Thirty Years War Facts Summary History

The Thirty Years War: Peter Hamish Wilson 2011 Argues that religion was not the catalyst to the Thirty Years War, but one element in a mix of political, social, and dynastic forces that fed the conflict that ultimately transformed the map of the modern world.

The Thirty Years War: C. V. Wedgwood 2016-09-13 Europe in 1618 was riven between Protestants and Catholics, Bourbon and Hapsburg—as well as empires, kingdoms, and countless principalities. After angry Protestants tossed three representatives of the Holy Roman Empire out the window of the royal castle in Prague, world war spread from Bohemia with relentless abandon, drawing powers from Spain to Sweden into a nightmarish world of famine, disease, and seemingly unstoppable destruction.

The Thirty Years War: 2009-03-15 The Thirty Years War: A Documentary History fills a gap in recent studies of the great pan-European conflict, providing fresh translations of thirty-eight primary documents for the student and general reader. The selections are drawn from the standard political documents, from the Apology of the Bohemian Estates for the Defenestration of Prague to the text of the Treaty of Westphalia, as well as from imperial edicts, trial records, letters, diary entries, and satirical broadsheets, all directly translated from the Early New High German, French, Swedish, and Latin. The volume contains some ten illustrations and one map . . . and on the whole is well organized and well presented with a judicious amount of footnotes and a slim For Further Reading section. A succinct introduction introduces the four sections, each with its own substantial introduction: (1) Outbreak of the Thirty Years War (1618-1623), (2) The Intervention of Denmark and Sweden (1623-1635), and (3) The Long War (1635-1648). The concluding section (4) Two Wartime Lives (1618-1648), interestingly juxtaposes the journals of a wandering mercenary and a settled townsman. The first is the diary of Peter Hagendorf, kept between the years 1624 and 1649 and only rediscovered in 1993. Hagendorf experienced the war as a common mercenary from the Baltic to Italy, from France to Pomerania. His counterpart is Hans Heberle, a shoemaker from a small town in the territory of the free imperial city of Ulm whose Zeytregister chronicled happenings both in the neighborhood and further afield. The engrossing accounts of their shifting fortunes over the three decades of the war really help to give this collection of texts, and the troublesome period itself, a human face. They are the stuff from which Grimmelshausen would craft his great novel of the war, The Adventuresome Simplicissimus (1668). Tryntje Helfferich is to be applauded for this consistently interesting and eminently useful volume. --Martin W. Walsh, University of Michigan, in Sixteenth Century Journal

The Ashgate Research Companion to the Thirty Years' War: Olaf Asbach 2016-03-23 The Thirty Years' War (1618-1648) remains a puzzling and complex subject for students and scholars alike. This is hardly surprising since it is often contested among historians whether it is actually appropriate to speak of a single war or a series of conflicts. Similarly emphasis is also put on the different motives for going to war, as conflicting religious and political interests were involved. This research companion brings together leading scholars in the field to synthesize the range of existing research on the war, which is still fragmented and divided along national historical lines, and to further explore the complexities of the conflict using an innovative comparative approach. The companion is designed to provide scholars and graduate students with a comprehensive and authoritative overview of research on one of the most destructive conflicts in European history.

Coping with Life during the Thirty Years' War (1618-1648): Sigrun Haude 2021-08-30 In Coping with Life during the Thirty Years’ War (1618-1648), Sigrun Haude explores how people tried to survive the Thirty Years’ War, on what resources they drew, and how they attempted to make sense of it. The Reader's Companion to Military History Pa- THE READER'S COMPANION TO MILITARY HISTORY is the first major reference work on military history to represent a global perspective. More than 150 distinguished military historians, biographers, and journalists contributed nearly 600 articles to this remarkable chronicle of warfare that combines compelling historical narrative with the latest in
contemporary scholarship. Here is essential information on major events and battles, commanders, weaponry and technology, and strategy and tactics. Other topics include courage, discipline, the effects of weather on warfare, military justice, the role of propaganda, the evolution of uniforms, psychological warfare, and morale. Filled with surprising anecdotes and little-known facts, THE READER'S COMPANION TO MILITARY HISTORY

The History of the Thirty Years' War-Friedrich Schiller 1828
The Thirty Years' War 1618-1648-Richard Bonney 2014-06-06 More than three and a half centuries have passed since the Peace of Westphalia ended the Thirty Years' War (1618-48); but this most devastating of wars in the early modern period continues to capture the imagination of readers: this book reveals why. It was one of the first wars where contemporaries stressed the importance of atrocities, the horrors of the fighting and also the sufferers of the civilian population. The Thirty Years' War remains a conflict of key importance in the history of the development of warfare and the 'military revolution'.

