mexico and Modernity-Maarten Van Delden 1998 In Carlos Fuentes, Mexico, and
Modernity, Maarten van Delden argues that there is a fundamental paradox at the heart of Fuentes's vision of Mexico and in his role as novelist and critic in putting forth that vision. This paradox hinges on the tension between national identity and modernity. A significant internal conflict emerges in Fuentes's work from his attempt to stake out two different positions for himself, as experimental novelist and as politically engaged and responsible intellectual. Drawing from the fiction, literary essays, and political journalism, van Delden places these tensions in Fuentes's work in relation to the larger debates about modernity and postmodernity in Latin America. He concludes that Fuentes is fundamentally a modernist writer, in spite of the fact that he occasionally gravitates toward the postmodernist position in literature and politics. Van Delden's thorough command of the subject matter, his innovative and sometimes iconoclastic conclusions, and his clear and engaging writing style make this study more than just an interpretation of Fuentes's work. Carlos Fuentes, Mexico, and Modernity offers nothing less than a comprehensive analysis of Fuentes's work. Carlos Fuentes, Mexico, and Modernity offers nothing less than a comprehensive analysis of Fuentes's intellectual development in the context of modern Mexican political and cultural life.
