This expanded third edition of a popular textbook provides a completely revised and updated overview of the theories, models, and therapies that inform direct social work practice. The text is grounded in generalist social work principles and values and promotes a problem-solving model of social work practice as a framework for the eclectic use of theory, as well as for integrating the artistic, reflective elements of practice. It provides in-depth coverage of select psychodynamic, cognitive-behavioral, humanistic, critical, and postmodern theories. The third edition features a new section on Critical Theories, where a new chapter on Empowerment Theory is included with a completely revised chapter on Feminist Theory. A new chapter on Strengths-based Social Work has been added to the section on meta-theories for social work practice. Other new chapters include Emotion-focused Therapy and Collaborative Therapy. These revisions are based on suggestions from an extensive survey of professors. New to the Third Edition: • A new section on Critical Theories • New chapters on Strengths-based Social Work, Emotion-focused Therapy, Empowerment Theory, and Collaborative Therapy • Updated research on the debate about the importance of theory/technique versus common (e.g., relationship) factors, and on the critique of the empirically supported treatment movement Key Features: • Grounds direct practice firmly in the principles and values of generalist social work • Promotes a problem-solving model of social work as a flexible structure for integrating the eclectic use of theory with the artistic, reflective elements of practice • Organizes direct practice theories into like groupings and provides an overview of the main characteristics of each grouping • Provides in-depth coverage of topics in a clear, logical, and consistent format • Includes editors and contributors from the U.S. and Canada

Direct Social Work Practice - Dean H. Hepworth 2002 This text prepares social work students for effective work in the field through proven learning experiences that are as close to real-life practice as they can get from a textbook. The book has long been praised for the rigor of its theory. It is regarded as the classic and best source for helping students learn direct social work practice skills. The book integrates the major theories and skills that direct social work practitioners need to understand and master. Consisting of four parts, the book begins by identifying the mission of social work, its values, and knowledge base. The authors then differentiate generalist from direct practice.
and explore roles of direct practitioners. Common elements amongst diverse theorists are then examined while key intervention strategies and various client population and practice settings are presented. Specifically, Part One provides the foundational/values and knowledge base material; Part Two is devoted to the beginning phase of the helping process; Part Three addresses the middle phase (goal attainment strategies); and Part Four clarifies the termination phase of direct practice.

Understanding Industrial Organisations-Richard K. Brown 1992 Outlines four organisational forms - systems thinking, contingency theory, the action approach and labour process theories - and evaluates their strengths and weaknesses.

Direct Social Work Practice-Mary C. Ruffolo 2015-02-17 A foundational text for students learning to work with individuals, families and communities, this book covers the basic skills of engagement, assessment, intervention and reflective practice. Through the use of reality-based case examples and sample dialogue, the authors help students apply theory to practice and develop their essential reflective and critical thinking skills.

Social Work Theories in Action-Kieran O’Donoghue 2005-02-15 This wide-ranging collection of essays offers valuable insights into the cultural issues involved in the practical application of social work theories. Leading contributors explore the challenges faced by indigenous populations and ethnic minority groups, examining how they can gain control over their position as minority populations, and offering valuable guidance on cross-cultural work. The direct implementation of four established theoretical approaches - ecological systems, community development, strengths-based approaches and attachment theories - is shown in a variety of contexts, including mental health care, trauma counselling and child protection. Using community development work in Australia and New Zealand as a case study, the contributors also advocate using these approaches in work with migrants and refugees. Social Work Theories in Action recognizes the importance of drawing on the strengths of families, individuals and communities and offers theoretical perspectives that can be applied in everyday work situations. It is essential reading for social and community workers, mental health professionals and social work students.

New Routes to Human Services-Risha W. Levinson 2002 "A state of the art compendium of the I&R of the new millennium. Emphasizing technology, it also addresses operational issues, staffing, training, standards, organizational contexts of operation, and the proliferation of I&R services over time and geography..." --Susan Sarnoff, DSW, Assistant Professor and Graduate Chair, Ohio University Department of Social Work "This book updates the vast social, demographic, political and organizational patterns in the web of human services. From the organizational structure of this book, it should have utility and appeal across a fairly broad array of professionals--certainly I&R providers, but as importantly for human service planners and evaluators, and policy makers." --Karen S. Haynes, PhD, President, University of Houston-Victoria "Levinson is one of the founding mothers of the Alliance of Information and Referral Systems...through this new book, she continues to lend her depth of knowledge toward the advancement of the field." --Leta K. Weintraub, President, New York State Alliance for Information Referral Systems
