Guidelines for Essential Trauma Care-World Health Organization 2004 Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection.

Barron's GRE-Sharon Green 2009 "This manual's new edition offers prospective graduate students intensive preparation for the GRE Graduate Record Exam. Opening chapters provide a perspective on the exam with a GRE overview, advice on effective test-taking tactics, and a diagnostic test to help students pinpoint their strengths and weaknesses. Subsequent chapters review all GRE test areas and include practice exercises for the following topics: antonym, analogy, and sentence-completion questions, reading comprehension, vocabulary, analytical writing, discrete quantitative questions, quantitative comparison questions, data interpretation questions, and math. The math review includes questions in arithmetic, algebra, and geometry. The manual's concluding section presents five full-length model exams that reflect recent GREs in length, question types, and degree of difficulty. All questions are answered and explained."--Publisher's description.
