Ten Things Every Child with Autism Wishes You Knew-Ellen Notbohm 2005 Every parent, teacher, social worker, therapist, and physician should have this succinct and informative book in their back pocket. Framed with both humor and compassion, the book defines the top ten characteristics that illumine the minds and hearts of children with autism.

Ten Things Your Student with Autism Wishes You Knew-Ellen Notbohm 2006 The author's first book, Ten Things Every Child with Autism Wishes You Knew, was a shot heard throughout the worldwide autism community, branded by readers as "required reading for all social service workers, teachers and relatives of children with autism." Now, for the teacher in all of us comes this second work. The unique perspective of a child's voice is back to help us understand the thinking patterns that guide their actions, shape an environment conducive to their learning style, and communicate with them in meaningful ways. This book affirms that autism imposes no inherent upper limits on achievement, that both teacher and child "can do it." It is the game plan every educator, parent, or family member needs to make the most of every "teaching moment" in the life of these children we love. -- From publisher.

The NCAA Tournament is an American institution. For a month in March, college basketball expands far beyond the hard-court into living rooms and offices, while cultivating the spirit of sport and bringing out the competitive nature in men and women from all walks of life and with all types of hoops IQ. This "personal coach in a pocket" is exactly that—a one-stop shop for college basketball experts and enthusiasts as well as bracket novices filling out their Sweet Sixteen as a bonding ritual with friends and family. Through 99 practical points—some based on seasonal trends and coaching records and others based on the deciding factors novices use in picking winners like favorite colors, best-looking coeds and best mascots—this book offers something for every NCAA Tournament participant. The NCAA Tournament is about Roy Williams' record in games decided by five points or less. It is also about which high school a certain player went to or how much an individual liked a certain school's sorority party. As much as experts cringe, there is no flawless system to the perfect bracket pool. The 99 Series offers the best combination of analysis and anecdotes, success stories and satire to paint the portrait of a sports institution helping men and women of all levels fill out their own perfect bracket pool. So when you're up at midnight with work just six hours away and Texas—the team you have winning the national title—can't seem to put away a small school from central Wisconsin, you will be prepared for March's complete Madness.

On a whim one morning, she decided to make sure that every student in her class had the opportunity to be known and understood. What followed was something she never could have predicted, and it absolutely transformed the culture of her classroom. With her students' permission, she is now giving voice to the honest beauty of their work in hopes that others will be just as inspired to love their neighbor with the reckless abandon required to heal a community one life at a time.