The History of the Seven Years War-Frederick II (King of Prussia) 1789
Scotland and the Thirty Years War-Steve Murdoch 2001 This volume deals with the entanglement of Scotland in the Thirty Years War (1618-1648), discussing the diplomatic and military aspects of the conflict that were interwoven with the fate of the Scottish princess, Elizabeth of Bohemia, the famous Winter Queen.

Europe's Tragedy-Peter H. Wilson 2010 A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. In a major reassessment, Wilson argues that religion was not the catalyst, but one element in a lethal stew of political, social, and dynastic forces that fed the conflict—a conflict that ultimately transformed the map of the modern world.

The Hundred Years' War-Anne Curry 2014-06-06 There can be no doubt that military conflict between France and England dominated European history in the fourteenth and fifteenth centuries. This war is of considerable interest both because of its duration and the number of theatres in which it was fought. In this book, Hundred Years' War expert Dr Anne Curry reveals how the war can reveal much about the changing nature of warfare: the rise of infantry and the demise of the knight; the impact of increased use of gunpowder and the effect of the wars on generations of people around it.

The Thirty Years' War-Samuel R. Gardiner 2012-08 A concise history of a cataclysmic European conflict in the 17th century The Thirty Years' War was fought between 1618-1648 and is widely recognised as being one of the most destructive wars ever fought. More people lost their lives in this conflict, as a percentage of the total population at the time, than in the conflicts of the twentieth century. Fought principally in central Europe and mostly over terrain now in modern day Germany, the war involved more than fifteen nation states. Forces were divided broadly on religious grounds, between Protestants and their allies and the Catholics of the Holy Roman Empire and Spain but also with elements of the Ottoman Turkish Empire. Self evidently this was a long, bloody conflict the causes of which were many and complex. Dynasties were born in its tumult, great men were brought to the fore and some, like Gustavus Adolphus of Sweden, would perish before its conclusion. The campaigns and battles of the Thirty Years' War have inspired historians across the centuries to the present day to write about them and many highly regarded works concerning the war have been published. This concise book takes a different approach; it sets out to give an understanding of the events and personalities involved and is an ideal overview for both specialists and those new to the subject. Leonaur editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket.

The Hero of Italy-Gregory Hanlon 2019-08-15 The Hero of Italy examines a salient episode in Italy's Thirty Years' War with Spain and France, whereby the young duke Odoardo Farnese of Parma embraced the French alliance, only to experience defeat and occupation after two tumultuous years (1635-1637). Gregory Hanlon stresses the narrative of events unfolding in northern Italy, examining the participation of the little state in these epic European events. The first chapter describes the
A chapter on the Parman professional army, based on an extraordinary collection of company rosters, sheds light on the identity of over 13,000 individuals, soldier by soldier, the origin and background of their officers, the conditions of their lodgings, and the good state of their equipment. Chapter three follows the first campaign of 1635 alongside French and Savoyard contingents at the failed siege of Valenza, and the logistical difficulties of organizing such large-scale operations. Another chapter examines the financial expedients the duchy adopted to fend off incursions on all its borders in 1636, and how militia contingents on both sides were drawn into the fighting. A final chapter relates the Spanish invasion and occupation which forced duke Odoardo to make a separate peace. The volume includes a detailed assessment of the impact of war on civilians based on parish registers for city and country. The application of the laws of war was largely nullified by widespread starvation, disease and routine sex-selective infanticide. These quantitative analyses, supported by maps and tables, are among the most detailed anywhere in Europe in the era of the Thirty Years' War.

