The British Television Pilot Episodes Research Guide 1936-2015-Christopher Perry 2015-12-01 A new idea can become an expensive flop for TV executives. So from the earliest days of television, the concept of a pilot episode seemed like a good idea. Trying out new actors; new situations and new concepts before making a series was good economical sense. It was also tax deductible. Sometimes these pilots were shown on television; sometimes they were so awful they were hidden from sight in archives; and sometimes they were excellent one-offs, but a series seemed elusive and never
materialised. Chris Perry has always been fascinated by the pilot episode. So many pilots are made annually, but never seen by audiences. Only a handful appear on screen. It's a hidden world of comedy, variety, drama and factual programming. This volume attempts to lift the lid on the world of the TV pilot by revealing the many transmitted and untransmitted episodes made through the decades.

Inside Little Britain-Matt Lucas 2006 Written together with friend and journalist Boyd Hilton, this is a look at a year in the lives of Matt Lucas and David Walliams—the good, the bad, the mundane, and the monumental. The year covered includes a mammoth nine-month Spinal Tap-esque tour where "Little Britain" goes in search of Great Britain. This milestone book offers an unrivaled close-up of a classic British comedy act, as it happens, at the height of its powers. But it is also a journey into their pasts, reflecting on how they achieved their success. It covers their childhoods, family life, and early comedy performances as they found their feet; their complex friendship and working relationship; and the increasingly insane world they now inhabit. Mixing memoir and travelogue to paint an engrossing portrait of fame and comic genius, "Inside Little Britain" is a candid look inside the celebrity bubble in all its glamour and awfulness.

Nation, Ethnicity and Race on Russian Television-Stephen Hutchings 2015-03-05

Russia, one of the most ethno-culturally diverse countries in the world, provides a rich case study on how globalisation and associated international trends are disrupting, and causing the radical rethinking of approaches to, inter-ethnic cohesion. The book highlights the importance of television broadcasting in shaping national discourse and the place of ethno-cultural diversity within it. It argues that television’s role here has been reinforced, rather than diminished, by the rise of new media technologies. Through an analysis of a wide range of news and other television programmes, the book shows how the covert meanings of discourse on a particular issue can diverge from the overt significance attributed to it, just as the impact of that discourse may not conform with the original aims of the broadcasters. The book discusses the tension between the imperative to maintain security through centralised government and overall national cohesion that Russia shares with other European states, and the need to remain sensitive to, and to accommodate, the needs and perspectives of ethnic minorities and labour migrants. It compares the increasingly isolationist popular ethnonationalism in Russia, which harks back to "old-fashioned" values, with the similar rise of the Tea Party in the United States and the UK Independence Party in Britain. Throughout, this extremely rich, well-argued book complicates and challenges received wisdom on Russia’s recent descent into authoritarianism. It
points to a regime struggling to negotiate the dilemmas it faces, given its Soviet legacy of ethnic particularism, weak civil society, large native Muslim population and overbearing, yet far from entirely effective, state control of the media.

Australian Encounters-Shane Maloney 2011

What happened when Bob Hawke locked horns with Frank Sinatra, when Lionel Rose sparred with Elvis, when Nicole Kidman first clapped eyes on Tom Cruise, and Norman Gunston leapt on stage with Frank Zappa? With abundant humour, Australian Encounters records these and other unexpected meetings. In the great tradition of Australian yarning, Shane Maloney tells the tale and Chris Grosz paints the picture of the memorable moment when paths cross and personalities collide. 'Bizarre, unexpected - & memorable!' - Barry Jones

'Shane Maloney has been getting couples to wriggle about lewdly under the doona for years. It's a triumph that he has squeezed all that grunt and poke into this startling book.' - H.G. Nelson

Includes Donald Bradman and Boris Karloff, Michael Hutchence and Kylie Minogue, Peter Finch and Vivien Leigh, Margaret Fulton and Elizabeth David, Frank Hardy and Nana Mouskouri, Martina Navratilova, Winston Churchill, Gandhi, Henry Kissinger, and Helena Rubinstein and many more.

