The New Yoder-Peter Dula 2010-01-01 The work of John Howard Yoder has become increasingly influential in recent years. Moreover, it is gaining influence in some surprising places. No longer restricted to the world of theological ethicists and Mennonites, Yoder has been discovered as a refreshing voice by scholars working in many other fields. For thirty-five years, Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr. But in the last decade, there has been a clearly identifiable shift in direction. A new generation of scholars has begun reading Yoder alongside figures most often associated with post-structuralism, neo-Nietzscheanism, and post-colonialism, resulting in original and productive new readings of his work. At the same time, scholars from outside of theology and ethics departments, indeed outside of Christianity itself, like Romand Coles and Daniel Boyarin, have discovered in Yoder a significant conversation partner for their own work. This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work.

Engaged Observers-Brett Abbott 2010 Nothing will ever mystify or challenge the Wonder. He masters entire libraries and languages with little effort. No equation, no problem is too difficult to solve. His casual conversations with ministers and philosophers decimate their vaunted beliefs and crush their cherished intellectual ambitions. The Wonder compels obedience and silence with a glance. His mother idolizes him as a god. Yet no one is more hated or alone than the Wonder. This is the chilling tale of Victor Stott, an English boy born thousands of years ahead of his time. Raised in the village of Hampdenshire, the strangely proportioned young Victor possesses mental abilities vastly superior to those of his fellow villagers. The incomprehensible intellect and powers of the Wonder inspire awe, provoke horror, and eventually threaten to rip apart Hampdenshire. Long recognized as a classic of speculative fiction but never before widely available, The Wonder is one of the first novels about a "superman." J. D. Beresford's subtle and intriguing story of a boy with superhuman abilities paved the way for such noted works as Philip Wylie's Gladiator and A. E. van Vogt's Slan

A Mind Patient and Untamed-Ben C. Ollenburger 2004 This book assesses the work of John Howard Yoder, author of The Politics of Jesus and other noted writings within which he engaged in principled, patient, nonfoundationalist, and unsystematic conversation with the Bible, his Anabaptist tradition, and such thinkers as Niebuhrs and Hauerwas. The book also places Yoder in new discussions, such as with Derrida and Said--and extends the conversation to the 16 insightful Yoder scholars writing in this volume. All of the chapters acknowledge the profound and controversial contribution Yoder has made to Christian ethics and theology.

The Mennonites-Larry Towell 2000-11-15 Originating in Europe in the sixteenth century, the Mennonites are a Protestant religious sect, related to the Amish. Rather than compromise their way of life they have continually been forced to migrate around the world to maintain their freedom to live as they choose. The greatest number of them are now to be found in Mexico, and many also live or regularly migrate to work in rural Canada. Magnum photographer Larry Towell first encountered the Mennonites near his home in Ontario, Canada, and his friendship with them has gained him unique access to their communities. He has been photographing Mennonites in Canada and Mexico for over ten years, creating a unique and intimate portrait of their way of life. In addition, Towell's own fascinating text tells us in poignant and descriptive detail of his experiences. With an artist's eye he paints a picture of their lives: the harshness and poverty of their rural existence, the disciplines and contradictions of their religion, their hunger for land and for work, and the constant struggle to keep the modern world at bay.
The Visual Arts in Canada-Brian Foss 2010 This book charts the developments in Canadian art from the late nineteenth century to the present with new essays by the country's leading art historians. A comprehensive overview, this volume embraces painting, sculpture, photography, design, video, and conceptual and cross-disciplinary art, as well as studies of art institutions and historiography. Each chapter explores the richness and diversity of Canadian art; topics range from impressionist painting to the multimedia work of First Nations artists, and from the Group of Seven to contemporary video production. Newly commissioned, carefully edited, and with 185 full-colour illustrations, The Visual Arts in Canada will appeal to general readers and students alike. An extensive index, as well as an appendix that list galleries and artist-run centres across the country, make this the definitive resource for Canadian art from the past century. Throughout the twenty chapters, readers will recognize favourite artists and encounter

Magnum Degrees is a selection of agency photos that illustrates the range of subject matter and imagery the photographers have captured over the
last half century. The book, which overflows with photographs and includes only the briefest amount of text, is arranged thematically to effectively highlight the wide scope of images even within a narrow field. In "Middle East," Larry Towell captures boys playing in Gaza, while Micha Bar-Am trains his camera on a Jewish man, wrapped in a prayer shawl, fleeing a smoke bomb in Jerusalem. In "India," in the town of Benares, Ferdinando Scianna snaps photos of an excruciatingly thin man carrying his dead daughter and two nicely dressed young girls frolicking in the water. In "Religion," photographer Abbas trains his lens both on a man reenacting the Crucifixion in the Philippines and a woman being physically moved by the Holy Spirit in a rural Georgia church. As some of the themes--"Refugees," "Child Victims," "In the Camps," "War in Africa"--suggest, many of the images here are powerfully disturbing. Others, particularly those collected under the headings "Trees," "Fishing," and "Architecture," are lyrically beautiful. Still others, like Martin Parr's photographs of tourists on vacation the world over, are witty and comic. Taken together, the thousand or so photos here capture the often surprising, always complex nature of humanity and do justice to the agency founders' original intention to "document the world as it really is." --Jordana Moskowitz