Iron Kingdom—Christopher Clark 2007-09-06 'Of the "Great Powers" that dominated Europe from the eighteenth to the twentieth centuries, Prussia is the only one to have vanished ... Iron Kingdom is not just good: it is everything a history book ought to be ... The nemesis of Prussia has cast such a long shadow that German historians have tiptoed around the subject. Thus it was left to an Englishman to write what is surely the best history of Prussia in any language' Sunday Telegraph

The History of the Peloponnesian War—Thucydides 2021-03-31 Thucydides, an Athenian, wrote the history of the war between the Peloponnesians and the Athenians, beginning at the moment that it broke out, and believing that it would be a great war and more worthy of relation than any that had preceded it. This belief was not without its grounds. The preparations of both the combatants were in every department in the last state of perfection; and he could see the rest of the Hellenic race taking sides in the quarrel; those who delayed doing so at once having it in contemplation. Indeed this was the greatest movement yet known in history, not only of the Hellenes, but of a large part of the barbarian world-I had almost said of mankind. For though the events of remote antiquity, and even those that more immediately preceded the war, could not from lapse of time be clearly ascertained, yet the evidences which an inquiry carried as far back as was practicable leads me to trust, all point to the conclusion that there was nothing on a great scale, either in war or in other matters.

The Seven Years' War—Daniel Marston 2013-06-17 The closest thing to total war before the First World War, the Seven Years' War was fought in North America, Europe, the Caribbean and India with major consequences for all parties involved. This fascinating book is the first to truly review the grand strategies of the combatants and examine the differing styles of warfare used in the many campaigns. These methods ranged from the large-scale battles and sieges of the European front to the ambush and skirmish tactics used in the forests of North America. Daniel Marston's engaging narrative is supported by personal diaries, memoirs, and official reports.

Alexander Leslie and the Scottish Generals of the Thirty Years' War, 1618–1648—Alexia Grosjean 2015-10-06 Field Marshal Alexander Leslie was the highest ranking commander from the British Isles to serve in the Thirty Years’ War. Though Leslie’s life provides the thread that runs through this work, the authors use his story to explore the impacts of the Thirty Years’ War, the British Civil Wars and the age of Military Revolution.

Quotations from Chairman Mao Tse-tung—Mao 1990

The Later Thirty Years War—William P. Guthrie 2003 A detailed study of the military aspects of this important early modern conflict.

Eyewitness Accounts of the Thirty Years War 1618-48—G. Mortimer 2002-04-19 The Thirty Years War - the first great pan-European war, and until the twentieth century the most terrible - ravaged Germany, but myth, propaganda and historical controversy have obscured its true nature. Another perspective is provided by the private diaries, memoirs and chronicles of soldiers and citizens who recorded their own experiences. War at the individual level is discussed and described using these
sources, which are extensively quoted in their own words.
The Origins of the Thirty Years War and the Revolt in Bohemia, 1618-Geoff Mortimer 2014-01-14 As the 400th anniversary of the outbreak of the Thirty Years War approaches, Geoff Mortimer provides a timely re-assessment of its origins. These lie mainly neither in religious tensions in Germany nor in the conflicts between Spain, France and the Dutch, but in the revolt in Bohemia and the famous defenestration of Prague.
A Victorious Union-Oliver Optic 1893
The Hundred Years War-David Green 2014-01-01 What life was like for ordinary French and English people, embroiled in a devastating century-long conflict that changed their world The Hundred Years War (1337-1453) dominated life in England and France for well over a century. It became the defining feature of existence for generations. This sweeping book is the first to tell the human story of the longest military conflict in history. Historian David Green focuses on the ways the war affected different groups, among them knights, clerics, women, peasants, soldiers, peacemakers, and kings. He also explores how the long war altered governance in England and France and reshaped peoples' perceptions of themselves and of their national character. Using the events of the war as a narrative thread, Green illuminates the realities of battle and the conditions of those compelled to live in occupied territory; the roles played by clergy and their shifting loyalties to king and pope; and the influence of the war on developing notions of government, literacy, and education. Peopled with vivid and well-known characters--Henry V, Joan of Arc, Philippe the Good of Burgundy, Edward the Black Prince, John the Blind of Bohemia, and many others--as well as a host of ordinary individuals who were drawn into the struggle, this absorbing book reveals for the first time not only the Hundred Years War's impact on warfare, institutions, and nations, but also its true human cost.
French Armies of the Thirty Years' War-Stéphane Thion 2013-01-19 A comprehensive book on the French army of Louis XIII and Richelieu with ful accounts of battles of this period and order of battles.
All Quiet on the Western Front-Erich Maria Remarque 2013-09-03 Considered by many the greatest war novel of all time, All Quiet on the Western Front is Erich Maria Remarque’s masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. “The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure.”—The New York Times Book Review
The English People at War in the Age of Henry VIII-Steven Gunn 2018-01-04 War should be recognised as one of the defining features of life in the England of Henry VIII. Henry fought many wars throughout his reign, and this book explores how this came to dominate English culture and shape attitudes to the king and to national history, with people talking and reading about war, and spending money on weaponry and defence.
Experiencing the Thirty Years War-Hans Medick 2013-03-01 One of the most momentous and destructive wars in European history, the Thirty Years War has long been studied for its diplomatic, political, and military consequences. Yet the actual participants in this religiously motivated, seemingly endless conflict have largely been ignored. Hans Medick and Benjamin Marschke reveal the Thirty Years War from the perspective of those who lived it. Their introduction provides important insights into the roiling religious and political landscape from which the war emerged, as well as a thoughtful examination of the war's stages and enduring significance. An unprecedented collection of personal accounts, many of them translated for the first time into English, combine with visual sources to convey directly to students the experience of early modern warfare. Incisive document headnotes, maps and illustrations, a chronology, questions to consider, and a bibliography enrich students' understanding of this fateful war.