Box of Frogs-Iain Hollis 2016-11-28 In 2015, Iain Hollis embarked on a 4,000 mile solo cycling adventure around Europe. Medically retired with a broken ankle, after spending 23 years in the police, the 46-year-old former Royal Marine Commando spent 95 days on the road. Towing a trailer loaded with kit, his travels took him from France, over the Austrian Alps and right down to the Black Sea in Bulgaria. Camping each night in any available cover and cooking on a portable stove, he witnessed all kinds of things. The return route through Ukraine, Poland and Estonia culminated with a ferry crossing to Sweden before he flew home after an epic journey spanning 26 countries. The ride was a kind of self-help therapy to a troubled individual. Rejected by his mum after his parents’ divorce and cruelly abused by his stepmother, Iain was placed in a children’s home at the age of 7. From a long-term foster home, he joined the Marines at 16 and recalls his experiences in the desert, jungle and Arctic. He even shared a landing craft with Prince Philip and got a part as a movie extra, playing a German in Indiana Jones. At 21, he joined the police, got married and had kids, but his traumatic childhood caused a near breakdown and his career took a bumpy ride with a suspension from duty and a daunting court trial. Subsequently getting his new life seemingly on track, Iain took up marathon running and won the 2000 London fancy dress. He went on to compete on three more occasions but this new hobby was cut short following his ankle break in 2003. Unable to run, his journeys to work by boat soon earned him fame as the ‘canoeing cop’. With a gradual deterioration in the ankle and after failed surgery, he came close to self-amputation. Box of Frogs: Memoirs of a Canoeing Cyclist is a fascinating autobiography that will take you on Iain’s globe-trotting rollercoaster ride of life so far. It will appeal to those who enjoy true stories and tales of overcoming adversity and strife.
How to Teach-Phil Beadle 2010-06-07 How to Teach is the most exciting, most readable, and most useful teaching manual ever written. It is not the work of a dry theorist. Its author has spent half a lifetime working with inner city kids and has helped them to discover an entirely new view of themselves. This book lets you into the tricks of the trade that will help you to do the same, from the minutiae of how to manage difficult classes through to exactly what you should be looking for when you mark their work. How to Teach covers everything you need to know in order to be the best teacher you can possibly be.

From Trocchi to Trainspotting - Scottish Critical Theory Since 1960-Michael Gardiner 2006-07-04 This book charts the course of Scottish Critical Theory since the 1960s. It provocatively argues that 'French' critical-theoretical ideas have developed in tandem with Scottish writing during this period. Its themes can be read as a breakdown in Scottish Enlightenment thinking after empire - precisely the process which permitted the rise of 'theory'. The book places within a wider theoretical context writers such as Muriel Spark, Edwin Morgan, Ian Hamilton Finlay, James Kelman, Alexander Trocchi, Janice Galloway, Alan Warner and Irvine Welsh, as well as more recent work by Alan Riach and Pat Kane, who can be seen to take the 'post-Enlightenment' narrative forward. In doing so, it draws on the work of the Scottish thinkers John Macmurray and R.D. Laing as well as the continental philosophers Gilles Deleuze and Paul Virilio.

Cultural Analysis-Jim McGuigan 2009-09-26 'Jim McGuigan has done it again. The complex cultural
machinery hiding behind the apparently simple 'facts of life' still fresh in our collective memory, has been pulled out from its hiding, exposed, disassembled and put together again, and showed in action of shaping up its products; all that done to the benefit of us all - simultaneously producers and product of the life we share. Another great contribution to cultural studies; and to our understanding of the world notorious for defying/escaping understanding. This is exactly what we need 'cultural analysis' for' - Professor Zygmunt Bauman, Emeritus Professor of Sociology, University of Leeds 'Jim McGuigan is one of cultural studies' leading practitioners. This volume is a generous and wide-reaching exploration of how to use cultural theory to explore a wide variety of topics, brought together under the sign of the struggle for a vigorous, participatory public sphere' - Toby Miller, University of California This book represents a distinctive approach to cultural analysis, using multi-dimensional methods for addressing issues of public interest. Stressing the impact of both neoliberalism and the formation of a 'cool capitalist culture' that has colonised everyday life around much of the globe, Jim McGuigan deploys his original concept of the 'cultural public sphere' within several carefully analysed case studies, including: • celebrity death • festivals and urban regeneration • 'race' and multicultural controversy • popular television • social significance of the all purpose mobile communication device in a privatised and individualised way of life • riskiness and uncertainty in the creative and media industries This is a radical intervention in the research agendas and conceptual development of cultural policy studies, cultural sociology and, more generally, in the broad field known as 'cultural studies'. It offers challenging theoretical arguments that are substantiated with concrete evidence of cultural and social processes.

