Nathan B. Young and the Struggle Over Black Higher Education-Antonio Frederick Holland 2006 At the turn of the twentieth century, African Americans eager to improve their lives through higher education were confronted with the divergent points of view of two great leaders: Booker T. Washington advocated vocational training, while W. E. B. Du Bois stressed the importance of the liberal arts. Into the fray stepped Nathan B. Young, who, as Antonio Holland now tells, left a lasting mark on that debate. Born in slavery in Alabama, Young followed a love of learning to degrees from Talladega and Oberlin Colleges and a career in higher education. Employed by Booker T. Washington in 1892, he served at Tuskegee Institute until conflict with Washington's vocational orientation led him to move on. During a brief tenure at Georgia State Industrial College under Richard R. Wright, Sr., he became disillusioned by efforts of whites to limit black education to agriculture and the trades. Hired as president of Florida A&M in 1901, he fought for twenty years to balance agricultural/vocational education with the liberal arts, only to meet with opposition from state officials that led to his ouster. This principled educator finally found his place as president of Lincoln University in Missouri in 1923. Here Young made a determined effort to establish the school as a standard institution of higher learning. Holland describes how he campaigned successfully to raise academic standards and gain accreditation for Lincoln's programs-successes made possible by the political and economic support of farsighted members of Missouri's black community. Holland shows that the great debate over black higher education was carried on not only in the rhetoric of Washington and Du Bois but also on the campuses, as Young and others sought to prepare African American students to become thinkers and creators. In tracing Young's career, Holland presents a wealth of information on the nature of the education provided for former slaves and their descendents in four states-shedding new light on the educational environment at Oberlin and Tuskegee-and on the actions of racist white government officials to limit the curriculum of public education for blacks. Although Young's efforts to improve the schools he served were often thwarted, Holland shows that he kept his vision alive in the black community. Holland's meticulous reconstruction of an eventful career provides an important look at the forces that shaped and confounded the development of black higher education during traumatic times.

Smarter Budgets, Smarter Schools-Nathan Levenson 2012 Armed with real-world examples and out-of-the-box ideas, Nathan Levenson challenges conventional thinking about school budgeting and offers practical, actionable advice for school superintendents, central office leaders, building principals, and school board members. Virtually every school district in the nation is experiencing an extended period of financial constraints. Shrinking tax revenue, decreasing federal stimulus funds, rising health care and pension costs, and growing high-need student populations will continue to test superintendents and school boards as they seek to prepare students for a globally competitive environment.

You Love Your Daddy, Don't You?-Sarah Harrison 2008-03 "Mama, something terrible is wrong with me. There is blood in my panties!" Those were the words of seven-year-old Sarah. Mama told her she must have fallen or something and not to worry. Sarah went away feeling sad; her chance for help was gone! It was Sarah's alter, Susie, who had been sticking pencils and other items in her private place. Susie had come when Sarah was only four years old. Susie had become Daddy's 'special' little girl by sitting on his lap. In return he gave her a dollar for any change she had. Daddy played with
Susie's pee pee and it was Susie that slept in the upstairs bedroom with her fourteen-year-old brother. Later in life, two other alters would appear. "You Love Your Daddy, Don't You?" is told through the memories of Sarah. It reveals a child’s determination to survive despite profound emotional, physical, and sexual abuse. This was compounded by constant neglect from both parents.

For a young black man like Nathan Summerdale, many of these changes had not yet reached the small city of Sarasota. Nathan knew that in order for him to experience these exciting changes, he had to leave his small community of Newtown.

The Forerunners-Robert P. Swierenga 1994 The Forerunners offers the first detailed history of the immigration of Dutch Jews to the United States and to the whole American diaspora. Robert Swierenga describes the life of Jews in Holland during the Napoleonic era and examines the factors that caused them to emigrate, first to the major eastern seaboard cities of the United States, then to the frontier cities of the Midwest, and finally to San Francisco. He provides a detailed look at life among the Dutch Jews in Boston, New York, Philadelphia, Baltimore, and New Orleans. Swierenga gathered materials from published local community histories, Jewish archival records and periodicals, synagogue records, and particularly, the Federal Population Census manuscripts from 1820 through 1900. He details the contributions and the leadership provided by the Dutch Jews and relates how they lost their "Dutchness" and their Orthodoxy within several generations of their arrival here and were absorbed into broader American Judaism.

Nathan Hale-M. William Phelps 2015-03-03 Few Americans know much more about Nathan Hale than his famous last words: “I only regret that I have one life left to give for my country.” But who was the real Nathan Hale? M. William Phelps charts the life of this famed patriot and Connecticut’s state hero, following Hale's rural childhood, his education at Yale, and his work as a schoolteacher. Even in his brief career, he distinguished himself by offering formal lessons to young women. Like many young Americans, he was soon drawn into the colonies' war for independence and became a captain in Washington's army. When the general was in need of a spy, Hale willingly rose to the challenge, bravely sacrificing his life for the sake of American liberty. Using Hale's own journals and letters as well as testimonies from his friends and contemporaries, Phelps depicts the Revolution as it was seen from the ground. From the confrontation in Boston to the battle for New York City, readers experience what life was like for an ordinary soldier in the struggling Continental Army. In this impressive, well-researched biography, Phelps separates historical fact from long-standing myth to reveal the truth about Nathan Hale, a young man who deserves to be remembered as an original American patriot.

Nathan Hale-Kathleen Tracy 2020-02-11 The war was looking bleak for the American colonists. General George Washington and his army had just barely escaped destruction at the Battle of Brooklyn, and now the mighty British fleet was preparing another attack. Washington desperately needed to figure out the enemy's plan. The only way to get the information he needed was to send a spy behind British lines. The soldier who volunteered to take the assignment was a twenty-one-year-old former schoolteacher named Nathan Hale. He became the first American spy executed in the line of duty, and his last words, "I only regret that I have but one life to lose for my country," became a rallying cry for the Revolution. Nathan Hale's courage in the face of death has become an enduring symbol of American patriotism. His willingness to sacrifice his life for the greater good stands as a powerful testament to the selflessness that turns ordinary men into heroes.