No Surrender-Hiroo Onoda 2013-12-04 In the spring of 1974, Second Lieutenant Hiroo Onoda of the Japanese army made world headlines when he emerged from the Philippine jungle after a thirty-year ordeal. Hunted in turn by American troops, the Philippine police, hostile islanders, and successive Japanese search parties, Onoda had skillfully outmaneuvered all his pursuers, convinced that World War II was still being fought and that one day his fellow soldiers would return victorious. This account of those years is an epic tale of the will to survive that offers a rare glimpse of man's invincible spirit, resourcefulness, and ingenuity. A hero to his people, Onoda wrote down his experiences soon after his return to civilization. This book was translated into English the following year and has enjoyed an approving audience ever since.

The Things They Carried-Tim O'Brien 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Handbook of Key Global Financial Markets, Institutions, and Infrastructure-Gerard Caprio 2013 This title begins its description of how we created a financially-intergrated world by first examining the history of financial globalization, from Roman practices and Ottoman finance to Chinese standards, the beginnings of corporate practices, and the advent of efforts to safeguard financial stability.

The Thirty Years War-J. V. Polisensky 2021-01-08 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1971.

America's 30 Years War-Balint Vazsonyi 2000-03-01 The Hungarian-born historian and concert pianist shows how every time America moves away from its founding principles it moves in the direction where a fantasy of "social justice" is pursued through ever-greater government control. Tyll-Daniel Kehlmann 2020-02-06 'A masterly achievement, a work of imaginative grandeur and complete artistic control' Ian McEwan 'Brilliant and unputdownable' Salman Rushdie He's a trickster, a player, a jester. His handshake's like a pact with the devil, his smile like a crack in the clouds; he's watching you now and he's gone when you turn. Tyll Ulenspiegel is here! In a village like every other village in Germany, a scrawny boy balances on a rope between two trees. He's practising. He practises by the mill, by the blacksmiths; he practises in the forest at night, where the Cold Woman whispers and goblins roam. When he comes out, he will never be the same. Tyll will escape the ordinary villages. In the mines he will defy death. On the battlefield he will run faster
than cannonballs. In the courts he will trick the heads of state. As a travelling entertainer, his journey will take him across the land and into the heart of a never-ending war. A prince’s doomed acceptance of the Bohemian throne has European armies lurching brutally for dominion and now the Winter King casts a sunless pall. Between the quests of fat counts, witch-hunters and scheming queens, Tyll dances his mocking fugue; exposing the folly of kings and the wisdom of fools. With macabre humour and moving humanity, Daniel Kehlmann lifts this legend from medieval German folklore and enters him on the stage of the Thirty Years’ War. When citizens become the playthings of politics and puppetry, Tyll, in his demonic grace and his thirst for freedom, is the very spirit of rebellion - a cork in water, a laugh in the dark, a hero for all time.

