At the Edge of Uncertainty-Michael Brooks 2015-06-04 The atom. The Big Bang. DNA. Natural selection. All ideas that have revolutionised science - and that were dismissed out of hand when they first appeared. The surprises haven't stopped: here, Michael Brooks, bestselling author of 13 Things that Don't Make Sense, investigates the new wave of unexpected insights that are shaping the future of scientific discovery. Through eleven radical new insights, Brooks takes us to the extreme frontiers of what we understand about the world. He journeys from the observations that might rewrite our history of the universe, through the novel biology behind our will to live, and on to the physiological root of consciousness. Along the way, he examines how the
underrepresentation of women in clinical trials means that many of the drugs we use are less effective on women than men and more likely to have adverse effects, explores how merging humans with other species might provide a solution to the shortage of organ donors, and finds out if there is such a thing as the will to live. When we think about science, we often think of iron-clad facts. But today more than ever, our unshakeable truths have been shaken apart. As Michael Brooks reveals, the best science is about open-mindedness, imagination and a love of mind-boggling adventures at the edge of uncertainty.

The Edge of the Gulf-Hadley Hury 2011-05-27 Laurel Beach is one of the last old-fashioned villages in the West Florida panhandle, one that has, so far, escaped commercial over-development. It presents both a haven and opportunity, and, this summer, it plays host to a varied cast. Grief has nearly destroyed Hudson DeForest. He’s barely been going through the motions, teaching in a Memphis girls school, writing about film, talking to the dog. He’s hanging on by a thread. It’s been two years since Kate died, two years of grappling with profound loss, with the impact of the marriage of a lifetime cut short. Hudson’s friend Charlie
Brompton, the successful developer and restaurateur, is facing a different loss. It’s time for him to let go of his most beloved enterprise, the mecca of fine dining known as the 26-A after the panhandle highway where it sits. And of its funky adjunct, The Blue Bar. With no immediate family as heirs, Charlie’s considering his choice of successors. And what he should do for his godson, Chaz? He also wonders if Hudson will return to Laurel Beach, to the cottage he occupied with Kate. Will Hudson ever forgive him? Meanwhile Chaz has met Sydney, a former actress. They’re living well in Atlanta, thinking about marriage. Thinking, too, that perhaps they should go to Laurel Beach, touch base with Charlie.... As Hudson settles in and doggedly takes up his summer project—he has a book contract for a collection of his film reviews—the undying past and a present struggling to be born exert their fierce, and sometimes indistinguishable, claims. So it is for Charlie, and for Sydney and Chaz. Gradually a bizarre maelstrom of deceit, betrayal, and murder evolves in Laurel Beach, ensnaring the wealthy and the beautiful, the misguided and the desperate. Will its force fill Hudson with newfound determination to celebrate life—or will it destroy those he still holds dear?

Writing from the Edge of the World-Gonzalo Fernández de Oviedo y Valdés 2006 A stirring account of Spain's incursion into the New World. Gonzalo Fernandez de Oviedo is the 16th-century author of "Historia general y natural de las Indias," a general and natural history of the peoples and places he encountered in his travels to Spanish America. Oviedo was educated at the court of King Ferdinand and Queen Isabella and held several early appointments to the royal household, first as page to their son, John. In 1513, he accepted the appointment as warden of the gold mines of Castilla de Oro on the Isthmus of Panama in Darien, the first viable Spanish settlement on the American mainland. His first year at the very edge of the known world converted Oviedo into a lifelong resident of America and, more importantly, marked the beginning of his campaign to appropriate the topic of the Indies and become its interpreter to Europe. As G. F. Dille points out in his introduction, this work earned Oviedo the title of many firsts--first historian, first enthographer, first naturalist, first anthropologist, and first sociologist of the New World. Dille adds to that list first autobiographer and first novelist of the Americas. This annotated translation contains the section of Oviedo's work that recounts his experience in the New World during his service in Panama. Dille includes a brief introduction to Oviedo and provides general information on the political background of Spain and on the Spanish colonial system, the printing history of the text, a description of the reception of Oviedo's work, and notes on the translation. G. F. Dille is Professor Emeritus of Spanish at Bradley University in Peoria, Illinois, and author of "Antonio Enriquez Gomez, 1600-1663."
I Glanced Out the Window and Saw the Edge of the World-Catherine Halsall 2020-07-08 This book is about WAR--not the causes and results, not the planning and the campaigns, not the artillery and the bombs. It is about the heinous crimes committed by the combatants, the horrifying experiences of civilians, the
devastation of cities and villages, the killing and the dying, the glory leading to revulsion and guilt, and the assimilation of suffering that either ends in death or in the triumph of the soul. It looks at the struggle of the church to remain faithful and the servants of the church who seek to bring sense and solace to the victims. It discusses antisemitism, racism, and war itself from biblical perspectives. It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples--the mental instability of the survivors and the loss and grief of those on the home front. In war, how can men and women carry out the actions that they do? As Viktor Frankl writes: "After all, man is that being who has invented the gas chambers of Auschwitz; however, he is also that being who has entered those gas chambers upright, with the Lord's Prayer or the Shema Yisrael on his lips."

The Edge of Surrealism—Roger Caillois 2003 The Edge of Surrealism is an essential introduction to the writing of French social theorist Roger Caillois. Caillois was part of the Surrealist avant-garde and in the 1930s founded the College of Sociology with Georges Bataille and Michel Leiris. He spent his life exploring issues raised by this famous group and by Surrealism itself. Though his subjects were diverse, Caillois focused on concerns crucial to modern intellectual life, and his essays offer a unique perspective on many of twentieth-century France's most significant intellectual movements and figures. Including a masterful introductory essay by Claudine Frank situating his work in the context of his life and intellectual milieu, this anthology is the first comprehensive introduction to Caillois's work to appear in any language. These thirty-two essays with commentaries strike a balance between Caillois's political and theoretical writings and between his better known works, such as the popular essays on the praying mantis, myth, and mimicry, and his lesser-known pieces. Presenting several new pieces and drawing on interviews and unpublished correspondence, this book reveals Caillois's consistent effort to reconcile intellectual rigor and imaginative adventure. Perhaps most importantly, The Edge of Surrealism provides an overdue look at how Caillois's intellectual project intersected with the work of Georges Bataille and others including Breton, Bachelard, Benjamin, Lacan, and Lévi-Strauss.
