Underwood 2019-04-09 In (Re)using Ruins, Douglas Underwood presents the history of Roman urban public monuments in the Late Antique West, demonstrating that their vibrant, yet variable, development was closely tied to significant shifts in urban ideologies and energetic patterns.
Under Crescent and Cross-Mark R. Cohen 2008-08-24 Did Muslims and Jews in the Middle Ages cohabit in a peaceful “interfaith utopia”? Or were Jews under Muslim rule persecuted, much as they were in Christian lands? Rejecting both polemically charged ideas as myths, Mark Cohen offers a systematic comparison of Jewish life in medieval Islam and Christendom—and the first in-depth explanation of why medieval Islamic-Jewish relations, though not utopic, were less confrontational and violent than those between Christians and Jews in the West. Under Crescent and Cross has been translated into Turkish, Hebrew, German, Arabic, French, and Spanish, and its historic message continues to be relevant across continents and time. This updated edition, which contains an important new introduction and afterword by the author, serves as a great companion to the original.
The Frankish World, 750-900-Janet L. Nelson 1996 In these essays Carolingian government is explored through the workings of courts and assemblies; through administrative texts; through contemporaries’ historical writing; through the rituals, looking back to Roman times and reflecting the long continuity of administration in the areas constituting Francia that supplemented and reinforced social and political solidarities; and through the ideological and material dilemmas confronted by ninth-century churchmen: the material wealth of the church, a necessary precondition to its influence, attracted a variety of private interests that inhibited its ability to perform its public duty. Janet Nelson extends her perspective to include the settlement of disputes, often without recourse to courts or to conflict, and the application of law. An introduction sets Francia in context and outlines its main features. More recent work on gender history is represented here by studies of the political, intellectual and religious activities of women in the Frankish world. Although circumscribed, the activities of women acting on their own will can be clearly detected. While the male authorship of nearly all early medieval texts has usually been taken for granted, Janet Nelson makes a case for the possibility that a number were written by women.
Readings in Medieval History-Patrick J. Geary 2010-01-01 "Geary’s careful and wise selection of texts in his reader provides the best balance between range and depth necessary for a successful source book."
A Legal History of Rome-George Mousourakis 2007-08-07 This book equips both lawyer and historian with a complete history of Roman law, from its beginnings c.1000 BC through to its re-discovery in Europe where it was widely applied until the eighteenth century. Combining a law specialist’s informed perspective of legal history with a socio-political and cultural focus, it examines the sources of law, the ways in which these laws were applied and enforced, and the ways the law was influenced and progressed, with an exploration of civil and criminal procedures and special attention paid to legal science. The final chapter covers the history of Roman law in late antiquity and appraises the move towards the codification of law that culminated in the final statement of Roman law: the Corpus Iuris Civilis of Emperor Justinian. Throughout the book, George Mousourakis highlights
the relationship between Roman law and Roman life by following the lines of the major historical developments. Including bibliographic references and organized accessibly by historical era, this book is an excellent introduction to the history of Roman law for students of both law and ancient history.

This much-anticipated fifth edition features a larger format, as well as enlarged type, to make the collection more reader-friendly. Study questions have been added at the end of each section to help students focus on key points in the text. Volume I includes a new selection from
the Rule of St. Benedict and a new translation of Einhard's The Life of Charlemagne, as well as a color photo section introducing students to fascinating medieval art such as a seventh-century stone from Hornhausen, a shirt that belonged to Queen Bathild, and a page from the St. Petersburg Bede.

The Codex of Justinian 3 Volume Hardback Set: A New Annotated Translation, with Parallel Latin and Greek Text-Bruce W. Frier 2016 "The Codex of Justinian is, together with the Digest, the core of the great Byzantine compilation of Roman law called the Corpus Iuris Civilis. The Codex gathers legal proclamations issued by Roman Emperors from the second to the sixth centuries C.E. Its influence on subsequent legal development in the Medieval and Early Modern world has been almost incalculable. But the Codex has not, until now, been credibly translated into English. This translation, with a facing Latin and Greek text (from Paul Kruger's ninth edition of the Codex), is based on one made by Justice Fred Blume in the 1920s, but left unpublished for almost a century. It is accompanied by introductions explaining the background of the translation, a bibliography and glossary, and notes that help in understanding the text. Anyone with an interest in the Codex, whether an interested novice or a professional historian, will find ample assistance here"--

Empire of the Romans-John Matthews 2021-02-01 Offers a broad range of texts spanning six centuries of imperial Roman history—Volume II of Empire of the Romans, from Julius Caesar to Justinian Empire of the Romans: From Julius Caesar to Justinian: Six Hundred Years of Peace and War, Volume II: Select Anthology is a compendium of texts that trace the main historical changes of the empire over six hundred years, from the death of Julius Caesar to the late Middle Ages. The second volume of Empire of the Romans, from Julius Caesar to Justinian, this anthology balances literary texts with other documentary, legal, and epigraphic sources. Acclaimed author John Matthews presents texts that reflect individual, first-person experiences rather than those from historians outside of the time periods of which they write. Each selection includes an introduction, annotations on points of interest, author commentary, and suggestions for further reading. Excerpts are organized thematically to help readers understand their meaning without requiring an extensive knowledge of context. Six sections—running in parallel to the structure and content to Volume I—explore the topics such as the building of the empire, Pax Romana, the new empire of Diocletian and Constantine, and barbarian invasions and the fall of the Western Empire. Selected texts span a wide array of subjects ranging from political discourse and Roman law, to firsthand accounts of battle and military service, to the civic life and entertainment of ordinary citizens. This volume: Covers a vast chronological and topical range Includes introductory essays to each selected text to explain key points, present problems of interpretation, and guides readers to further literature Balances the different categories and languages of original texts Enables easy cross-reference to Volume I Minimizes the use of technical language in favor of plain-English forms Whether used as a freestanding work or as a complement to Volume I, the Select Anthology is an ideal resource for students in Roman history survey courses as well as interested general readers seeking a wide-ranging collection of readings on the subject.

Early Medieval World, The: From the Fall of Rome to the Time of Charlemagne-Michael Frassetto 2013-03-14 This book examines a pivotal period in ancient human history: the fall of the Roman Empire and the birth of a new European civilization in the early Middle Ages.