The Kaleidoscope British Christmas Television Guide 1937-2013-Chris Perry 2016-02-03 A Guide to British television programmes shown at Christmas time, throughout the years.
Gender and Laughter- 2009-01-01 This essay collection is dedicated to intersections between gender theories and theories of laughter, humour, and comedy. It is based on the results of a three-year research programme, entitled “Gender - Laughter - Media” (2003-2006) and includes a series of investigations on traditional and modern media in western cultures from the 18th to the 20th century. A theoretical opening part is followed by four thematic sections that explore the multiple forms of irritating stereotypical gender perceptions; aspects of (post-)colonialism and multiculturalism; the comic impact of literary and media genres in different national cultures; as well as the different comic strategies in fictional, philosophical, artistic or real life communication. The volume presents a variety of new approaches to the overlaps between gender and laughter that have only barely been considered in groundbreaking research. It forms a valuable read for scholars of literary, theatre, media, and cultural studies, at the same time reaching out to a general readership.

I Wrote You a Song-Guy Simons 2015-09-18 I Wrote You A Song is a book that has been constructed like an album with twelve original songs written by Guy Simons that provides a sub-text for life’s journey. The author discusses the underlying theme of each song from a social context using autobiographical reflections, social observations and philosophical musings, intermingled with a large dose of satirical commentary, quirkiness and humour. The author invites readers to be inspired to find their true place in this world through twelve songs that take them on a journey of self-discovery and personal recollection. Covering topics of life, death, love, hate, joy, despair, health, sickness, hopes, fears, wealth and poverty, immerse yourself in an album unlike any other. Recall your own experiences within each song and reconnect to your past through subject headings that are actual popular song titles. Whether that is the “Start” or “The End” you are sure to find an
affinity with the subject headings, and if you’re looking for “Good Vibrations” or the “Art of Dying” you will find it here. A prelude provides the insight prior to embarking on the journey through songs as diverse as “The New Elvis Presley”, “You Say You’re Leaving” to “Another Bad Day at the Office” and “Cyber Spaceman” culminating in the curtain raiser “I Wrote You a Song”. A coda followed by the encore brings the work to a close giving you a chance to confirm whether your soundtrack to this book mirrored the author’s, or whether you would have chosen alternate subject headings to align to your own personal experience. The author is a songwriter and he has written you a song.

The Doctors Who's Who - The Story Behind Every Face of the Iconic Time Lord: Celebrating its 50th Year-Craig Cabell 2011-11-27 Doctor Who is the world's longest-running science fiction television series, and has had children hiding behind sofa's since it was first broadcast in 1963. Eleven actors have played the famous Time Lord, starting with William Hartnell, and it has been a career landmark for all of them. Indeed, no other role in television history is as iconic, demanding, or as anticipated by its legions of fans as that of the famous time traveller with two hearts. Find out: * Who was a bouncer for The Rolling Stones before taking control of the Tardis. * Who was nearly blown up in the Second World War aboard HMS Hood. * Who had a fondness for woolly hats and had a grandson who would become Harry Potter's nemesis. * Who played a transvestite barmaid before becoming a Doctor Who heart-throb. Go back in time and read the human story behind a TV legend.