The Encyclopaedia Britannica- 2020-12-15 This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

The Twilight War-David Crist 2012-07-19 The dramatic secret history of our undeclared thirty-year conflict with Iran, revealing newsbreaking episodes of covert and deadly operations that brought the two nations to the brink of open war. For three decades, the United States and Iran have engaged in a secret war. It is a conflict that has never been acknowledged and a story that has never been told. This surreptitious war began with the Iranian revolution and simmers today inside Iraq and in the Persian Gulf. Fights rage in the shadows, between the CIA and its network of spies and Iran's intelligence agency. Battles are fought at sea with Iranians in small speedboats attacking Western oil tankers. This conflict has frustrated five American presidents, divided administrations, and repeatedly threatened to bring the two nations into open warfare. It is a story of shocking miscalculations, bitter debates, hidden casualties, boldness, and betrayal. A senior historian for the federal government with unparalleled access to senior officials and key documents of several U.S. administrations, Crist has spent more than ten years researching and writing The Twilight War, and he breaks new ground on virtually every page. Crist describes the series of secret negotiations between Iran and the United States after 9/11, culminating in Iran's proposal for a grand bargain for peace which the Bush administration turned down. He documents the clandestine counterattack Iran launched after America's 2003 invasion of Iraq, in which thousands of soldiers disguised as reporters, tourists, pilgrims, and aid workers toiled to change the government in Baghdad and undercut American attempts to pacify the Iraqi insurgency. And he reveals in vivid detail for the first time a number of important stories of military and intelligence operations by both sides, both successes and failures, and their typically unexpected consequences. Much has changed in the world since 1979, but Iran and America remain each other's biggest national security nightmares. "The Iran problem" is a razor-sharp briar patch that has claimed its sixth presidential victim in Barack Obama and his administration. The Twilight War adds vital new depth to our understanding of this acute dilemma it is also a thrillingly engrossing read, animated by a healthy irony about human failings in the fog of not-quite war.

The War for Kindness-Jamil Zaki 2019-06-06 'In this masterpiece, Jamil Zaki weaves together the very latest science with stories that will stay in your heart forever' - Angela Duckworth, author of Grit 'Scientific, gripping, groundbreaking and hopeful. The War for Kindness is the message for our times' - Carol Dweck, author of Mindset Empathy has been on people's mind a lot lately. Philosophers, evolutionary scientists and indeed former President Obama agree that an increase in empathy could advance us beyond the hatred, violence and polarization in which the world seems caught. Others disagree, arguing it is easiest to empathize with people who look, talk or think like us. As a result, empathy can inspire nepotism, racism and worse. Having studied the neuroscience and psychology of empathy for over a decade, Jamil Zaki thinks both sides of this debate have a point. Empathy is sometimes an engine for moral progress, and other times for moral failure. But Zaki also thinks that both sides are wrong about how empathy works. Both scientists and non-scientists commonly argue that empathy is something that happens to you, sort of like an emotional
knee-jerk reflex. Second, they believe it happens more to some people than others. This lines people up along a spectrum, with deep empaths on one end and psychopaths on the other. What's more, wherever we are on that spectrum, we're stuck there. In The War for Kindness, Zaki lays out a very different view of how empathy works, one that breaks these two assumptions. Empathy is not a reflex; it's a choice. We choose empathy (or apathy) constantly: when we read a tragic novel, or cross the street to avoid a homeless person, or ask a distraught friend what's the matter. This view has crucial consequences: if empathy is less a trait (like height), and more a skill (like being good at word games), then we can improve at it. By choosing it more often, we can flex our capabilities and grow more empathic over time. We can also "tune" empathy, ramping it up in situations where it will help and turning it down when it might backfire. Zaki takes us from the world of doctors who train medical students to empathise better to social workers who help each other survive empathising too much. From police trainers who help cadets avoid becoming violent cops to political advocates who ask white Americans to literally walk a (dusty) mile in Mexican immigrants' shoes. This book will give you a deepened understanding of how empathy works, how to control it and how to become the type of empathiser you want to be.

My Thirty Years' War - Margaret C Anderson 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