Steven Moffat's Doctor Who 2011- At over 90,000 words, this is the most comprehensive guide yet published to the 2011 season of Doctor Who. This series of Doctor Who had the greatest ambition yet, as Steven Moffat created the most complex Doctor Who story arc ever. The apparent death of the Doctor in the very first episode set the groundwork for a series full of other shocks and revelations (such as River Song's identity), which ended with a return to the essential mystery that has always underpinned the programme. The format of this book is the same as the one that we laid out in our previous guide to Matt Smith's first series as the Doctor. Steven Cooper has written excellent detailed analyses of each episode, which he published online soon after each episode was broadcast, thus providing an invaluable record of how a long-standing fan reacted to each twist of the plot as it occurred. Kevin Mahoney follows Steven's analyses with his reviews, which he wrote from the perspective of having watched the entire series. This enabled Kevin to gauge exactly how Steven Moffat had put this season together, and to assess the success of his various hoodwinks and sleights of hand. There have been various controversies this series, such as Moffat's novel move to split the series in half. Then there were murmurings of discontent within fandom when the news that there might be fewer than 14 episodes in 2012 leaked out, along with the perennial erroneous tales from the newspapers about the loss of viewing figures. The cancellation of Doctor Who Confidential
left some fans fearing for the future of such an expensive show in austere times. Others have gone further than this, to suggest that Doctor Who itself needs a break. However, despite some minor blips in the storytelling department in 2011, this book argues that there is still a great deal to be positive about in Doctor Who. While we haven't quite yet reached another golden age for the programme, the authors of this book believe that the potential is still very much there to achieve this.

Sex, Needs and Queer Culture-Doctor David Alderson 2016-04-15 The belief of many in the early sexual liberation movements was that capitalism’s investment in the norms of the heterosexual family meant that any challenge to them was invariably anti-capitalist. In recent years, however, lesbian and gay subcultures have become increasingly mainstream and commercialized — as seen, for example, in corporate backing for pride events — while the initial radicalism of sexual liberation has given way to relatively conservative goals over marriage and adoption rights. Meanwhile, queer theory has critiqued this ‘homonormativity’, or assimilation, as if some act of betrayal had occurred. In Sex, Needs and Queer Culture, David Alderson seeks to account for these shifts in both queer movements and the wider society, and argues powerfully for a distinctive theoretical framework. Through a critical reassessment of the work of Herbert Marcuse, as well as the cultural theorists Raymond Williams and Alan Sinfield, Alderson asks whether capitalism is progressive for queers, evaluates the distinctive radicalism of the counterculture as it has mutated into queer, and distinguishes between avant-garde protest and subcultural development. In doing so, the book offers new directions for thinking about sexuality and its relations to the broader project of human liberation.

The League of Gentlemen-Leon Hunt 2008-11-04 The League of Gentlemen Part sitcom, part sketch show, part 'Kitchen Sink', part 'Northern Gothic', The League of Gentlemen is one of British television's most innovative and enduring comedy series. Set in the northern town of Royston Vasey, the series introduced viewers to homicidal Local Shop keepers Tubbs and Edward, vindictive
training officer Pauline, demonic butcher Hilary Briss, and the nightmarish circus owner Papa Lazarou. Such was the series' effect that the word 'local' would never seem the same again. The majority of these grotesque characters were played by Mark Gatiss, Steve Pemberton and Reece Shearsmith, who created and wrote the series with Jeremy Dyson. In addition to creating a unique world, where the mundane collided with the macabre, the League showcased a versatility in its performers rarely seen in TV comedy. Leon Hunt's entertaining and illuminating study offers the most sustained analysis of the series. Drawing on original interviews with Dyson and Gatiss, he traces the League's evolution, from fringe theatre to radio to television, from sketch-based material to the longer narratives of the Christmas Special and the contentious third series. Hunt contextualises the series as a 'cult classic', discussing its place within traditions of British comedy, its references to horror and fantasy and its creation of a grotesque and self-contained world. Leon Hunt is Senior Lecturer in Film and TV Studies at Brunel University. He is the author of Kung Fu Cult Masters: From Bruce Lee to Crouching Tiger (2003) and British Low Culture: From Safari Suits to Sexploitation (1998).
